Attention: DFFE Appeals office

Dear Advocate Patel

SUBMISSION OF ESKOM MINIMUM EMISSION STANDARDS EXEMPTION APPLICATION – COMMENTS AND RESPONSE REPORT

1. In Minister's Creecy appeal decision of 22 May 2024 regarding Eskom's applications in terms of the Minimum Emission Standards (MES), the Minister instructed Eskom to.
2. Submit exemption applications in terms of section 59 of the National Environmental Management Air Quality Act (NEMAQA) for several power stations operating post-2030.
3. In a letter dated 25 July 2024 the Minister amended the submission date of 60 days from the original decision to 10 December 2024.
4. Eskom submitted an Eskom fleet-wide and station-specific MES exemption applications for the Minister's consideration on 10 December 2024.
5. A substantive submission was received from the Centre for Environmental Rights (CER) on 6 December 2024.
6. Eskom has updated its stakeholder comments and response report to address technical issues raised in this submission and attach this report for your consideration.
7. The CER submission also raises several legal issues, which Eskom undertakes to respond to by 31 January 2025.

We hope you find our applications in order. Please contact us if you have any questions and we will resolve them urgently.

Yours sincerely

Deidre Herbst

1 INTRODUCTION

Eskom Holdings SOC Ltd (Eskom) is the public electricity utility company of South Africa, as of 2024, Eskom is responsible for supplying approximately 95% of electricity to South Africa's national grid, with an available generation capacity exceeding 35,000 MW (Eskom, 2024). Eskom's role is to help reduce the cost of doing business in South Africa, supporting economic growth, and ensuring a stable electricity supply by delivering power efficiently and sustainably. This mandate is guided by its vision and mission, which aim to enhance the quality of life for people in South Africa and the surrounding region, while maintaining a clean and healthy environment.

Eskom is responsible for generating, transmitting, and distributing electricity across the country and to neighbouring countries such as Namibia, Botswana, Zambia, Zimbabwe, and Mozambique. Approximately 90% of Eskom's generating capacity comes from coal-fired power stations, most of which are located in the Mpumalanga Highveld, with others such as Lethabo Power Station located in the Fezile Dabi District Municipality of the Free State province, and Matimba and Medupi Power Stations located in Limpopo's Waterberg District **(Figure 1-1)**.

Coal-fired power stations are subject to strict environmental regulations and monitoring due to their emissions. In terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:AQA), all coal and liquid fuel-fired power stations are required to meet the minimum emission standards (MES) contained in GNR 893 that was issued on 22 November 2013 (as amended by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. GNR 893 (as amended by GNR 1207) also provides for transitional arrangements in respect of the requirement for existing plants to meet the MES and provides that less stringent 'existing plant' limits must be achieved by 1 April 2015 for existing plants, and more stringent 'new plant' limits must be achieved by existing plants by 1 April 2020 unless specific legal indulgences are obtained.

Between 2018 and 2020, Eskom submitted applications for postponement, suspension and/or alternative limits to the MES for several of its power stations to the Department of Environmental Affairs (now the Department of Forestry, Fisheries, and the Environment (DFFE)) as the power utility sought more time to implement necessary pollution control technologies for nitrogen oxides (NO_X), sulphur dioxide (SO_2) and particulate matter (PM) emissions. These applications were necessary due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. Eskom's commitment to a Just Energy Transition (JET) and its broader climate change strategy also influenced this decision. The high costs of emission reduction technologies, which could significantly impact electricity tariffs and the financial stability of the utility, further underscored the need for a phased approach to compliance. Eskom's applications aimed to balance its legal obligations with the need to maintain stable electricity supply in South Africa (Eskom, 2020).

In response to Eskom's applications, the DFFE granted conditional postponements for several Power Stations in October 2021 (Grootvlei, Arnot, Komati, Camden, Hendrina, Acacia, and Port Rex Power Stations) through its National Air Quality Officer (NAQO); while partial refusals were issued for Majuba, Tutuka, Kendal, and Kriel Power Stations. However, the postponement applications for Lethabo, Matla, Medupi, Matimba, and Duvha Power Stations were rejected, citing concerns over the potential health impacts and the long-standing environmental challenges posed by emissions from the coal-fired power stations.

Eskom initiated an appeal process for the partial refusals and rejections on 13 December 2021, engaging with the DFFE and other governmental departments, on the basis that immediate compliance would lead to the shutdown of about 16,000 MW of coal-fired capacity. Eskom emphasised that this would negatively impact the national grid and delay South Africa's energy transition, and that flu gas desulphurisation (FGD) retrofit on "six-pack" power stations was not proven to be technically feasible and would be a world first. Eskom further argued that the cost of full compliance to the MES is estimated at R300 billion; and will not add any additional capacity to the national grid. Eskom added that if funding was available, and if it were possible to execute all the compliance projects in time to meet the requirements, these projects would add at least 10% to the existing electricity tariff.

Subsequently, appeals were lodged in respect of the NAQO's decisions concerning Eskom's Kendal, Tutuka, Majuba, Camden, Hendrina, Arnot, Komati, Grootvlei, and Kriel Power Stations on 9 February 2022. These appeals led to the establishment of the National Environmental Consultative and Advisory (NECA) Forum, in August 2022, by the Minister of Forestry, Fisheries and the Environment (Minister) to provide guidance on MES issues.

On the 23rd of May 2024 the Minister issued its decision on the appeals made by Eskom, and other parties, with regards to the NAQO's decision made in October 2021. The decision prescribed that for power stations scheduled to be shutdown by 2030 (Hendrina, Grootvlei, Arnot, Camden, and Kriel Power Stations), Eskom's request to suspend the MES limits was approved, with a further requirement to submit shutdown plans within 12 months to facilitate closure by 31 March 2030. For the remaining power stations, comprising Matla, Duvha, Tutuka, Kendal, Lethabo, Majuba, Matimba, and Medupi, Eskom was instructed to apply for an exemption under Section 59 of the NEM:AQA within 60 days from 23 May 2024. However, thereafter the Minister granted an extension to the 10th of December 2024 to apply for this exemption. The Minister would then assess each application based on its merits and supporting information. As part of this submission, Eskom was directed to notify all relevant stakeholders and provide them an opportunity to comment on the exemption applications, for inclusion in the submission.

Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the exemption applications required in terms of the Minister's decision. This report is specific to the exemption request in terms of Section 59 of the NEM:AQA for the Duvha Power Station. This report must be read in conjunction with the Eskom fleet approach to the MES.

The original atmospheric dispersion modelling undertaken, as presented in the Eskom Exemption Applications shared with the public, was simulated as an absolute worst-case, particularly regarding the assessment of the low-level fugitive sources (e.g. ash dumps). A conclusion from these Atmospheric Impact Reports (AIRs) was that the modelled PM_{10} and $PM_{2.5}$ concentrations were high close to the respective power stations and exceeded the NAAQS. Further away from the power stations, the predicted concentrations were relatively low and complied with the NAAQS. From these results it was however impossible to distinguish between the contribution of the fugitive sources and the stack emissions to ambient concentrations, although the results indicated that the high concentrations were due to the fugitive sources rather than the stack emissions themselves.

Given the above, and since this exemption application is specific to stack emissions, an additional modelling assessment was undertaken by uMoya-NILU Consulting. This assessment considered only particulate matter (PM) emissions from the stacks, and excluded fugitive sources (e.g. ash dumps and stockpiles) from the model. Further, this new assessment still considered sulphur dioxide (SO_2) and

nitrogen dioxide (NO_2) emissions to ensure secondary formation of particulates were calculated in the model. This approach provided improved insight to actual stack emission contributions to ambient particulate matter concentrations. For this reason, this SER includes the new dispersion models as **Appendix G.1** and **Appendix G.2**. Further to this, the Eskom Fleet Exemption Application Report was updated to include these findings, with this Executive Summary attached in **Appendix F** of this SER.

Stakeholder Engagement in support of the Eskom MES Exemption Applications were undertaken between **06 November and 06 December 2024**, this report outlines the process undertaken.

2 PUBLIC PARTICIPATION

2.1 PURPOSE

Public participation is understood to be a series of inclusive and culturally appropriate interactions aimed at providing stakeholders with opportunities to express their views, so that these can be considered and incorporated into the decision-making process. Effective public participation requires the prior disclosure of relevant and adequate project information to enable stakeholders to understand the risks, impacts, and opportunities of the proposed Project.

Basic reasons why the public is involved in an environmental process include the following:

- The environment is held in public trust; therefore, use of environmental resources is everyone's concern.
- Public participation is a proper, fair conduct in public decision-making activities. Focus on vulnerable and disadvantaged person and offer equitable participation due to historical issues.
- It is a way to ensure that projects meet citizens' needs and are suitable to the affected public.
- The project carries more legitimacy, and less hostility, if Interested and Affected Parties (I&APs) are able to influence the decision-making process.
- Finally, the final decision is informed when local knowledge and values are included and when expert knowledge is publicly examined.

2.2 OBJECTIVES

The objectives of the Public Participation Process (PPP) can be summarised as follows:

- Identify relevant individuals, organisations and communities who may be interested in or affected by the project.
- Clearly outline the scope of the proposed Project, including the scale and nature of the existing and proposed activities.
- Identify viable proposed Project alternatives that will assist the relevant authorities in making an informed decision.
- Identify shortcomings and gaps in existing information.
- Identify key concerns, raised by I&APs that should be addressed in the subsequent specialist studies.
- Highlight the potential for environmental impacts, whether positive or negative.
- To inform and provide the public with information and an understanding of the proposed Project, issues, and solutions.

2.3 WHAT IS AN INTERESTED AND AFFECTED PARTY?

An I&AP is defined as any person, group of persons or organisations interested in or affected by an activity, and any organ of state that may have jurisdiction over any aspect of the activity.

The difference between an I&AP and a registered I&AP is as follows:

- An I&AP can be directly or indirectly impacted on by a proposed activity.
- A registered I&AP is a person whose name has been placed on the register of registered I&APs. According to the PPP Guidance document, 2017, only registered I&APs will be notified:

- of the availability of reports and other written submissions made to the Competent Authority (CA) by the Applicant, and be entitled to comment on these reports and submissions; and
- of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision.

For the purpose of this report, registered I&APs will be referred to as stakeholders.

2.4 RIGHTS, ROLES, AND RESPONSIBILITIES OF THE STAKEHOLDER

In terms of Chapter 6, specifically Section 43(1) of the EIA Regulations promulgated under NEMA, stakeholders have the right to bring to the attention of the CA any issues that they believe may be of significance to the consideration of the application. The rights of stakeholders are qualified by certain obligations, namely:

- Stakeholders must ensure that their comments are submitted within the timeframes that have been approved by the CA or within any extension of a timeframe agreed by the Applicant, Environmental Assessment Practitioner (EAP) and/or CA.
- Disclose to the EAP any direct business, financial, personal, or other interest that they might have in the approval or refusal of the application.

The roles of stakeholders in a PPP usually include one or more of the following:

- Assisting in the identification and prioritisation of issues that need to be investigated.
- Making suggestions on alternatives and means of preventing, minimising, and managing negative impacts and enhancing benefits of the activities conducted.
- Assisting in or commenting on the development of mutually acceptable criteria for the evaluation of decision options.
- Contributing information on public needs, values, and expectations.
- Contributing local and traditional knowledge.
- Verifying that their issues have been considered.

In order to participate effectively, stakeholders should:

- become involved in the process as early as possible;
- register as a stakeholder;
- advise the EAP of other stakeholders who should be consulted;
- contribute towards the design of the public participation process (including timeframes) to ensure that it is acceptable to all stakeholders;
- follow the process once it has been concluded;
- read the material provided and actively seek to understand the issues involved;
- give timeous responses to correspondence;
- be respectful and courteous towards other stakeholders;
- refrain from making subjective, unfounded, or ill-informed statements; and
- recognise that the process is confined to issues that are directly relevant to the application.

2.5 APPROACH TO STAKEHOLDER ENGAGEMENT

The stakeholder engagement approach is based on the following principles:

- Undertake meaningful and timely participation with stakeholders.
- Focus on important issues during the process.
- Undertake due consideration of alternatives.

- Take accountability for information used.
- Encourage co-regulation, shared responsibility, and a sense of ownership over the proposed Project lifecycle.
- Apply “due process” particularly with regard to the PPP as provided for in the EIA Regulations, 2014 promulgated under NEMA.
- Consider the needs, interests, and values of stakeholders.

