

The background of the top half of the page is a photograph of a laboratory flask. A red liquid is being dispensed from a glass pipette into the flask. The scene is lit with a strong blue light, creating a high-contrast, scientific atmosphere. The text 'PFAS: SOLUZIONI FUTURE READY' is overlaid in large, red, sans-serif capital letters.

# PFAS: SOLUZIONI FUTURE READY

**PROTEGGERE  
IL BUSINESS  
NELL'ERA DEI  
PFAS**

**L'APPROCCIO COMPLETO  
DELL'EXPERTISE DI WSP**

Affrontare la sfida PFAS richiede visione, competenza e soluzioni affidabili.

WSP supporta aziende e istituzioni a gestire i rischi emergenti legati ai PFAS, dalle implicazioni regolatorie alla protezione della supply chain, fino alle strategie di trattamento e remediation. Con oltre 500 specialisti a livello globale, una profonda esperienza tecnica e un portafoglio consolidato di progetti in Europa e nel mondo, WSP offre un approccio integrato che combina la pianificazione strategica alle più recenti tecnologie di gestione della mitigazione.

# LEADER NEI PFAS

I PFAS rappresentano una contaminazione diffusa, derivante da decenni di utilizzo industriale e domestico. L'Unione Europea sta introducendo normative sempre più stringenti su prodotti, schiume antincendio, acque potabili, reflue e corpi idrici. Aumentano i rischi regolatori, economici, legali e reputazionali per industrie e supply chain. WSP combina competenza tecnica, ricerca applicata e una rete globale di oltre 500 specialisti PFAS offrendo un supporto completo.

Decenni di attività sul tema, ricerca e sviluppo, linee guida, formazione e partnership con le industrie e il mondo accademico si uniscono alla conoscenza delle tecnologie più avanzate, incluso il brevetto sull'elettro-ossidazione, strumenti digitali di risk assessment e approcci multicriteriali.

**Un percorso  
strutturato per  
identificare,  
prioritizzare e  
affrontare i rischi  
PFAS, riducendo  
impatti operativi,  
economici e  
reputazionali.**

Hygiene

Risk assessment/  
toxicology

## REMEDIATION & TREATMENT

Indagini, modellazioni  
e risk assessment

Trattamenti avanzati  
per acqua e suolo

Tecnologie innovative

Gestione reflui,  
emissioni e rifiuti  
contenenti PFAS

# PFAS: FUTURE READY SOLUTIONS

PROTECTING  
BUSINESS IN  
THE AGE OF  
PFAS

THE COMPREHENSIVE  
APPROACH OF WSP'S  
EXPERTISE

Addressing the PFAS challenge requires vision, expertise and reliable solutions.

WSP supports companies and institutions in managing emerging risks related to PFAS, from regulatory implications to supply chain protection, up to treatment and remediation strategies. With over 500 specialists Globally, with deep technical expertise and an established portfolio of projects in Europe and worldwide, WSP offers an integrated approach that combines strategic planning with the latest mitigation management technologies.

# LEADER IN PFAS

PFAS represent widespread contamination, resulting from decades of industrial and domestic use. The European Union is introducing increasingly strict regulations on products, firefighting foams, drinking water, wastewater and water bodies.

Regulatory, economic, legal and reputational risks for industries and supply chains are increasing. WSP combines technical expertise, applied research and a global network of more than 500 PFAS specialists offering comprehensive support.

Decades of activity on the subject, research and development, guidelines, training and partnerships with industries and academia are combined with knowledge of the most advanced technologies, including the patent on electro-oxidation, digital risk assessment tools and multi-criteria approaches.

**A structured path to identify, prioritize and address PFAS risks, reducing operational, economic and reputational impacts.**
