We have the global resources to be in the right place at the right time and to provide integrated support across the entire project life cycle, from planning, design and engineering to construction, program management and logistics, to operations and maintenance.

WSP works with federal agencies to engineer life-improving solutions, foster sustainable communities and protect national and natural resources. As trusted advisors, we work for, and in collaboration with, our federal clients to develop cost-effective solutions that keep us safe today and prepare us for what tomorrow may bring.
Trusted Advisors

For more than 100 years, WSP has developed long-standing, productive relationships with federal clients, including the U.S. General Services Administration, U.S. Marine Corps, U.S. Naval Facilities Engineering Systems Command (NAVFAC), U.S. Army Corps of Engineers (USACE), U.S. Agency for International Development (USAID), U.S. Department of Homeland Security (DHS), U.S. Postal Service (USPS), U.S. Department of State (DoS), and U.S. Department of Energy (DoE), among others.

Tailored Local Solutions

With 200 U.S. offices and 12,000 professionals, our clients have access to engineers, planners, scientists, technicians, consultants and academics who develop effective solutions that reflect local environments. We leverage existing relationships with local governments and business partners to successfully complete work according to high standards of quality, safety and health.

Life Cycle Approach

Our federal clients turn to us at all stages of the development life cycle: strategic and master planning, engineering design, procurement, construction, operations and maintenance.

Experience

Leveraging the diverse expertise of our professionals has resulted in successful solutions for many large, mission-critical initiatives, including planning and development of new military, healthcare, science and technology facilities; rebuilding communities after natural disasters; enhancing national security; maintaining national parks and monuments; and restoring and protecting our ecosystem.

Passion to Serve

We are passionate about our work and dedicated to the communities in which we live and work. We consider it a privilege to serve the federal government to keep our communities safe and thriving.

We are on the front lines, solving challenging issues and delivering solutions in the following areas:

- Facilities Design
- Master Planning
- Program Management
- Emergency Management
- Environmental Services
- Integrated Development
Federal facilities support government, as well as business and industry, civic and cultural affairs, healthcare and more. Solutions must adhere to federal guidelines but must also be cost effective, sustainable and aesthetically pleasing within the local cultural context.

Our multidisciplinary approach draws upon the expertise of a wide range of professionals. We hand-pick team members for every engagement, based on the nature of the assignment and the needs of our clients. It is important to us that our clients can depend on their WSP team, anytime and anywhere, to support and guide them throughout the most complex challenges.
WSP offers the full range of services across a wide range of facilities:

- Aviation
- Civic/Cultural/Religious
- Educational/Institutional
- Healthcare
- Industrial
- Justice
- Residential
- Military
- Maritime
- Ports of Entry

1. USACE Mobile District, Tyndall Air Force Base Zone 3, 53rd Weapons Evaluation Group Complex Design-Build Request for Proposal, Florida
2. NAVFAC Northwest, Various Improvements, Puget Sound Naval Shipyard, Washington
3. USACE Norfolk District, Ord & Weitzel Gate Reconstruction, Arlington National Cemetery, Virginia
4. NAVFAC Medical Facilities Architecture/Engineering (A/E) Indefinite Delivery/Indefinite Quantity (IDIQ) Contract
6. USACE Europe District, Deployable Airbase Systems–Facilities, Equipment, and Vehicles/Storage, Câmpia Turzii Air Base, Romania
Planning is the first step in the successful execution of any federal project, ensuring that the infrastructure developed is harmonized with the surrounding communities and environment. Military master planning must reflect the full spectrum of users, from trainees to families, while adhering to strict guidelines to ensure safety, security and the flexibility to meet current and future needs.

WSP's planning team delivers the full spectrum of planning products, with an eye on design and future project phases. Our planning team works with technical experts for each task to ensure that the planning and programming phase of every project leads to future project success.
Our expertise spans the full spectrum of disciplines:

- Economic Analyses
- Requirements Validation
- Programming
- Infrastructure Master Plans
- Installation Development Plans
- Area Development Plans
- Transportation Studies
- Gate Analyses
- Sustainability and Resiliency
- Risk Assessments
- Space Validation
- Vision Plans
- Campus Plans
- Utility Assessments

1. NAVFAC Far East, Camp Butler Utilities Infrastructure Master Plan, Okinawa, Japan

2. USACE Europe District, Programming for Air Force Dormitory, Incirlik Air Base, Turkey

3. USACE Europe District, Update to Army in Europe Regulation 420-100 (Red Book) Charrette Team
4. NAVEAC Mid-Atlantic / U.S. Marine Corps Installation Management Command, Climate Change Adaptation and Resilience Plan, Marine Corps Recruit Depot, Parris Island, South Carolina

5. USACE Europe District, Program Execution Plan and Project Programming for Army Family Housing Master Plan, Germany

6. USACE Europe District, Rapid Airfield Damage Recovery Storage Facility Vehicle Circulation Plan, Royal Air Force Mildenhall, United Kingdom

7. USACE Europe District, Programming for Expanded Tactical Fighter Aircraft Apron and Airfield Upgrades at Karup Air Base, Denmark
Supporting programs around the world

WSP has a longstanding history providing program management services to the USPS and federal clients in the U.S. intelligence community, successfully supporting their diverse and unique missions on contracts around the world for more than 50 years. Projects have included siting studies, multi-disciplinary A/E services, and program/construction management and engineering services.