The Minister required Eskom to advertise the application in at least two newspapers circulating nationally and give reasons for the application. Eskom, however followed the public participation guideline in terms of the EIA Regulations, 2014 promulgated under NEMA and undertook additional consultation to the advertisements required by the Minister.

3 STAKEHOLDER ENGAGEMENT PROCESS UNDERTAKEN

3.1 IDENTIFICATION OF KEY STAKEHOLDERS

The stakeholder engagement commenced with the compilation of a stakeholder database to include relevant stakeholders, such as Commenting Authorities, State Owned Enterprises, business landowners/users, and Ward Councillors, as well as any other I&APs who may be interested or affected by the project.

Relevant authorities (Organs of State) have been automatically registered as I&APs. In accordance with the EIA Regulations, 2014 all other persons must request in writing to be placed on the register, submit written comments, or attend meetings in order to be registered as stakeholders and included in future communication regarding the project.

Section 41 of the EIA Regulations, 2014 states that written notices must be given to identified stakeholders as outlined in **Table 3-1**. The stakeholder database for the project is included in **Appendix E**.

Table 3-1 - I&AP Table

(iv) the municipal councillor of the ward in which the site or alternative site is situated and any organisation of ratepayers that represent the community in the area	The Ward Councillors have been included in the stakeholder database and were notified by newspaper, received email and SMS notifications.
(v) the municipality which has jurisdiction in the area	The District Municipalities as well as the Local Municipalities have been included in the stakeholder database and were notified by newspaper, received email and SMS notifications. .
(vi) any organ of state having jurisdiction in respect of any aspect of the activity	The organs of state have been notified by newspaper, email and SMS notifications.
(vii) any other party as required by the competent authority.	All tiers of government, namely, national, provincial, local government and parastatals have been included on the stakeholder database and were notified by newspaper, received email and SMS notifications. Inclusive of: ▪ DFFE ▪ Department of Energy ▪ Department of Water and Sanitation

3.2 MES EXEMPTION APPLICATIONS ANNOUNCEMENT

The exemption application process was announced for public comment for a period of 30 days from **6 November – 6 December 2024**. Additionally, the technical reports along with an electronic version of the comment sheet were placed on the WSP Group Africa (Pty) Ltd (WSP) website as well as the WSP Datafree website to be accessed by the public at the following links: https://www.wsp.com/en-ZA/services/public-documents and https://wsp-engage.com/.

Proof of the placement of the comment sheet in the public domain is included in **Appendix A.1.**

3.2.1 DIRECT NOTIFICATION

3.2.1.1 Email notifications

Notification of the exemption applications was issued to registered I&APs and stakeholders, via email on **06 November 2024**. The purpose of the notification was to offer registered I&APs and stakeholders the opportunity to comment on the application process. A total of 830 registered stakeholders were notified via email.

Proof of the notification is included in **Appendix A.2**.

3.2.1.2 SMS

Notification of the exemption applications was issued to registered I&APs and stakeholders, via email on **06 November 2024**. The purpose of the notification was to offer registered I&APs and stakeholders the opportunity to comment on the application process. A total of 1,321 registered stakeholders were notified via sms.

Proof of the notification is included in **Appendix A.3**.

3.2.2 SITE NOTICES

The EIA Regulations, 2014 require that site notices be fixed at places conspicuous to the public at the boundary or on the fence of the site where the activity (to which the application relates) is to be undertaken, as well as at any alternative sites. Posters (in English, Afrikaans and the predominant local language), conforming to the size specifications as per the EIA Regulations, 2014 were placed between **06 and 07 November 2024.**

The distribution of site notices is illustrated in **Figure 3-1** and **Figure 3-3** below and a copy of the site notices and proof of placement are included in **Appendix A.4.** A poster was placed at each location were a report was made available. Six posters in each language (where relevant) were placed for each power station.

3.2.4 ADVERTISEMENT

Notification of the exemption applications as well as opportunity to comment on the application process was issued to the general public via advertisements published in the newspapers outlined in **Table 3-3**, in **October and November 2024**, in English and Afrikaans in all national newspapers and one other language in local newspapers. As mentioned above, the purpose of the advertisement was to notify the general public of the application, inform the public about the public meetings, and provide an opportunity to register on the project database and provide input into the process.

3.2.5 PUBLIC MEETINGS

Public meetings were convened for the project team to present the application to stakeholders as well as gather feedback from them. These meetings offered the stakeholders an opportunity to participate in the decision-making process and ensures that their voices are heard. Meetings were

convened at the locations outlined in **Table 3-5**. Translation services were made available at the meetings and hard copy summaries of key documents were made available at the physical meetings. The attendance registers and presentation are included in **Appendix D**, the comments raised during the meetings have been captured as part of the Comment and Response Report included in **Appendix C**.

Due to unforeseen security concerns, the meeting scheduled for 28 November 2024 at 18:00 was moved to the Mogol Golf Club. Proof of the notification to stakeholders is included in **Appendix A.2**.

Of the thirteen scheduled meetings, four did not have any stakeholders in attendance apart from individuals from the applicant.

4 COMMENTS AND RESPONSES

Following the receipt of comments from I&APs, a Comments and Response Register was prepared. All comments received via email or during the public meetings from stakeholders on the exemption applications have been captured and responded to. The Comments and Response Register and the original comments are included in **Appendix C**.

Dear Stakeholder,

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS

Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

Please refer to the attached notifications for additional information.

ONLINE PUBLIC MEETING: PLEASE NOTE THAT THE ONLINE PUBLIC MEETING SCHEDULED FOR 25TH NOVEMBER 2024 HAS MOVED TO THE 29th of NOVEMBER 2024 AT 13:00

Geagte Belanghebbende,

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies..

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

Exemption from the MES are being sought for the Power Stations listed below:

From: ESKOM MES EXEMPTION APPLICATIONS
Sent: Wednesday, 06 November 2024 17:08
Subject: 41107109 - APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR EIGHT ESKOM POWER STATIONS

Dear Stakeholder,

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS

Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

Please refer to the attached notifications for additional information.

ONLINE PUBLIC MEETING: PLEASE NOTE THAT THE ONLINE PUBLIC MEETING SCHEDULED FOR 25TH NOVEMBER 2024 HAS MOVED TO THE 29th of NOVEMBER 2024 AT 13:00

Geagte Belanghebbende,

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies..

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES

Exemption from the MES are being sought for the Power Stations listed below:

Dear Stakeholder,

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS

Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

Please refer to the attached notifications for additional information.

ONLINE PUBLIC MEETING: PLEASE NOTE THAT THE ONLINE PUBLIC MEETING SCHEDULED FOR 25TH NOVEMBER 2024 HAS MOVED TO THE 29th of NOVEMBER 2024 AT 13:00

6 November 2024

Geagte Belanghebbende,

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies..

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

Dear Stakeholder,

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS

Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

Please refer to the attached notifications for additional information.

ONLINE PUBLIC MEETING: PLEASE NOTE THAT THE ONLINE PUBLIC MEETING SCHEDULED FOR 25TH NOVEMBER 2024 HAS MOVED TO THE 29th of NOVEMBER 2024 AT 13:00

6 November 2024

Geagte Belanghebbende,

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies..

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR VYF VAN ESKOM SE KRAGSTASIES (KENDAL, MATLA, DUVHA, MAJUBA EN TUTUKA) IN DIE HOëVELDSE PRIORITEITSGEBIED

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir agt Eskom-kragstasies, insluitend vyf in die Hoëveldse prioriteitsgebied, naamlik Kendal, Matla, Duvha, Majuba en Tutuka.

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES

Kwytskelding van MES sal versoek word vir die vyf kragstasies in Mpumalanga, Hoëveldse prioriteitsgebied, wat hieronder genoem word:

Kragstasies	
Duvha-kragstasie naby eMalahleni, Mpumalanga	Kendal-kragstasie naby Ogies, Mpumalanga
Majuba-kragstasie naby Amersfoort, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga
Tutuka-kragstasie naby Standerton, Mpumalanga	

REGISTRASIE

Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoeke om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS

Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga

ISaziso sikhishwa ngokwemigomo yeSigaba 59 soMthetho wokuLawula iZingabunjalo loMoya weNdawo kuZwelonke (No. 39 wowezi-2004) (i-NEM:AQA) sokuthi i-Eskom ihlose ukufaka isicelo sokunikwa igunya lokungahambisani nezingxenye ezithile zamaZinga okuKhipha isisi okuNcane (MES) eziTeshini zikaGesi eziyisishiyagalombili zakwa-Eskom, okufaka eziyisihlanu ezise-Highveld Priority Area, okuyilezi; iKendal, iMatla, iDuvha, iMajuba neTutuka.

UHLAKA LOMTHETHO

Ngokwemigomo ye-NEM:AQA, zonke iziteshi zamalahle neziteshi zamandla kagesi aqutshulwa amafutha kudingeka zihlangabezane ne-MES equkethwe yi-GNR 893 eyakhishwa zingama-22 kuLwezi 2013 (njengoba yalungiswa yi-GNR 1207 zingama-31 kuMfumfu 2018) nokumenyezelwe ngokwemigomo yeSigaba 21 se-NEM:AQA. Ukungafakwa kwe-MES efakelwe isicelo kuxhunyaniswe nokuphuma kancane okuxhumene nemisebenzi emenyezelwe ngokwemigomo yeSigaba 21 ye- NEM:AQA GNR 893 (22 kuLwezi 2013), njengoba kuchitshiyelwe:

- Isigatshana 1.1: Ukufakwa kweZincintisimafutha eziqinile.

ISigaba 59 ye-NEM:AQA inika nanoma yimuphi umuntu, noma uhlaka lukahulumeni, ilungelo lokufaka isicelo sokungafakwa esihlinzekweni se-NEM:AQA. ISigaba 59 sesicelo esifakiwe siyadingeka ngenxa yezimo ezimbalwa, njengohlaka lomthetho onezivimbi, ukuguga kwezisetshenziswa zesiteshi sakwa-Eskom, nezinselelo zezobuchwepheshe zokunciphisa ukuphuma kwesisi. Izicelo ezifakiwe zenziwa ngokubheka ngokuphelele kwezingabunjalo lomoya ozungeze iziteshi.

IZITESHI ZIKAGESI

Ukungafakwa kwe-MES kufunelwa iZiteshi zikaGesi eMpumalanga, eHighveld Priority Area, okubalulwe ngezansi:

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR ESKOM SE LETHABO-KRAGSTASIE

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies, insluitend Lethabo-kragstasie.

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoek moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasie.

REGISTRASIE

Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE

Die verslag oor die minimum-emissiestandaarde vir Lethabo-kragstasie word beskikbaar gestel vir insae vir ’n tydperk van 30 dae met ingang **06 November 2024** tot **06 Desember 2024.** Die verslag wat verband hou met die Lethabo-kragstasie, tesame met Eskom se summiere aansoek, word beskikbaar gestel by:

- **WSP se webblad vir gratis data**: https://wsp-engage.com/
- **WSP se webblad**: https://www.wsp.com/en-ZA/services/public-documents

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR ESKOM'S LETHABO POWER STATION

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for the eight Eskom Power Stations, including Lethabo Power Station.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for is linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The application is made with due consideration of the air quality surrounding the station.

REGISTRATION

Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the MES Exemption Application. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the WSP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD

The Minimum Emission Standards Exemption Report for Lethabo Power Station will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024.** The report relating to Lethabo Power Station, along with the Eskom Summary Application, will be made available at the following locations:

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR ESKOM SE MATIMBA- EN MEDUPI-KRAGSTASIES

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies, insluitend Matimba- en Medupi-kragstasies.

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoek moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasie.

REGISTRASIE

Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD

Die verslae oor die minimum-emissiestandaarde vir Matimba- en Medupi-kragstasies word beskikbaar gestel vir insae vir ’n tydperk van 30 dae met ingang **06 November 2024** tot **06 Desember 2024.** Die verslae wat verband hou met Matimba- en Medupi-kragstasies, tesame met Eskom se summiere aansoek, word beskikbaar gestel by:

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR ESKOM'S MATIMBA AND MEDUPI POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for the eight Eskom Power Stations, including Matimba and Medupi Power Stations.

LEGAL FRAMEWORK

In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for is linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The application is made with due consideration of the air quality surrounding the station.

