

WSP can provide the full spectrum of Emergency and Disaster Preparedness, Response, Recovery and Logistics Services

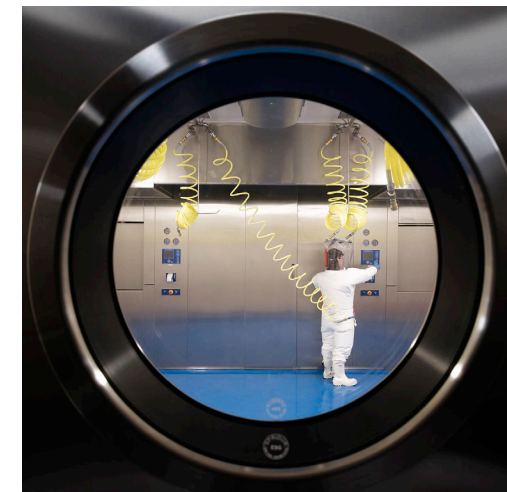

to government and commercial clients alike by leveraging WSP's 10,000 employees across over 150 offices in the U.S., and more than 300 offices worldwide. Our company has **30 years of experience with direct support to hurricane responses with Katrina, Sandy, Maria, Michael, Dorian**, and many more; volcanic eruptions and typhoons in the Philippines; and earthquakes in Japan and Haiti. Members of our company supported the anthrax attacks in New York City as well as the World Trade Center attacks in 2001 and are currently engaged in responding to the coronavirus pandemic of 2020.

Our 24/7/365 emergency operations and our value-added, Future Ready™ culture and business approach leverages WSP's full suite of professional and logistics services. Combined with a large and diverse stable of suppliers and partners, WSP can provide our clients whatever they need, when they need it most, and even in the most challenging of conditions.

- Commissioning
- Quality Assurance
- Asset Tracking and Management
- BSL3/4 Lab Planning and Design

Our team of professionals include experienced field leaders and technical experts that are best-in-class across all relevant services and disciplines. WSP is experienced working in laboratories, hospitals and other medical facilities across the U.S. In addition, we have many standing contracts with the military (eg, US Army Corps of Engineers), other federal agencies (eg, FEMA, US State Department and the US Postal Service), state governments, and large cities (eg, NY City). We can leverage mechanisms such as our GSA Schedule Contracts and/or piggyback on other state emergency management contracts using FEMA allowable processes, at state and local levels.
