Forward-Looking Statements and Non-IFRS measures

FORWARD-LOOKING STATEMENTS
Certain information regarding WSP contained herein may constitute forward-looking statements. Forward-looking statements may include estimates, plans, strategic ambitions, objectives, expectations, opinions, forecasts, projections, guidance, outlook or other statements that are not statements of fact. Forward-looking statements made by the Corporation in this presentation are based on a number of assumptions believed by the Corporation to be reasonable as at March 10, 2022, including assumptions about general economic and political conditions; the state of the global economy and the economies of the regions in which the Corporation operates; the state of and access to global and local capital and credit markets; the anticipated impacts of the COVID-19 pandemic on the Corporation’s businesses, operating results, cash flows and/or financial condition, including the effect of measures implemented as a result of the COVID-19 pandemic; the expected benefits of the Golder Acquisition and other acquisitions; the expected synergies to be realized as a result of the Golder Acquisition and other acquisitions.

Although WSP believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. These statements are subject to certain risks and uncertainties and may be based on assumptions that could cause actual results to differ materially from those anticipated or implied in the forward-looking statements, including risks relating to the COVID-19 pandemic. WSP’s forward-looking statements are expressly qualified in their entirety by this cautionary statement. The complete version of the cautionary note regarding risk factors, which, if realized, could cause the Corporation’s actual results to differ materially from those expressed or implied in forward-looking statements, are included in WSP’s Management’s Discussion and Analysis for the year ended December 31, 2021, which is available on SEDAR at www.sedar.com. The forward-looking statements contained in this presentation are made as of the date hereof and WSP does not assume any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise unless expressly required by applicable securities laws.

NON-IFRS MEASURES
The Corporation reports its financial results in accordance with IFRS. WSP uses a number of financial measures when assessing its results and measuring overall performance. Some of these financial measures are not calculated in accordance with IFRS. Regulation 52-112 respecting Non-IFRS and Other Financial Measures Disclosure (“Regulation 52-112”) prescribes disclosure requirements that apply to the following types of measures used by the Corporation: (i) non-IFRS financial measures; (ii) non-IFRS ratios; (iii) total of segments measures; (iv) capital management measures; and (v) supplemental financial measures.

In this presentation, the following non-IFRS and other financial measures are used by the Corporation: net revenues; adjusted EBITDA; adjusted EBITDA margin; adjusted net earnings; adjusted net earnings per share; backlog; free cash flow; days sales outstanding (“DSO”); and net debt to adjusted EBITDA ratio. Additional details for these non-IFRS measures can be found in section 22, “Glossary of segment reporting, non-IFRS and other financial measures” of WSP’s Management Discussion & Analysis (MD&A) for the year ended December 31, 2021, which is posted on WSP’s website at www.wsp.com and filed on SEDAR at www.sedar.com. Reconciliations of non-IFRS measures and total of segments measures to the most directly comparable IFRS measures are also provided in the MD&A.

Management believes that these non-IFRS measures provide useful information to investors regarding the Corporation’s financial condition and results of operations as they provide key metrics of its performance. These non-IFRS measures are not recognized under IFRS, do not have any standardized meanings prescribed under IFRS and may differ from similar computations as reported by other issuers, and accordingly may not be comparable. These measures should not be viewed as a substitute for the related financial information prepared in accordance with IFRS.

** Non-IFRS ratios that are forward-looking, without a standardized definition under IFRS, which may not be comparable to similar ratios used by other issuers. This presentation release incorporates by reference section 22, "Glossary of segment reporting, non-IFRS and other financial measures", of WSP’s MD&A for the year ended December 31, 2021, which is filed on SEDAR at www.sedar.com, which includes explanations of the composition and usefulness of these non-IFRS ratios. Adjusted EBITDA margin is defined as adjusted EBITDA expressed as a percentage of net revenues.
WSP in 2024: A More Diversified Business

By the end of 2024, WSP’s industry-leading platform will be even more balanced and resilient through expanding in sectors, services and markets with significant growth potential. This will allow us to further our diversification and leverage our market leadership, strong brand, and the breadth of our expertise on our journey to becoming the undisputed leader in our industry.