REGISTRATION

Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the MES Exemption Application. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the WSP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD

The Minimum Emission Standards Exemption Reports for Matimba and Medupi Power Stations will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024.** The reports relating to Matimba and Medupi Power Stations, along with the Eskom Summary Application, will be made available at the following locations:

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR EIGHT ESKOM POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

- **WSP Data-free website: https://wsp-engage.com/**
- **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
- A list of the locations where hardcopies are available for review can be found on the aforementioned websites

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasies.

KRAGSTASIES: Kwytskelding van MES sal aangevra word vir die kragstasies in die tabel hieronder:

Kragstasies	
Lethabo-kragstasie naby Vanderbijlpark, Vrystaat	Majuba-kragstasie naby Amersfoort, Mpumalanga
Matimba-kragstasie naby Lephalale, Limpopo	Duvha-kragstasie naby eMalahleni, Mpumalanga
Medupi-kragstasie naby Lephalale, Limpopo	Tutuka-kragstasie naby Standerton, Mpumalanga
Kendal-kragstasie naby Ogies, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van minimum-emissiestandaarde. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024** tot **06 Desember 2024**. Die verslae word beskikbaar gestel by:

SANCO CHAIRMAN: I MIGHT BE NEXT TO DIE

By AARON DUBE

GAUTENG chairman of the South African National Civic Organisation (Sanco), Abram Mashishi, is lucky to be alive.

This after he survived a deadly car accident near the China Mall in Tshwane on 16 August.

Mashishi said he and his cousin were on their way home in Senotlelo in KwaMhlanga, Mpumalanga, when he veered off the road to avoid a head-on collision with another car.

"I was admitted to a hospital in Montana and was in ICU for two weeks.

I was badly injured on my mouth as the airbag hit me," Mashishi said.

He said he suffered a spine fracture and was wheelchair-bound for two weeks.

"I was discharged in September and my car was a complete write-off. My cousin sustained some minor injuries as well."

Mashishi said he sometimes feels some pain at night and is on pain killers.

He also struggles to walk long distances.

"I'm thankful to God and my ancestors for saving my life.

The accident affected me big time because I'm no longer doing my job.

I'm also thankful to God that I'm back on my feet. I'll be able to do organisational work as mandated by my constituency," he said.

"I was the first time I was involved in an accident.

In politics, when you're involved in an accident, 99% of our comrades don't survive.

I don't know what's the problem.

My name might be on the list of those who are to die next.

There are some people who want to occupy my position."

Mashishi said he's not about to quit politics anytime soon.

Top cop vows to deal with mass killings

TOP cop promises residents that police will leave no stone unturned in their investigation into mass murders in the province.

Eastern Cape Provincial Commissioner, Lieutenant-General Nomthetheleli Mene, spoke at the launch of the province's Safer Festive Season Operations at the Thobi Kula Indoor Sports Centre in Komani on Friday, 1 November.

She said the province is experiencing mass killings, with 18 people killed in Lusikisiki, six in Qumbu, five in Bityi, and five in Gqeberha.

"On Wednesday, we woke up to two incidents of murder where elderly women were shot and killed in different incidents in Bityi. Coupled with this, was the rape of five schoolgirls in the same area," Mene said.

She said police are following up on two people linked to the cases and suspect the incidents might be linked.

"It's our strong belief that while these planned incidents couldn't be prevented, the response towards them has been satisfactory. While these incidents are concerning and saddden us, we find solace in the fact that in the Lusikisiki incidents where 18 were killed, we already have seven suspects arrested, with the mastermind having appeared in court.

"We're still looking for one person in that matter. In the Qumbu case, we have one suspect and three people of interest outstanding. In the Bityi case, we've arrested two suspects and one person of interest," she said.

Mene said the suspect in the Gqeberha case shot at the police, who responded and killed him during the shootout.

"As we launch this Safer Festive Season Operations with our communities, we're showing that the battle against crime can't be won by the SAPS alone. We need community support and are calling on various stakeholders in the Criminal Justice Cluster, as well as all crime-fighting structures within the communities, to back and support the SAPS," she said.

Mene said the integrated crime prevention operations, as shown with the multidisciplinary approach, will ensure the safety of citizens throughout the province during the festive season.

"We'll continue focusing on intelligence-driven and high-visibility operations at all hotspots and other identified areas."

The Supply Chain Management handed over 50 vehicles to the Provincial Commissioner, who then allocated the fleet to the eight districts within the province to assist with police visibility.

Deputy Provincial Commissioner for Policing, Major-General Thandiswa Kupiso, said they will be manning roadblocks throughout the province to look for illegal firearms and drugs.

"We'll also be looking for those who carry explosives, as we don't have mines here. They use these explosives to bomb ATMs," Kupiso said.

House of Traditional Leaders chairman, Chief Dumisani Gwadiso, said communities had lost hope in the police.

"When whistleblowers report to the police, the police tell the suspects who reported them. However, we hope this will restore hope to the communities," Gwadiso said.

COPS MIA: BODY SPENDS NIGHT IN STREET!

TRAGEDY strikes at Makause, Ekurhuleni.

George Tshiu (32) was shot dead on Sunday, 3 November, around 5.30pm at Makause informal settlement.

His body lay in the street before it was collected around 9.20am the next morning.

The family claims Primrose police were too scared to enter the informal settlement at night.

However, residents dismiss this as an excuse, pointing out that police frequently visit the area to collect bribes from illegal miners, known as zama zamas, despite the danger.

"This is poor reasoning. We see them coming here to take money from illegal miners. There's an open shaft here and they know about it, but don't close it because they're on the zama zamas' payroll," a resident said.

George's mum, heartbroken and traumatised, shared her grief.

"My son had to lie in the street like a dead dog. That thing has traumatised me as a mum.

I'm grieving for my son and now the police made the pain worse," she said.

The family and residents had to guard George's body throughout the night, covered only by a blanket.

They blame the open shaft for the frequent shootings in the area, as illegal miners often engage in violent confrontations with no regard for residents' safety.

"George died for being vocal about these zama zamas and wanted police to do something about the shaft and now he's dead. We want to know what police are doing about this shaft," said another resident.

Captain Nelda Sekgobela, spokeswoman for Ekurhuleni Police, said police will investigate the allegations and confirmed that a murder case has been opened.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR EIGHT ESKOM POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

• Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024 to 06 December 2024**. The reports will be made available at the following locations:

• **WSP Data-free website: https://wsp-engage.com/** • **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
• A list of the locations where hardcopies are available for review can be found on the aforementioned websites

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

• Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasies.

KRAGSTASIES: Kwytskelding van MES sal aangevra word vir die kragstasies in die tabel hieronder:

Kragstasies	
Lethabo-kragstasie naby Vanderbijlpark, Vrystaat	Majuba-kragstasie naby Amersfoort, Mpumalanga
Matimba-kragstasie naby Lephalale, Limpopo	Duvha-kragstasie naby eMalahleni, Mpumalanga
Medupi-kragstasie naby Lephalale, Limpopo	Tutuka-kragstasie naby Standerton, Mpumalanga
Kendal-kragstasie naby Ogies, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van minimum-emissiestandaarde. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024 tot 06 Desember 2024**. Die verslae word beskikbaar gestel by:

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR EIGHT ESKOM POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024.** The reports will be made available at the following locations:

- **WSP Data-free website: https://wsp-engage.com/**
- **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
- A list of the locations where hardcopies are available for review can be found on the aforementioned websites

PUBLIC MEETINGS: Public meetings will be held at the locations listed below to discuss the application and address any concerns.:

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasies.

KRAGSTASIES: Kwytskelding van MES sal aangevra word vir die kragstasies in die tabel hieronder:

Kragstasies	
Lethabo-kragstasie naby Vanderbijlpark, Vrystaat	Majuba-kragstasie naby Amersfoort, Mpumalanga
Matimba-kragstasie naby Lephalale, Limpopo	Duvha-kragstasie naby eMalahleni, Mpumalanga
Medupi-kragstasie naby Lephalale, Limpopo	Tutuka-kragstasie naby Standerton, Mpumalanga
Kendal-kragstasie naby Ogies, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van minimum-emissiestandaarde. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024** tot **06 Desember 2024.** Die verslae word beskikbaar gestel by:

OUTA KAP NA ESKOM

‘Selfdissipline’ kan enorme stygings keer

William Horne

Om ’n ekonomiese-impakstudie van vier jaar gelede te gebruik om aan te voer dat ’n kumulatiewe kragtariefstyging van 66% teen 2027 nié ’n negatiewe uitwerking op die ekonomie gaan hê nie, verdien om “verwerp” te word.

So het die Organisasie teen Belastingmisbruik (Outa) gister gemaan nadat hy amptelik sy skrywe ingedien het om Eskom se aansoek om ’n rekordhoë kragtariefstyging teen te staan.

Die Nasionale Energiereguleerder (Nersa) het in Augustus Eskom se sesde veeljarige kragtariefaansoek vir die volgende drie boekjare (MYPD6) ontvang en in September lede van die publiek genooi om geskrewe kommentaar daarop te lewer.

Die sluitingsdatum vir kommentaar was 1 November en Outa het sy verslag op 29 Oktober ingedien.

Die MYPD6 eis in wese ’n toelaatbare inkomstevlak van Nersa vir elk van die drie boekjare wat dan neerkom op berekende tariefstygings om dit te kan meebring.

So lyk Eskom se inkomstevlakke wat versoek word en die dienooreenkomstige tariefstygings wat dit moet meebring:

- 2025-’26-boekjaar – R445,6 miljard (tariefstygings van 36,15%);
- 2026-’27-boekjaar – R495,4 miljard (11,81%); en
- 2027-’28-boekjaar – R536,8 miljard (9,1%).

Outa benadruk in sy verklaring dit kom neer op ’n kumulatiewe tariefstyging van 66% oor die drie boekjare.

Vir munisipale kliënte is die uitwerking selfs erger.

Munisipale kliënte koop krag by hul plaaslike regering, wat ’n winsmarge by die aankoop van krag by Eskom voeg.

Eskom het bereken tariewe aan dié kliënte sal as volg styg:

- 2025-’26-boekjaar: tariewe 43,55% hoër;
- 2026-’27-boekjaar: 13,36% hoër; en
- 2027-’28-boekjaar: 11,07% hoër.

Kumulatief kom dit op ’n styging van 80,74% neer.

Eskom se aansoek beklemtoon egter dat die stygings in kragtariewe broodnodig is om ’n finansiële ramp by die nutsmaatskappy te voorkom en ook dat dit uiteindelik ’n positiewe uitwerking op die ekonomie sal hê.

Om dié gevolgtrekking te staaf het Eskom se redenasie berus op ’n ekonomiese-impakstudie waarvoor hy betaal het en wat in 2021 voltooi is.

Dit het in 2022 sy MYPD5 gesteun.

Outa doen in sy skrywe ’n beroep op Nersa om as deel van sy algehele verwerping van Eskom se jongste aansoek die nutsmaatskappy te verplig om ’n nuwe, onafhanklike ekonomiese impakstudie te laat doen voordat hy ’n nuwe aansoek mag indien.

“Die studie waarna verwys word, is in opdrag van en met finansiering van Eskom gedoen ten opsigte van sy MYPD5-aansoek, en sy gevolgtrekkings kan nie as onafhanklik, toepaslik of relevant vir die MYPD6 beskou word nie,” lui Outa se skrywe.

“Eskom se voorstel dat die verouderde studie vir die MYPD5 op die een of ander manier aandui dat die 66%-kragtariefstyging in sy MYPD6-aansoek oor die volgende drie jaar oor die algemeen goed is vir die Suid-Afrikaanse ekonomie, word betwis en verwerp – nie net deur Outa nie, maar in die algemeen ook deur klein, medium- en groot elektrisiteitskliënte, asook ’n wye reeks burgerregteorganisasies en sake- en bedryfsverenigings.”

Outa voer aan Eskom se versoeke vir die hemelhoë tariewe en sy redenasie dat hy dit andersins nie sal kan bekostig om krag op te wek sonder om ’n verlies te ly nie, berus op ’n valse aanname dat daar geen ander oplossing is nie.

Die organisasie lig vyf gebiede uit waarop Eskom “onvoldoende selfdissipline” toon met sy eie sake en finansies wat, as dit verbeter sou word, nie tariefstygings wat die inflasiekoers oorskry, sou vereis nie.

Die voorstelle wat Outa noem waaroor hy wil hê Nersa moet besin en as vereistes vir ’n aanvaarbare tariefaansoek aan Eskom moet voorskryf, is as volg:

- Primêre energiekoste;
- Personeelkoste;
- Bedryf- en instandhoudingskoste;
- Koste van verliese;
- Finansieringskoste;
- Teruggawe van bates; en
- Waardevermindering.