Our experience meeting complex and sensitive requirements for our clients enables us to anticipate unknowns, deliver alternatives, and offer collaborative solutions. WSP’s senior leadership and project delivery staff understand the no-fail need for quality and high performance our clients trust us to deliver.
WSP offers the following program management services:

- Project Management and Construction Management
- Program Support Services
- Emergency Response and Management
- Environmental and Industrial Hygiene Support
- GIS and Computer-Aided Design
- Building Information Modeling Support
- Program Integration
- Interior Design/Space Planning
- Electrical Inspection
- Military Master Planning
- Architecture
- Civil and Structural Engineering
- Mechanical and Electrical Engineering

1. USPS, 25+ Multidisciplinary A/E Contracts, Nationwide and U.S. Territories
2. USPS, Program Management Services Contract
4. A/E Services for Confidential Federal Client Support to the Intelligence Community
Providing logistics for emergency preparedness and response

Natural and man-made disasters can have crippling effects on the infrastructure and livelihood of entire communities. Logistics management and disaster preparedness are critical to national, state and local recovery teams to ensure that they are positioned to mitigate the effects of such events.

WSP understands that sustainable infrastructure requires an integrated, systems-based approach to managing natural resources, hard infrastructure and financial capital. While there is no silver bullet solution to infrastructure adaptation and resilience, there are cost-effective strategies that increase the reliability and functional life of infrastructure.

To date, WSP has deployed logistics management and emergency response teams to help communities recover from natural disasters, including Hurricane Ida in Louisiana, Mississippi, Alabama and numerous Atlantic states; Hurricane Henri in the Northeast; Hurricaness Irma and Maria in Puerto Rico; Hurricane Hector in Hawaii; Hurricane Florence in Virginia; and Typhoons Yutu and Wutip in Guam. With experts in offices across the globe, we can respond quickly to issues and challenges.
Our proven, rapid-response capabilities enable us to support those in immediate need, including delivery of supplies and emergency power generation.

WSP’s services and capabilities include:

- Aid Management and Distribution
- Cost Recovery
- Damage Assessment
- Debris Management
- Economic and Risk Analyses
- Emergency Power
- Environmental Cleanup
- Emergency Management and Recovery Planning
- Logistics Management
- Mitigation Planning
- Remediation Management
- Warehouse Management
- COVID-19 Testing and Vaccination Site Support

1. CalRecycle, 2020 Fire Debris, Tree Removal Assessment and Management Services, California

2. USACE Pittsburgh District, Advanced Contract Initiative and 2017/2018 Hurricane Response

3. Federal Emergency Management Agency, Housing Inspection Services
Protecting and restoring our natural resources

WSP is a leader in the assessment, remediation and restoration of land, water and air resources. As a global firm with a team of environmental planners, engineers, scientists, regulatory specialists and risk assessors, we understand policy, regulations and compliance frameworks at the local, state, federal and international levels.

Our experience enables us to design innovative remediation and restoration strategies and solutions that are sustainable and cost effective. These strategies have transformed urban waterways, degraded estuaries and contaminated parcels into revitalized public spaces, and have promoted coordination, collaboration and knowledge-sharing among stakeholders.

Our work across the nation with many clients has spanned decades. We focus on developing relationships and a deep understanding of our clients’ missions and visions.
1. USACE Kansas City District and U.S. Environmental Protection Agency (EPA), Hudson River Valley Restoration Program, New York
2. NAVFAC, Environmental Planning, Natural and Cultural Resources Management, and Encroachment Management Support, Nationwide
5. National Park Service, Environmental Planning Services, Nationwide

Our diverse service offering includes:

- Acoustics, Noise and Vibration
- Air Quality
- Heritage and Cultural Resources
- Biodiversity and Natural Capital
- Contaminated Land and Soil Remediation
- Environmental and Social Impact
- Environmental Assessment
- Environmental Compliance
- Environmental Due Diligence
- Geotechnical and Ground Engineering
- GIS, Mapping and Surveying
- Land Services
- Licensing and Permitting
- Materials Engineering
- Sustainability, Energy and Climate Change
- Waste Management
Helping overseas economies thrive

WSP’s integrated development practice has implemented some of the largest economic development, governance reform, and infrastructure programs in transitional economies over the last 50 years.

We have become a recognized partner to U.S. development agencies, banks, financial institutions, non-governmental organizations and global multilateral institutions.

Over the past 20 years WSP’s integrated development team has ...

- Trained 250,000 People
- Facilitated $1 Billion in Investments
- Completed 1,760 Infrastructure Projects
- Disbursed $1.5 Billion in Microloans
- Created >800,000 Jobs
- Leveraged > $1.1 billion in Government and Private Sector Investments
The services provided by our practice include:

**Economic Growth**
- Trade policy and facilitation
- Business enabling environment
- Financial services innovations
- Digital commerce and payment systems
- Enterprise development
- Value chain strengthening
- Skills training for youth

**Governance**
- Public policy
- Public financial management
- Citizen-responsive local governance
- Asset management
- Access to justice

**A&E**
- Planning and feasibility analysis
- Design and supervision
- Capacity building

1. Foreign, Commonwealth and Development Office, Access to Finance, Nepal
2. USAID, Cap-Haïtien Port, Construction-Manager-as-Constructor Services, Haiti
3. USAID, Strengthening Urban Resilience for Growth with Equity (SURGE), Philippines
About WSP USA

WSP USA is the U.S. operating company of WSP, one of the world’s leading engineering and professional services firms. Dedicated to serving local communities, we are engineers, planners, technical experts, strategic advisors and construction management professionals. WSP USA designs lasting solutions in the buildings, transportation, energy, water and environment markets. With more than 12,000 employees in over 200 offices across the U.S., we partner with our clients to help communities prosper.
