THE VALUE TO YOU

By improving your asset information and asset management practices, you can ensure your assets are resilient, services sustainable, and decisions fiscally responsible. This could be as simple as adapting existing processes or as complex as developing a new and sustainable asset management program. WSP has worked with municipalities on both ends of the spectrum and can provide the steppingstones, templates and tools we've developed that will help your community make a smooth transition towards sustainable service delivery using asset management practices customized to your needs and conditions.

WHO WE ARE

WSP is one of the world's leading professional services consulting firms. We are dedicated to our local communities and propelled by international brainpower. We are technical experts and strategic advisors including engineers, technicians, scientists, project managers, planners, surveyors and environmental specialists, as well as other professionals. We design, deliver, and help our clients manage long lasting solutions in the Buildings, Transportation, Infrastructure, Environment, Energy, Resources and Industry sectors as well as project delivery and strategic consulting services. With over 8,000 talented people across Canada and 49,800 globally, we engineer projects that will help societies deliver services for generations to come.