Onder meer noem Outa dat ’n nuwe onafhanklike studie oor Eskom se personeelvlakke nodig is, veral na aanleiding van die bekende maar betwiste verslag deur die Wêreldbank wat bevind het Eskom het 66% te veel werknemers.

Verder is sy steenkool-, diesel-, en instandhoudingskoste onnodig opgeblaas, sê Outa, en kan dramaties verlaag word met doelgerigte ingryping.

Openbare verhore

Nersa begin op 18 November met die tweede fase van openbare insette deur openbare verhore in elke provinsie. So lyk die skedule:

- Wes-Kaap: 18 tot 19 November
- Oos-Kaap: 20 November
- KwaZulu-Natal: 21 en 22 November
- Vrystaat: 25 November
- Noord-Kaap: 26 November
- Mpumalanga: 27 November
- Limpopo: 29 November
- Noordwes: 2 Desember
- Gauteng: 3 en 4 Desember 2024

Redefine-resultate dui op lang herstel

Heinz Schenk

Redefine Properties se jongste voljaarresultate vir die boekjaar tot einde Augustus weerspieël die huidige stand van die ekonomie baie goed.

Die vreugde oor die moontlikhede wat die toekoms inhou, kan nie vergoed vir swak syfers nie. Sedert die totstandkoming van die regering van nasionale eenheid (RNE), asook positiewe verwikkelinge soos laer inflasie en rentekoerse, is die eiendomsbedryf optimisties. “Ons glo die bedryf het die einde van ’n afwaartse sakesiklus bereik. Die vordering van strategiese hervormings, soos die RNE se toewyding tot ekonomiese groei van 3%, is besig om vertroue in die ekonomie te skep,” het Andrew König, uitvoerende hoof, in die voorlegging van Redefine se resultate Maandag in Sandton gesê.

Tog is die jongste resultate van Redefine ’n aanduiding dat die skade aan die ekonomie ’n ruk gaan neem om te herstel. Verdeelbare inkomste per aandeel het met bykans 3% tot net bo R0,50 gedaal en die voljaardividend van R0,42 is laer as verlede jaar se R0,44. Redefine se verhouding van sy lenings teenoor eiendomswaardes het tot ’n vlak van 42,3% gestyg.

Die hoofkantoor van Alexforbes in Sandton, wat deur Redefine besit word, se huurooreenkoms moet binnekort hernu word.

Daar is ook groen lote. Sy oorhoofse hernuwingskoers vir huurooreenkomste het van -6,7% tot -5,9% verbeter. Kleinhandel- en nywerheidseiendomme, wat 65% van sy bateportefeulje in Suid-Afrika uitmaak, het sterk vertoon. Kleinhandel se hernuwingskoers was 0,2%, ’n verbetering op die -4,1% in die 2023-’24-boekjaar. Nywerheidseiendomme se hernuwingskoers was 5,5% teenoor die vorige boekjaar se 2,1%, wat beteken Redefine ontvang meer huurinkomste uit die hernude ooreenkomste.

Kantoor-tameletjie

Kantoorruimte se hernuwingskoers van -13,9% is swakker as die vorige boekjaar se koers van -12,1%. König sê daar is te veel kantoorspasie beskikbaar vir te min kantoorwerk. Totdat daar nie meer werk geskep word nie, sal daar nie ’n wesenlike groter vraag na kantore wees nie.

N-e-FG: 2 vir 30 jaar geskors ná R470 m. se pensioengeld weg is

Honderdmiljoene rande se aftreegeld van werkers van myndorpe het twee mans van Vanderbijlpark elk ’n boete van R30 miljoen op die hals gehaal. Hulle is ook vir 30 jaar uit die finansiële sektor geskors.

Die Gedragsowerheid vir die Finansiële Sektor (FSCA) sê ná ’n ondersoek is Stephanus Cornelius (Corné) Jansen van Rensburg en Frederick Young (Erik) du Preez dié straf opgelê. Jansen van Rensburg is al as die uitvoerende hoof van die groep beskryf. Die FSCA sê dit volg op ’n ondersoek na Phahamisa Administrators (voorheen N-e-FG Administrators), N-e-FG Fund Management, The Wealth Strategist en ander kernpersone. N-e-FG se geregistreerde adres is in Vanderbijlpark. Die ondersoekverslag is aan die Nasionale Vervolgingsgesag oorhandig en strafsake is deur mense wat hul pensioengeld verloor het, aanhangig gemaak.

Beeld het berig aftreefondsgeld is deur N-e-FG Administrators bestuur, maar nie volgens die mandaat belê nie. Die geld wat vermis word, beloop sowat R470 miljoen.

Die FSCA het Jeremia Jesaja Steyn Jansen van Rensburg met R8 miljoen beboet en hy is vir 20 jaar uit die bedryf geskors. Hy word as ’n direkteur van Phahamisa Administrators gelys. Elia Christiaan Janse van Rensburg is vir 10 jaar geskors. Hy word as ’n direkteur van N-e-FG Fund Management gelys.

Die FSCA het in 2022 ’n statutêre bestuurder vir N-e-FG Administrators aangestel. Voorheen is berig mense in die mynboubedryf naby Welkom, Virginia, Kroonstad en Theunissen is slagoffers van die beweerde bedrog. Talle werkgewers in die veiligheidsbedryf het hul werkers se aftreefondsgeld deur die groep belê. **– Nellie Brand-Jonker**

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van ’n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasies.

KRAGSTASIES: Kwytskelding van MES sal aangevra word vir die kragstasies in die tabel hieronder:

Kragstasies	
Lethabo-kragstasie naby Vanderbijlpark, Vrystaat	Majuba-kragstasie naby Amersfoort, Mpumalanga
Matimba-kragstasie naby Lephalale, Limpopo	Duvha-kragstasie naby eMalahleni, Mpumalanga
Medupi-kragstasie naby Lephalale, Limpopo	Tutuka-kragstasie naby Standerton, Mpumalanga
Kendal-kragstasie naby Ogies, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van minimum-emissiestandaarde. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR EIGHT ESKOM POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom’s power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the Power Stations listed below:

Power Stations	
Lethabo Power Stations near Vanderbijlpark, Free State	Majuba Power Stations near Amersfoort, Mpumalanga
Matimba Power Stations near Lephalale, Limpopo	Duvha Power Stations near eMalahleni, Mpumalanga
Medupi Power Stations near Lephalale, Limpopo	Tutuka Power Stations near Standerton, Mpumalanga
Kendal Power Stations near Ogies, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024 to 06 December 2024**. The reports will be made available at the following locations:

- **WSP Data-free website: https://wsp-engage.com/**
- **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
- A list of the locations where hardcopies are available for review can be found on the aforementioned websites

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR AGT VAN ESKOM SE KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

• Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasies.

KRAGSTASIES: Kwytskelding van MES sal aangevra word vir die kragstasies in die tabel hieronder:

Kragstasies	
Lethabo-kragstasie naby Vanderbijlpark, Vrystaat	Majuba-kragstasie naby Amersfoort, Mpumalanga
Matimba-kragstasie naby Lephalale, Limpopo	Duvha-kragstasie naby eMalahleni, Mpumalanga
Medupi-kragstasie naby Lephalale, Limpopo	Tutuka-kragstasie naby Standerton, Mpumalanga
Kendal-kragstasie naby Ogies, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van minimum-emissiestandaarde. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024 tot 06 Desember 2024**. Die verslae word beskikbaar gestel by:

UKUFAKA ISICELO SOKUNGAFAKWA EMAZINGENI OKUPHUMA KWESISI KANCANE

UKUFAKA ISICELO SOKUNGAFAKWA EMAZINGENI OKUPHUMA KWESISI KANCANE EZITESHINI ZIKAGESI EZIYISISHIYAGALOMBILI ZAKWA-ESKOM

ISaziso sikhishwe ngokwemigomo yeSigaba 59 yoMthetho weZingabunjalo loMoya noKulwaula iNdawo kuZwelonke (No. 39 wowezi-2004) (NEM:AQA) ukuthi i-Eskom ihlose ukufaka isicelo sokungafakwa ekuhambisaneni nezingxenye ezithile zamaZinga okuPhuma kancane kwesisi (MES) eziteshini zikagesi eziyisishiyagalombili zakwa-Eskom.

UHLAKA LOMTHETHO: Ngokwemigomo ye-NEM:AQA, onke amalahle neziteshi zikagesi ezivutha ngamalahle awuketshezi kufanele ahambisane ne-MES equkethwe kwi-GNR 893 eyakhishwa zingama-22 KuLwezi 2013 (njengoba kuguqulwe yi-GNR 1207 zingama-31 kuMfumfu 2018) njengoba kumenyezelwe ngokwemigomo yeSigaba 21 se-NEM:AQA GNR 893 (22 KuLwezi 2013), njengoba kuchitshiyelwe:

• Isigatshana 1.1: Ukufakwa zokuVuthwa kwamafutha aphathekayo.

Isigaba 59 se-NEM:AQA sinika nanoma yimuphi umuntu, noma uhlaka lukahulumeni, ilungelo lokufaka isicelo sokungafakwa kokuhlinzekwe yi-NEM:AQA. Isicelo ngokwesigaba 59 siyadingeka ngenxa yezimo eziningana, njengohlaka lomthetho olunemigoqo, isikhathi esihamba phambili sika-Eskom sokuqukethwe yisikhungo sikagesi, kanye nezinselelo zobuchwepheshe ezehlisa ukuphuma kwesisi. Izicelo ezifakiwe zenziwa ngokubheka ngendlela kwezingabunjalo lomoya ozungeze iziteshi.

IZITESHI ZIKAGESI: Ukungafakwa kwi-MES kucelelwa iziteshi zikagesi ezibalulwe ngezansi:

Iziteshi zikagesi	
Iziteshi zikagesi zaseLethabo eduze naseVanderbijlpark, eFree State	Iziteshi zikagesi zaseMajuba eduze nase-Amersfoort, eMpumalanga

INVITATION TO APPLY FOR APPOINTMENT TO THE BOARD OF DIRECTORS OF SOUTH AFRICAN AIRWAYS STATE-OWNED COMPANY LIMITED (SAA)

The Department of Transport (the Department) is responsible for regulation and coordination of transportation in South Africa, that is, Public Transport, Rail Transportation, Civil Aviation, Maritime Transport and Road Transport.

SAA is a State-Owned Company (SOC), wholly owned by the Government of the Republic of South Africa under the Department of Transport, and its mandate is to deliver commercially sustainable world-class air passenger and cargo aviation services within South Africa, on the African continent, and to its tourism and trading partners across the globe. SAA's objectives are to: support South Africa's national developmental agenda; achieve and maintain commercial sustainability; provide excellent customer service; achieve consistent, efficient and effective operations; and foster performance excellence

SAA is obligated to contribute towards the realisation of the Government's strategic objectives as outlined in the National Development Plan (NDP), the Industrial Policy Action Plan (IPAP) and the Medium-Term Strategic Framework (MTSF), thereby cogently contributing to the restructuring and ownership of our domestic economy. SAA has a critical role to play in furthering South Africa's strategic and economic objectives and is actively refreshing its brand as it moves into new markets, expands, and diversifies its service offering, and redefines its market position.

To meet these objectives, there is a need for a mixed set of competencies and experience to strengthen and further enhance delivery on the overall functions of the Board of SAA. To this end, the Department invites applications for appointment to fill existing vacancies on the Board of Directors of SAA SOC Limited (SAA).

The appointments to the Board must address the following:

- Gender, age profiling, geographical spread and demographic representation.
- Have special knowledge or experience that would be of value to the Authority in the performance of its functions,
- Are suitable to serve on a Board by virtue of their qualifications and experience in any of the following fields:
  - Aviation expertise, deeper understanding of global supply chains and how they are interlinking; Corporate Management; Financial and Investment Management; Information Communication Technology; Strategy; Project Management; Asset Management; Business/commercial experience; Project finance; CA (SA) specialising in Corporate Finance and access to capital in international markets to support investment efforts; Strategic leadership
- Are committed to fairness, equality, access, openness and accountability,
- Are committed to the Constitution of the Republic of South Africa.

The application must contain the following:

- A Curriculum Vitae with the full name, ID number, gender, latest address and contact number(s); email, current position and previous experience including dates and organisations or institutions concerned; certified copies of academic qualifications including matric certificate,
- All directorships including disclosure of current and/or potential interests, including contracts and shareholdings, in relation to the Board of SAA and any of its operating divisions or subsidiaries, in compliance with the requirements of section 50(3) of the Public Finance Management Act and section 75 of the Companies Act, 71 or 2008 respectively;
- Whether or not the nominee has a criminal record, including details of any defaults or judgments;
- Confirmation whether the applicant has ever been disqualified; placed on probation or declared a delinquent director; and
- Any other information that may be of assistance to the Minister in considering the application.

Applications will be subject to the preferred candidates obtaining necessary security clearance and/or vetting.

Preference will be given to candidates whose appointment will enhance representivity and correspondence will be limited to short-listed candidates only.

The Minister reserves the right to amend, modify or withdraw this advertisement or amend any of the requirements set out herein at any time without prior notice and without liability to compensate or reimburse any party.

Acknowledgement of the application does not mean acceptance as a candidate; and
The Minister reserves the right not to select any applicant as a candidate.

The nomination must be forwarded to: The Director-General, Department of Transport, FORUM BUILDING, 159 Struben Street or Private Bag X193, Pretoria, 0001 For attention: Ms. Molatelo Motsepe, Tel (012) 309 3851.

Nominations should be posted or hand delivered to the above address. The closing date for the nominations is 11th November.

Hoe gemaak met baba se laat registrasie?

Michael Swanepoel van Sasolburg skryf:

Goeiedag lesers, ek wil net bietjie raad hê asseblief: My dogtertjie is nou vier maande oud en ons sukkel al van haar geboorte af om haar geboortesertifikaat by Binnelandse Sake in Sasolburg te kry.

Van die eerste keer af wat ons gegaan het, keur hulle die aansoek heeltyd af en sê hulle gaan ons bel vir 'n *interview*. Wanneer ons ingaan na hulle kantore toe, sê hulle alles is gekanselleer, wat glad nie vir my sin maak nie.

Het iemand dalk raad hoe ons haar geboorte amptelik kan registreer en ons 'n geboortesertifikaat kan kry?

***Vaalweekblad* het by Binnelandse Sake navraag gedoen en hier is hul antwoord:**

Alle kinders wat in Suid-Afrika gebore word, moet binne 30 dae na hul geboorte geregistreer word (ingevolge die Wet op Registrasie van Geboortes en Sterftes, 1992). 'n Ouer, voog of enige ander persoon wat wetlik verantwoordelik is vir die kind, moet Vorm BI-24 voltooi en dit by die naaste kantoor van die Departement van Binnelandse Sake indien. Vir ouers se gerief het die departement kantore by sommige gesondheidsinstansies waar ouers die kind direk na geboorte kan registreer.

Wanneer 'n kind eers ná 30 dae na die geboorte geregistreer word, raak dit meer kompleks en geld bykomende vereistes.

Bring dan die volgende na die kantore van Binnelandse Sake:

· DHA 24/LRB-vorm (kennisgewing van geboorte).

· Kinders wat by 'n gesondheidsfasiliteit of hospitaal gebore is: DHA 24/PB (Bewys van geboorte). Kinders wat tuis gebore is: DHA 24PBA (Bewys van geboorte-eedsverklaring).

· DHA 288 /A ('n Beëdigde verklaring wat die redes vir die laat-registrasie gee).

· Biometrie (palm-, voet- of vingerafdruk) van die kind wat geregistreer moet word.

· Vingerafdrukke van een of albei ouers.

· ID of paspoort van een of albei ouers.

'n Personeellid van Binnelandse Sake het nie-amptelik aan *Vaalweekblad* gesê die rede vir die bykomende vereistes is om kinderhandel en ander ongerymdhede te voorkom. Die papierwerk móét ongelukkig so omslagtig gedoen word. Die beste raad is om al die bykomende dokumente gereed te kry en na Binnelandse Sake terug te gaan. (Redakteur).

Rukwind verniel dorp se bome

Kwaai rukwinde in Vanderbijlpark het verlede Dinsdag groot takke van verskeie bome laat afskeur en talle struike ontwortel. Van die takke en struike het in die dorp se strate beland en vir 'n geruime tyd verkeer ontwrig. Die meeste van die boomstamme en takke is agterna deur inwoners van die onderskeie strate of deur lede van AfriForum verwyder. Dié foto is in Everestraat geneem waar 'n boom by sy basis deur die wind afgeskeur en omgewaai is.

Maandprogram vir seniors

VANDERBIJLPARK - Jeugland Dienssentrum vir senior persone bied elke Donderdagoggend 'n interessante program aan. Dit sluit praatjies oor verskeie onderwerpe vir senior burgers in en besoekers kan ook hul bloeddruk laat neem en suikervlakke laat toets. Die byeenkomste vind Donderdae vanaf 09:30 tot 11:00 plaas. Die koste is R10 per persoon.

Dagboek solank dié lekker kuiergeleenthede in November, waar die volgende onderwerpe bespreek gaan word:

7 November - Tema: Ek belowe. (Spreker: Ds. André Swanepoel).

14 November - Blomme kan dit beter sê. (Jojo Walters, Vanderbijl Flowers).

21 November - Demensie en Ouderdomsgeduld. (Charlese McMillan).

28 November - Die Seilboot. (Benita Bekker).

Alle seniors is baie welkom. Skakel Katinka Nel of Mignon Venter by 016 933 3995 vir meer besonderhede.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR ESKOM'S LETHABO POWER STATION

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for the eight Eskom Power Stations, including Lethabo Power Station.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for is linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- *Subcategory 1.1: Solid Fuel Combustion Installations.*

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The application is made with due consideration of the air quality surrounding the station.

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the MES Exemption Application. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the WSP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Report for Lethabo Power Station will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The report relating to Lethabo Power Station, along with the Eskom Summary Application, will be made available at the following locations:

- **WSP Data-free website:** https://wsp-engage.com/
- Lethabo Power Station - Klasie Havenga Street, Vanderbijlpark
- Sharpeville Library - Seeiso Street, Sharpeville
- **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
- Vereeniging Library - Lesley Street, Vereeniging

PUBLIC MEETING: Public meetings specific to Lethabo Power Station will be held at the location listed below to discuss the application and address any concerns. Additional meetings related to the other seven Power Stations will also be held and details can be obtained from the WSP website.

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR ESKOM SE LETHABO-KRAGSTASIE

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies, insluitend Lethabo-kragstasie.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoek moet gedoen word met behoorlike oorweging van die lugkwaliteit om die kragstasie.

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslag oor die minimum-emissiestandaarde vir Lethabo-kragstasie word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024** tot **06 Desember 2024**. Die verslag wat verband hou met die Lethabo-kragstasie, tesame met Eskom se summiere aansoek, word beskikbaar gestel by:

- **WSP se webblad vir gratis data: https://wsp-engage.com/**
- Lethabo-kragstasie - Klasie Havengastraat, Vanderbijlpark
- Sharpeville-biblioteek - Seeisostraat, Sharpeville
- **WSP se webblad: https://www.wsp.com/en-ZA/services/public-documents**
- Vereeniging-biblioteek - Lesleystraat, Vereeniging

OPENBARE VERGADERING: Openbare vergaderings wat spesifiek verband hou met Lethabo-kragstasie word gehou by die persele wat hieronder genoem word, vir die doel om die aansoek en enige kommer te bespreek. Addisionele vergaderings wat verband hou met die ander sewe kragstasies sal ook gehou word en besonderhede kan verkry word op WSP se webblad

Datum	Plek	Tyd	Adres	Agenda vir vergadering

Lebombo Border remains open amidst Mozambique tensions

Despite reported tensions and protests in Mozambique, the Lebombo Border remains fully operational, according to a statement from the Border Management Authority (BMA).

Acting BMA Commissioner, Mrs. Jane Thupana, issued the update following assessments at both the Lebombo Port of Entry and the nearby Ressano Garcia Port on the Mozambican side, where sporadic unrest erupted after Mozambique's recent election results were announced.

Commissioner Thupana confirmed that while tensions in Ressano Garcia—a township close to the Lebombo border in Maputo Province—have raised travellers' concerns, movement through the Lebombo border has not been interrupted. Travelers have shown hesitation in crossing, which has led to increased vigilance by BMA staff, supported by law enforcement, to prevent delays.

"The BMA team, in collaboration with other law enforcement authorities, is actively managing any potential movement blockages," Thupana said, urging travellers to exercise caution and avoid night travel due to the evolving situation. She emphasized that should conditions deteriorate, the BMA would promptly alert travellers and reassess safety measures.

Ensuring efficient trade and smooth movement at Lebombo Port of Entry remains the BMA's priority. The authority has pledged to keep the public updated on any changes to the current situation.

Brandgevaarwaarskuwing

Die risiko van brande is tans hoog met die huidige klimaatstoestande van sterk winde, hoë temperature en lae humiditeit.

Alle brandspanne word versoek om te alle tye gereed te wees vir optrede en alle brandtoerusing moet in plek wees. Inwoners word versoek om enige tekens van rook of brand onmiddellik te rapporteer sodat daar vinnig en doeltreffend opgetree kan word. Wees waaksaam en maak veiligheid 'n prioriteit.

Die kontaknommer van die Matlabas-beheersentrum is 083 260 0794. Brande of tekens van brande kan by dié nommer gerapporteer word.

Gelei deur my hart

Culex

Die toekoms van matrikulante in Suid-Afrika druk swaar op my hart.

Met die eindeksamen in volle swang, spandeer duisende jongmense ongetwyfeld ure om te studeer vir dié belangrike eksamen en om hulle toekoms te beplan. Sommige het reeds keuring by universiteite gekry, terwyl ander dalk van plan is om saam met hulle ouers in te val by die gesinsbesigheid of om 'n ambag aan te leer. Tog hang daar 'n donker wolk van onsekerheid oor baie van hierdie matrikulante. Van hulle voel verlore en hulpeloos aangesien die werkloosheidsyfer in Suid-Afrika hoog bly.

Volgens die jongste statistieke van StatsSA is die werkloosheidskoers in Suid-Afrika meer as 34%, wat een van die hoogste ter wêreld is.

Dit beteken dat die meeste jong mense wat hul matriek voltooi, nie net teen die uitdaging van akademiese prestasie moet stry nie, maar ook teen 'n werklike gebrek aan geleenthede. Hierdie omstandighede skep 'n gevoel van wanhoop en vrees onder matrikulante, wat dikwels nie weet wat die volgende stap is nie.

Die druk om 'n "ideale" toekoms te beplan is ongelooflik hoog, en baie jong mense voel dat hulle nie die nodige leiding of ondersteuning ontvang nie. Dit is in hierdie kritieke fase dat daar heelwat lewensbesluite geneem word. Hierdie besluite kan nie net hulle eie toekoms nie, maar ook dié van hulle gesinne en die wyer gemeenskap beïnvloed.

Slegs 'n klein persentasie matrikulante het duidelike toekomsplanne. Vir dié wat onseker is oor wat om te doen, kan die gevoel van "verlore wees" hulle oorweldig.

Sommige skoolstelsels bied beroepsleiding en loopbaan-beplanning aan, maar nie alle leerders het toegang tot hierdie hulpbronne nie. Die gebrek aan inligting oor alternatiewe onder-rig, beroepsopleiding of selfs entrepreneuriale geleenthede kan lei tot 'n gevoel van stagnasie.

Dit is noodsaaklik dat gemeenskappe, skole, en ouers betrok-ke raak by die ondersteuning van matrikulante. Programme wat fokus op loopbaanbeplanning, vaardigheidsontwikkeling en mentorskap kan 'n groot verskil maak. Onderrig oor besigheidsvaardighede, tegnologie, en ander relevante onderwerpe kan matrikulante help om hul vaardighede te verbeter en hulle beter voor te berei vir die arbeidsmark. Boonop kan inisiatiewe soos internskap waardevolle praktiese ervaring bied, wat hulle werksgeleenthede kan verhoog.

Organisasies wat saam met skole werk om 'n brug te bou tussen onderwys en die werkplek is van kardinale belang in hierdie proses.

Daar is ook hoop - ten spyte van die uitdagings. Baie matrikulante het die vermoë om aan te pas en te floreer in 'n veranderende wêreld.

Deur toegang tot die regte hulpbronne en ondersteuning te hê, kan hulle hul eie pad vind na 'n blink toekoms. Dit is belangrik dat ons as 'n samelewing, en as individue, ons verbind tot die opheffing en bemagtiging van ons jeug.

In 'n tyd van onsekerheid moet ons onthou dat dit nie net oor akademiese prestasies gaan nie, maar oor die totale individu en sy of haar talente, passies, en drome. Ons moet hulle aanmoedig om nie net te droom nie, maar ook hard te werk om daardie drome en passies te laat realiseer. Matrikulante is die toekoms, en dit is ons plig om hulle te ondersteun, te inspireer, en te lei. Die pad vorentoe mag dalk uitdagend wees, maar sáám kan ons dit oorwin.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR ESKOM'S MATIMBA AND MEDUPI POWER STATIONS

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for the eight Eskom Power Stations, including Matimba and Medupi Power Stations.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for is linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The application is made with due consideration of the air quality surrounding the station.

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the MES Exemption Application. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the WSP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports for Matimba and Medupi Power Stations will be made available for a 30-day review and comment period from **06 November 2024 to 06 December 2024**. The reports relating to Matimba and Medupi Power Stations, along with the Eskom Summary Application, will be made available at the following locations:

- **WSP Data-free website: https://wsp-engage.com/**
- Matimba Power Station - Nelson Mandela Dr, Lephalale
- Lephalale Municipality Library - Corner Joe Slovo and Douwater Avenue, Lephalale
- **WSP website: https://www.wsp.com/en-ZA/services/public-documents**
- Medupi Power Station - Kuipersbuld Street, Marapong
- Marapong Library - 916 Phukubye Street, Marapong

PUBLIC MEETING: Public meetings specific to Matimba and Medupi Power Station will be held at the location listed below to discuss the application and address any concerns. Additional meetings related to the other seven Power Stations will also be held and details can be obtained from the WSP website.

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR ESKOM SE MATIMBA- EN MEDUPI-KRAGSTASIES

Kennis word hiermee gegee kragtens Artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir die agt Eskom-kragstasies, insluitend Matimba- en Medupi-kragstasies.

REGSRAAMWERK: Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens Artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens Artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens Artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragstasies en die tegniese uitdagings om emissies te reduseer. Die aansoek moet gedoen word met behoorlike oorweging van die lugkwalitweit om die kragstasie.

REGISTRASIE: Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoek om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE: Die verslae oor die minimum-emissiestandaarde vir Matimba- en Medupi-kragstasies word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang **06 November 2024 tot 06 Desember 2024**. Die verslae wat verband hou met Matimba- en Medupi-kragstasies, tesame met Eskom se summiere aansoek, word beskikbaar gestel by:

- **WSP se webblad vir gratis data: https://wsp-engage.com/**
- Matimba-kragstasie - Nelson Mandela-rylaan, Lephalale
- Lephalale se munisipale biblioteek - hoek van Joe Slovo- en Douwaterlaan, Lephalale

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR VYF VAN ESKOM SE KRAGSTASIES (KENDAL, MATLA, DUVHA, MAJUBA EN TUTUKA) IN DIE HOëVELDSE PRIORITEITSGEBIED

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir agt Eskom-kragstasies, insluitend vyf in die Hoëveldse prioriteitsgebied, naamlik Kendal, Matla, Duvha, Majuba en Tutuka.

REGSRAAMWERK
Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:
- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES
Kwytskelding van MES sal versoek word vir die vyf kragstasies in Mpumalanga, Hoëveldse prioriteitsgebied, wat hieronder genoem word:

Kragstasies	
Duvha-kragstasie naby eMalahleni, Mpumalanga	Kendal-kragstasie naby Ogies, Mpumalanga
Majuba-kragstasie naby Amersfoort, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga
Tutuka-kragstasie naby Standerton, Mpumalanga	

REGISTRASIE
Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoeke om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE
Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang 06 November 2024 tot 06 Desember 2024. Die verslae word beskikbaar gestel by:

Werkers herstel slaggate op Secunda as deel van een van AfriForum Buurtwag se projekte.

AfriForum Buurtwag herstel talle slaggate, maak skoon

Jana Oosthuizen

SECUNDA - Die AfriForum Buurtwag span het in Oktober in die gebied agter Marietjie Skool en Highveld Christian College begin skoonmaak.

Hulle het die gras gesny en tuinvullis in dié gebied opgeruim en weggery.

Jan du Plessis, voorsitter van die AfriForum Teks-tak, het gesê die gebied wat hulle opgeruim het, bestaan uit 5 150m² en die gronde by Davieshof is ook opgeruim en netjies gemaak.

Dié buurtwagspan van AfriForum, het vanjaar al 93 000m² skoongemaak. Hulle het ook slaggate in die dorp herstel en lede van die Teks-tak bestuur het hand bygesit om te verseker dat die span die nodige opleiding ontvang om die gate reg te herstel.

Daar is meer as 500m² slaggate herstel en hulle het meer as 980 sakkies teer daarvoor gebruik.

Hulle het op Bergrivier-, Janson-, Mckay-, Renosterberg-, Sammy Marks-, Stow- en Tugelastrate gefokus.

Die gate se basis is oopgegrawe en deeglik herstel voordat 'n nuwe laag teer gegooi is.

Die gate is ook geseël om te verseker dat die padoppervlak nie weer verval wanneer dit reën nie.

"As dit nie vir die buurtwagspan was nie, het Secunda al in totale verval vergaan," het Du Plessis gesê.

"Inwoners se veiligheid word drasties deur dié projekte verbeter."

Edmund Hattingh se foto, Peaceful Under the Mountains in die fotojoernalistieke afdeling, was die beste onder die junior fotograwe.

Fotograwe pronk met hul werke by klubkompetisie

Jana Oosthuizen

SECUNDA - Lede van die Hoëveld Fotografieklub het op 1 November vergader en die voorgeskrewe onderwerp vir November was 'Table Top Photography'.

Die gasspreker en beoordelaar vir die aand was Leon Jacobs.

Danie Smit se foto, Toonbrode, was die beste in die voorgeskrewe onderwerp-afdeling.

Dr Leon Pelser het die beste foto onder die senior fotograwe ingeskryf en dié afdeling gewen met sy foto, Game Over.

Hy het ook 'n sertifikaat van meriete vir dié foto in die tweekleurige foto-afdeling, gekry, asook vir sy foto, Lighthouse and Thunder in die landskapafdeling.

Onder die junior fotograwe was dit Edmund Hattingh wat as die wenner weggestap het met sy foto, Peaceful Under the Mountains in die fotojoernalistieke afdeling.

Hattingh het ook 'n sertifikaat van meriete vir dié foto ontvang.

Johan Viljoen het 'n sertifikaat van meriete vir sy foto, Which One in die natuurvoëls afdeling ontvang.

Die ander fotograwe wat goed gevaar het en sertifikate van meriete vir hul foto's ontvang het is, Johan Viljoen, vir sy foto Which One in die natuurvoëls afdeling en Louis van der Walt vir sy foto's, Inyoka Stream 5 in die landskapafdeling, en Wat Click So, in die pikturale afdeling,

Die Hoëveld Fotografieklub sluit einde November hul jaar af en belangstellendes kan volgende jaar in Januarie dan weer by dié klub inskakel.

Tutela need money to continue vital services

Jana Oosthuizen

SECUNDA - The designated child protection organisation Tutela (the former CMR) had its AGM at the NG Kerk Gemeente Goedehoop-Secunda-Oos on October 23.

Reverend Hannes Reinecke, Tutela's chairperson, opened the formalities, and Marc Fick of the Yahweh Rapha Recovery Centre was the guest speaker.

Fick opened a recovery centre for men in June 2021. Eighty-two men stay in the centre.

He opened a centre for women earlier this year, which currently houses about 20 women recovering from addictions.

Fick shared how he overcame alcohol and drug addiction and found Jesus. He said he values Tutela's services to the men and women at the recovery centre because they help them reintegrate into society.

Tutela's deputy director of Mpumalanga, Mari Victor, thanked the Secunda team for their hard work

and the difference they make in the community. She shared statistics of how many families Tutela had helped, the number of children placed in foster care or temporary safe care and how many families Tutela reunited.

Ronel McIntyre, the Tutela office manager, introduced the Tutela team and mentioned each member's responsibilities.

McIntyre spoke about Tutela's projects in the past financial year, which included the annual Children's Festival in June.

She said Tutela also had a family day this year called Tutu-2-Care Day, which promoted family preservation.

Tutela's scope of practice includes child protection, reunification of families and prevention and early intervention services.

"We also render services to the elderly, do fatherhood programmes and empower women," said McIntyre.

She introduced a new addition to their team, Shamillah Wilkenson, the early intervention and prevention worker.

Tutela delivers services in Secunda, Kinross, Charl Cilliers and surrounding farms stretching from the N17 water reservoirs to Bethal.

McIntyre said Tutela needs a new vehicle because the social workers travel extensively in and around Mpumalanga to attend meetings at child and youth care

centres and training in Gauteng. She said any sponsors or donations from the community or businesses would be welcome.

Jan Badenhorst, Tutela Secunda's treasurer, shared how he grew up with an abusive alcoholic stepfather.

He also presented Tutela's financial statements and said they needed financial support because their Department of Social Development subsidy covers only the social workers' salaries.

All other expenses at the office must come from fundraisers and donations.

Tutela's management team thanked all the stakeholders who contributed to the success of Tutela Secunda over the past year.

Reverend Reinecke, who also gave a report, closed the meeting.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Principal accused of taking child's books

eMBALENHLE - A parent of a Grade Nine learner at Ikusasalethu Secondary School in eMbalenhle is worried her son might fail this year's end exams because the principal allegedly took away the boy's books.

She said this happened in August.

The parent (known to Ridge Times) said she went to the school in August and was shocked to see a teacher pull her son by his pants.

The teacher allegedly remained silent when the mother confronted him. Another teacher intervened.

"Within a minute the principal came and asked the teacher who manhandled my son what had happened. The teacher said my son was disturbing the class and he was vaping.

"My child's punishment was to clean the school. I was fine with the fact that my son was being disciplined for what he had done wrong," said the mother.

She said a week after the incident, her son came home without his school books, claiming the principal had taken the books.

"I went to the school several times to find out what was happening, but the principal was never available.

"I ended up asking to speak to the deputy principal, but I was told she didn't want to be involved in the matter," said the concerned parent. Her only hope was to turn to the newspaper for help.

"How would the boy have been able to follow the lessons every day and keep up with the work if he does not have books?"

She is worried her son will fail his grade because he has no books to study for the exams.

"If my son did something wrong, why not tell me? The school has my contact number. All I am asking is for the books to be given back to my son to enable him to study," said the mother.

Jasper Zwane, spokesman for the Department of Basic Education in Mpumalanga, said the department was unaware of the matter, but will ask for a detailed report from the school principal.

Shock as MOTH Brian Wickens dies at 74

Kerry Bird

SECUNDA - The news of the sudden death of a long-time resident and MOTH (The Memorable Order of Tin Hats) member, Brian Wickens (74) shocked friends and family.

Brian died of a heart attack at his home on September 29. His wife, Sharen, was by his side.

His memorial service was at Mukumbura Shellhole on October 15.

Brian was born in Zimbabwe and attended boarding school at Chaplin Combined School.

When Brian completed his matric, he started his apprenticeship as a fitter and turner at the Mashaba Mine in Rhodesia.

He also did his compulsory army duties and became a sergeant in the Signals Corp.

Brian and his late wife Sus with their three children Stuart, Wayne and Michelle immigrated to South Africa in 1983, where he worked at Sasol. He retired as a welding inspector at age 65.

Sus was known for her excellence in icing and teaching the craft to

youngsters. Sadly, Sus died in a vehicle accident in 1997.

Brian was a founder member of the Mukumbura Shellhole in Secunda and was the Old Bill for many years.

Brian and Sharen met through the MOTH as Sharen was a major in the first all-women SQN 114 in the South African Airforce, and therefore qualified to be a MOTH. They married in 2001.

Brian played many roles in his community.

He most enjoyed camping and travelling South Africa, Africa and overseas.

He was a member of the English Masons and an honoured member of the Scottish Masons and also belonged to the Royal Arch Masons.

He was a member of the Rhodesian Club of Secunda called Balancing Rocks; a member of the Secunda Seniors Club; the Bingo caller and a member of the Secunda Goblet Guild of which he was the chairperson for six years before retiring in 2022.

He also served as a Govan Mbeki Municipality ward committee member for two decades.

However, until his last days, Brian served his community as a member of the CPF.

Brian was one of the founding members of CPF over 20 years ago.

The local CPF paid their last respects to Brian with a convoy drive, sounds of The Last Post, and a radio call for Charlie 2.

"Brian was a people person, fun-loving, caring, full of stories, loved a joke and had a very generous heart," said Sharen.

He leaves behind his wife Sharen, children Stuart, Wayne, and Michelle, stepchildren Chad and Daren Spence, five grandchildren and four great-grandchildren.

N3 ELECTRIC HIGHWAY CO. **ENVIROAFRICA CC**

NEMA AND NWA PUBLIC PARTICIPATION PROCESS

THE PROPOSED GROOTVLEI SOLAR PHOTOVOLTAIC RENEWABLE ENERGY GENERATION PLANT AND ELECTRIC VEHICLE AND TRUCK CHARGING FACILITY, OFF THE N3 HIGHWAY, NEAR GROOTVLEI, MPUMALANGA

Notice is hereby given of the intention to submit an application for Environmental Authorisation (EA) in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended (NEMA), Environmental Impact Assessment (EIA) Regulations 2014, and an application for Water Use Authorisation (WUA) in terms of the National Water Act (Act 36 of 1998) (NWA), as well as the public participation processes thereof. Both applications are for the proposed solar photovoltaic (PV) energy generation plant, the electric truck charging facility, and the associated activities. These activities fall within the ambit of activities listed in terms of the EIA Regulations, 2014 (as amended) and within the ambit of water use activities listed in terms of Section 21 of the NWA.

EnviroAfrica cc has been appointed by N3 Electric Highway Co. to undertake the NEMA application process for the EA and to facilitate the NWA application process for the WUA.

Application for Environmental Authorisation to undertake the following listed activities* in terms of NEMA EIA Regulations 2014:

Government Notice R327 (Listing Notice 1): Activity No. 1, 11, 12, 19, 24, 27, 28
Government Notice R325 (Listing Notice 2): Activity No. 1, 15
Government Notice R324 (Listing Notice 3): Activity No. 4, 12, 14

Application for Water Use Authorisation to undertake the following water use activities* in terms of NWA: Section 21: (a), (b), (c) and (i)*
**Please note that the listed activities above may change during the course of the application processes. Registered Interested and Affected Parties (I&APs) will be notified of any changes.*

Project Description & Location: N3 Electric Highway Co. is proposing that a solar photovoltaic (PV) energy generation plant, electric vehicle and truck charging facility, energy storage battery units, overnight parking, stormwater pond, water tanks, lounge area with a kitchen, ablution facilities with a septic tank, shop, offices, including associated infrastructure be developed on Portions 7, 8, 11, RE/79 and 83 of the Farm Grootvlei No. 453 IR and on Portions 11 and 19 of the Farm Grootvlei No. 604 IR. The solar PV plant will be connected to the electric vehicle and truck charging facility via a distribution line with a capacity of approximately 33 kV.
An area of approximately 180 ha will be considered and assessed.

The proposed site is located near Grootvlei, off the N3 on Springfield Avenue. It is between the N3 and the R51. The proposed site is located approximately 2 km east of the N3 and Springfield Avenue intersection (28), and approximately 2 km south-west of Grootvlei, 2 km west of Thaba Kgwali and 19 km south-west of Balfour, in the Gert Sibande District Municipality, Mpumalanga.

Site coordinates (approximate central point): 26°48'11.16"S ; 28°28'59.39"E.

Public Participation: I&APs are hereby notified of the applications and invited to register (in writing) and/or provide initial comments and identify any issues, concerns or opportunities relating to either, or all of, the projects to the contact details provided below, on or before **06 December 2024** in terms of the environmental aspects (NEMA application) and on or before **27 January 2025** for water related issues (NWA application). In order to register or submit comment, I&APs should refer to the project name/s, and provide their name, address & contact details (indicating your preferred method of notification) and an indication of any direct business, financial, personal, or other interest which they have in the application. You are also requested to pass this information to any person you feel should be notified.

Please note that only Registered I&APs will be notified of the availability of reports and other written submissions made (or to be made) to the Department by the applicant, and be entitled to comment on these reports and submissions; will be notified of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision; and will be notified of the applicant's intention to appeal the decision, and where and for what period the appeal submission will be available for inspection.

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR VYF VAN ESKOM SE KRAGSTASIES (KENDAL, MATLA, DUVHA, MAJUBA EN TUTUKA) IN DIE HOëVELDSE PRIORITEITSGEBIED

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir agt Eskom-kragstasies, insluitend vyf in die Hoëveldse prioriteitsgebied, naamlik Kendal, Matla, Duvha, Majuba en Tutuka.

REGSRAAMWERK
Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES
Kwytskelding van MES sal versoek word vir die vyf kragstasies in Mpumalanga, Hoëveldse prioriteitsgebied, wat hieronder genoem word:

Kragstasies	
Duvha-kragstasie naby eMalahleni, Mpumalanga	Kendal-kragstasie naby Ogies, Mpumalanga
Majuba-kragstasie naby Amersfoort, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga
Tutuka-kragstasie naby Standerton, Mpumalanga	

REGISTRASIE
Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoeke om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE
Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang 06 November 2024 tot 06 Desember 2024. Die verslae word beskikbaar gestel by:

Mike van der Walt en sy gesin immigreer in Desember na Doha in Katar.

Mike en gesin emigreer

Mike van der Walt, nasionale atletiekafrigter en biokinetikus, en sy gesin, groet Secunda na jare.

Dié gesin immigreer in Desember na Doha in Katar.

Van der Walt se praktyk was vir 17 jaar by Hoërskool Secunda en hy het baie van dié skool asook ander skole in die omgewing se atlete afgerig.

Hy het op Standerton grootgeword en toe reeds op Secunda kom atletiek oefen.

Hy was 'n 100m naelloop atleet en het tot in 2016 nog aan atletiek deelgeneem.

Van der Walt was ook tot in 2014 Mpumalanga se atletiek afrigter vir naellope en hy was tot verlede jaar by die Mpumalanga Rugby Unie betrokke.

Hy het een keer die Cravenweek in George bygewoon as biokinetikus en verskeie kere die Grant Khomo Rugbyweek in Port Elizabeth.

Van der Walt het 'n sportkondisionerings- en rehabilitasie gimnasium by Hoërskool Secunda oopgemaak en sy betrokkenheid by dié skool het tot baie suksesse gelei.

Een van dié suksesse sluit in dat die skool die interhoër atletiekbyeenkoms vanaf 2015 tot 2024 gewen het.

Hy het Hoërskool Secunda se eerste rugbyspan afgerig wat ook vir lank bo-aan die ranglys gelê het.

Gedurende sy loopbaan as provinsiale atletiekafrigter, het sy atlete al 13 goue, 18 silwer en 23 brons medaljes op nasionale vlak ingepalm.

Van der Walt was in 2017 die Mpumalanga Pumas se o19 A- en B-rugbyspanne se biokinetikus en in 2018 die Mpumalanga se o15-rugbyspan se biokinetikus.

Hy gaan in Katar as 'n ontwikkelings naellope afrigter op nasionale vlak werk.

Hy en sy gesin is opgewonde vir dié nuwe hoofstuk in hul lewens en hoewel hy sy atlete gaan mis, glo hy dit is tyd vir 'n nuwe seisoen. "Katar is 'n land wat baie familie-vriendelik is en baie verwesters is," het van der Walt vertel.

"Daar is mooi parke waar 'n mens kan gaan stap. Die Grand Prix is daar, die Wêreldbeker Sokker word daar gehou en dit is 'n land wat baie het om te bied."

Doctor needs votes to win top award

Zell-Mari de Jager

Dr Damien Bronkhorst has become a familiar face in the community, working tirelessly at Standerton Hospital to save lives and heal the ill.

Bronkhorst was born in Ottery, a suburb of Cape Town, and raised in Bothasig.

This doctor was raised in a single-parent household by his mother, Belinda Bronkhorst, with help from his grandmother, Milly Bronkhorst.

"I did not always know I wanted to study medicine. It only became an option when my mother nearly lost her life in a car accident," said Bronkhorst.

While his mother was clinging on to life in the intensive care unit of the hospital, doctors told Bronkhorst to prepare for the worst. After a prolonged hospital stay, she began her journey towards recovery.

"This was my introduction into healthcare," said Bronkhorst.

He decided to make a difference and help people in similar situations.

Bronkhorst intends to focus on internal medicine.

However, situations were not always ideal because Bronkhorst had to work extremely hard to get where he is today.

He believes the grace of God and the love of those around him gave him opportunities he never dreamt of.

Dr Damien Bronkhorst needs readers' votes to be chosen for a prestigious award.

Bronkhorst was the first person in his family to attend university.

"Early in my studies, my grandmother would tell everyone, from petrol attendants to cashiers, her grandson is a doctor," Bronkhorst recalled fondly.

Bronkhorst originally studied science at the University of Cape Town, graduated and then applied to the University of Witwatersrand for his medical degree.

He completed his internship at Helen Joseph Hospital in Johannesburg and is currently completing his community service year at Standerton Hospital, where he has found immense joy.

"The thing I love most about working in Standerton is my ability to make a big difference in a small community," said Bronkhorst.

He enjoys one-on-one time with patients and getting to know them and their families.

Bronkhorst recalled some patients who would stay with him for the rest of his career, explaining building relationships with chronic patients is extremely important.

"Knowing everything about an illness is one thing, but getting to know the person behind the illness is an important step in the healthcare process," he added.

Though Bronkhorst is an introvert and enjoys working in the background with minimal praise, a great opportunity has come his way - he was nominated for the African Health Excellence Award's Rising Star Healthcare Practitioner (HCP) of the Year award.

One of his colleagues, nurse Tshabalala, spearheaded this idea and his other colleagues seconded it.

This award is designed to motivate and recognise the potential of young individuals in medicine.

"The nomination is truly humbling, and I am glad that I can make such an impact on my patients and colleagues," said Bronkhorst.

To vote for this young doctor and better his chances of winning the African Health Excellence Award for Rising Star HCP of the year, send an SMS with "AHEA 031" to 34855.

An SMS costs R1.50. Voting lines are open now until November 15.

Dr Nondumiso Mkhwanazi, Sister Nonlanhla Nhlapo, Dr Damien Bronkhorst, Sister Lettie Tsotetsi and Sister Buhle Mzinyane at the hospital.

Evander police gets recognition for their excellence

EVANDER – The Evander Police Station scooped many awards during the police excellence awards on October 30 in Ermelo. The station was among the 38 that participated in the awards. The station won the best station and the best detective branch categories.

The Evander police station won at the police excellence awards held in Ermelo.

Robber target municipal offices

eMBALENHLE - The eMbalenhle SAPS opened a business burglary case after criminals stole cashiers' computers at the Govan Mbeki municipal offices in eMbalenhle on October 27.

It is alleged criminals entered the offices in the morning, tied up the security guards inside the guard house, then opened the offices and stole the computers before fleeing.

The eMbalenhle SAPS spokesperson, Busi Mthethwa, said they made no arrests yet.

Bejaardes kry hul eie studio by aftreeoord

Die Kosmos Aftreeoord het op 17 Oktober hul skilderstudio geopen.

Die bejaardes wat in die tehuis woon, het uiteindelik 'n plekkie waar hulle pragtige kunswerke kan maak en uitstal.

Hoewel die spasie meer intiem is as die vorige saal wat vir dié doeleindes gebruik was, is die nuwe studio toegerus met allerei kunsmiddels.

Bejaardes kan teken, verf en baljaar in hul eie kreatiewe spasie.

Die nuwe studio is moontlik gemaak deur skenkings van die gemeenskap.

In voorbereiding vir die studio, het die tehuis waterverf, kwaste, palette, akrielverf en soveel meer ontvang vanaf die kunsliefhebbers van Standerton.

Bejaardes wat gereeld aan die kunslesse deelneem het ook 'n sleutel vir die kamer en kan enige tyd deur die dag skilder of selfs net hul kunswerke bewonder.

Tannie Raatjie Britz wys trots haar hoenders.

Bejaardes se kunswerke word uitgestal.

Bejaardes geniet hul kuns.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Nortjé trap diep spore in die gemeenskap

Zell-Mari de Jager

Foto verskaf deur Stephen Nortjé.

Stephen Nortjé is 'n lewenslange inwoner van Standerton en het al diep spore in die gemeenskap getrap.

Hy is sedert 1995 met Sonja getroud en het twee seuns, Juan en Ruan.

Nortjé het in 2016 sy liefde vir gholf ontdek op Standerton se gholfbaan.

Hy is tot die gholfklub kommittee verkies in 2020 en dien tans as voorsitter van die Buiteklubkommittee.

Nortjé het die klub deur verskeie fases gesien groei en was bevoorreg genoeg om deel te vorm van 'n uitstekende span kommiteelede, bestuurders en personeel wat die klub en bane gebring het tot waar dit vandag is.

"Ek is trots op wat ons kon opbou. Ná 'n brand het ons 'n kans gehad om 'n sukses van die klub te maak, en ons het dit aangegryp," het Nortjé trots angekondig.

Hy speel egter gholf op talle bane en hoewel die Standerton Buiteklub sy eerste liefde is, geniet hy graag die uitsigte van bane van oral in die land.

In 2018 was Nortjé bevoorreg om saam Brandon Grace, bekende gholfspeler, in die Kaap af te slaan.

Nortjé neem jaarliks deel aan 'n Suidkustoer, waar hy op talle bane langs die suidkus speel.

Hy het ook deelgeneem aan die SA Seniors Gholftoernooi op Melkbosstrand.

Sonja het onlangs haar man se liefde vir die sport opgetel en speel gereeld sosiaal op Standerton se bane.

Gholf is egter nie die enigste sport wat Nortjé geniet nie.

"Ek probeer so aktief as moontlik bly," het hy verduidelik.

Nortjé het sedert sy skooljare aan verskeie sportsoorte deelgeneem, insluitend swem, rugby, krieket en stoei.

In 1998 tot 2004 het hy aan verskeie liggaamsbou-kompetisies deelgeneem.

Buiten sy liefde vir sport, sing Nortjé ook graag.

Hy is in 2008 aangewys as die ATKV kunstenaar van die Jaar en het die Oorkonde verwerf.

En natuurlik is geen naweek in die Nortjé-huishouding volledig sonder om vuur aan te steek en lekker te braai nie.

Hook up with Round Table at Grootdraai for a good cause

The Secunda Round Table 231 and Laerskool Trichardt invite you to a angling competition at the Grootdraai Dam Boat Club near Standerton on November 30.

ISaziso sikhishwa ngokwemigomo yeSigaba 59 soMthetho wokuLawula iZingabunjalo loMoya weNdawo kuZwelonke (No. 39 wowezi-2004) (i-NEM:AQA) sokuthi i-Eskom ihlose ukufaka isicelo sokunikwa igunya lokungahambisani nezingxenye ezithile zamaZinga okuKhipha isisi okuNcane (MES) eziTeshini zikaGesi eziyisishiyagalombili zakwa-Eskom, okufaka eziyisihlanu ezise-Highveld Priority Area, okuyilezi; iKendal, iMatla, iDuvha, iMajuba neTutuka.

UHLAKA LOMTHETHO

Ngokwemigomo ye-NEM:AQA, zonke iziteshi zamalahle neziteshi zamandla kagesi aqutshulwa amafutha kudingeka zihlangabezane ne-MES equkethwe yi-GNR 893 eyakhishwa zingama-22 kuLwezi 2013 (njengoba yalungiswa yi-GNR 1207 zingama-31 kuMfumfu 2018) nokumenyezelwe ngokwemigomo yeSigaba 21 se-NEM:AQA. Ukungafakwa kwe-MES efakelwe isicelo kuxhunyaniswe nokuphuma kancane okuxhumene nemisebenzi emenyezelwe ngokwemigomo yeSigaba 21 ye- NEM:AQA GNR 893 (22 kuLwezi 2013), njengoba kuchitshiyelwe: • Isigatshana 1.1: Ukufakwa kweZincintisimafutha eziqinile. ISigaba 59 ye-NEM:AQA inika nanoma yimuphi umuntu, noma uhlaka lukahulumeni, ilungelo lokufaka isicelo sokungafakwa esihlinzekweni se-NEM:AQA. ISigaba 59 sesicelo esifakiwe siyadingeka ngenxa yezimo ezimbalwa, njengohlaka lomthetho onezivimbi, ukuguga kwezisetshenziswa zesiteshi sakwa-Eskom, nezinselelo zezobuchwepheshe zokunciphisa ukuphuma kwesisi. Izicelo ezifakiwe zenziwa ngokubheka ngokuphelele kwezingabunjalo lomoya ozungeze iziteshi.

IZITESHI ZIKAGESI

Ukungafakwa kwe-MES kufunelwa iZiteshi zikaGesi eMpumalanga, eHighveld Priority Area, okubalulwe ngezansi:

Iziteshi zikaGesi	
Iziteshi zikagesi zaseDuvha eduze naseMalahleni, Mpumalanga	Iziteshi zikagesi zaseKendal eduze nase-Ogies, Mpumalanga

Fight cancer one step at a time

October is all about cancer awareness.
Everything is draped in pink, logos have turned pink, and the topic leads to some serious conversations about cancer.
Solidariteit Helpende Hand, the Bettie Bandana Foundation, and Ben Fleur Boulevard hosted a Pink Walk in honour of Retha van Greunen, the founder of Bettie Bandana – who sadly passed away earlier this year.
An excited group of 300 walkers and runners came together in solidarity on October 26 to raise awareness about cancer during a 4.9km fun walk.
Ashley Marengo (13) was the first to cross the finish line.
The organisers, Monica Joao, Sharlene Doogan, and Melissa Nel, thanked everyone who participated in the event.
"We are having so much fun," was the feedback from the energetic walkers and runners alongside the road.

Martie du Plooy, Ria Ackerman and Jhay Botha.

Kotie Botha, Suzette Koekemoer and Marlize Vljoen.

Monique Jansen, Daniellé Booysen and Christel Greeff.

Jessica, Nathan, and Zoey Venter.

Melidah Mamakwa.

Mandisa Ndabandaba and Esther Mazyopaz.

'Cereal' about friendships and ministry

Mornings are made for scrumptious 'brekkies'. Add some ministry to that, and you have the perfect mix.
Breakfast with the ladies from New Life Church is always a must-do on the calendar.
On Saturday, October 26 several ladies enjoyed a delicious spread and soul-inspiring ministry.
Check the church's social media for the next ladies' get-together to make sure you don't miss out!

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR VYF VAN ESKOM SE KRAGSTASIES (KENDAL, MATLA, DUVHA, MAJUBA EN TUTUKA) IN DIE HOëVELDSE PRIORITEITSGEBIED

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir agt Eskom-kragstasies, insluitend vyf in die Hoëveldse prioriteitsgebied, naamlik Kendal, Matla, Duvha, Majuba en Tutuka.

REGSRAAMWERK
Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:
- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES
Kwytskelding van MES sal versoek word vir die vyf kragstasies in Mpumalanga, Hoëveldse prioriteitsgebied, wat hieronder genoem word:

Kragstasies	
Duvha-kragstasie naby eMalahleni, Mpumalanga	Kendal-kragstasie naby Ogies, Mpumalanga
Majuba-kragstasie naby Amersfoort, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga
Tutuka-kragstasie naby Standerton, Mpumalanga	

REGISTRASIE
Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoeke om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

Kleur jou uniekheid in

Storm Webber

VLU Azaria se takvergadering was geverf met lewendige gesprekke en warm konneksies. Die kollig het helder geskyn op Haniel Badenhorst, die gasspreker, wat 'n kaleidoskoop van kleurkundigheid ontketen het. Haniel het die geheime onthul om foutlose gelaatskleure te vind, en het die pad na bemagtigde selfuitdrukking verlig.
Die vergadering het plaasgevind op Donderdag, 17 Oktober en was soos altyd 'n warm en kosbare tyd.
Judith Cilliers het as spesiale gas 'n bietjie varsheid bygevoeg, terwyl Hendriët Prinsloo, die takvoorsitter, die momentum aan die gang gehou het. Marcelle van Vuuren, streekvoorsitter van Carpe Diemstreek, met haar kenmerkende warm teenwoordigheid, het die geleentheid 'n ware meesterstuk gemaak en die dames gereed gemaak vir hul volgende kwas-trek van inspirasie.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Vanessa deel haar storie kaalvoet voor God

Victory Family Church het die naweek gasheer gespeel vir die motiveringspreker, Vanessa Goosen.
Vanessa het haar getuienis Saterdag, 26 Oktober, gedeel en die gaste in trane gehad met haar nederig en opregte vanuit-die-hart geselsie.
Vanessa het haar skoene uitgetrek en gesê sy staan kaalvoet voor God, want Hy het haar uit die diepste seer opgetel om vandag siele vir Sy koninkryk te oes.
"Ons het die saad gedra, nou is dit ons taak as vroue om vir ons gesinne te bid en hulle met God se goedheid en guns te bedek," het Vanessa gesê.
Die 21-jarige finalis in die Mej. SA kompetisie se nagmerrie in 1994 het begin toe sy op die lughawe in Thailand gearresteer is vir dwelmhandel.
"'n Man het heroïne in ingenieurs-handboeke versteek en my gevra om die boeke terug Suid-Afrika toe te bring. Ek het nie eers geweet wat is heroïne nie," het sy haar verhaal begin.
Sy was toe swanger, maar owerhede het hulle nie aan haar pleidooi en verduideliking gesteur nie. Haar dogter, Felicia, was drie toe sy teruggestuur is Suid-Afrika toe. Vanessa het 16 jaar in die Thaise tronk spandeer.

Soirée ladies celebrate National Flower Day

The Women's Agricultural Union, Soirée branch, unleashed their talents and tapped into a creative space.
For their monthly meeting, the ladies saw it fit to celebrate national flower day in its true essence.
Sticking to the theme in true fashion, each member was given a flower to plant at home on Saturday, October 19.
The ladies also thought ahead and prepared themselves for the fast-approaching festive season.
As a result, Didi van den Bergh inspired everyone to make a beautiful Christmas wreath that could be used as a door or table decoration.

The geriatric gypsies visit eMalahleni

Storm Webber

Meet the 'Geriatric Gypsies' and their faithful young companions there to assist with all things technology – Mike Mouritz (66), Barry Mouritz (72), Craig Halligan (66), and Jayden Johns (24). These four adventurers traded sanity for a wild African escapade in their trusty steeds, Mollie, a 1960 Peugeot 403 station wagon, and Melissa, a 1962 Peugeot 403 utility truck, or as we call it, a bakkie. The only modern modification made to the bakkie was a solar-powered beer fridge, showing they had their priorities straight to combat the intense African heat.

These seasoned thrill-seekers have conquered China, Mongolia, Australia, and the US among their many adventures. This time, Africa became their playground. Four months ago, they set off from Australia, ready to tackle the unforgiving terrain.

But first, they had to survive Durban harbour – the ultimate challenge. Six weeks of bureaucratic red tape, pleading, and paperwork later, they finally broke free from their 'hostage' situation.

Their odyssey began on Friday, August 9, crossing into Botswana, where they lost and miraculously recovered their iPad. Namibia left them awestruck with its breathtaking beauty and hospitality. Angola, deemed 'dangerous' by many, surprised them with its warm, African spirit.

Next up was Congo, the ultimate daredevil destination. A barge delay tested their patience, but the reward was worth it. After an unforgettable Congolese adventure, they returned to South Africa, landing in eMalahleni, where WITBANK NEWS caught up with these real-life Jeremy, James, and Hammond adventurers, still intact despite Africa's best efforts to test their sanity.

Craig Halligan, Jayden Johns, Mike and Barry Mouritz.

! Exclusive to print

When asked what they enjoyed the most about Africa, Mike heartily said, "The amazing wildlife. We don't get your amazing wildlife in Australia, apart from at the zoo. Obviously, the big five blew us away. We were on safari and the guide made sure we met all the main animal characters from Lion King. The different landscapes we have travelled through too. And of course, the wonderful people we have met."

Along the way they learned many lessons like TIA (This is Africa) which taught them patience is a virtue. 'African time' took them some getting used to, but most importantly, once Africa captures your heart, it never lets go.

"Yesterday walking back to my room, one of the ladies said 'don't rush', and I had to say, I should have learned, I have been in Africa for four months already," commented Mike with a hearty laugh.

Their next dream destination is South America before those old knees give in. You can follow their adventures on their blog, https://questacollab.com/blog-archive/ .

NHS se graadtwaalfs sluit hoërskoolloopbaan af

Dié jaarlikse tradisie is altyd 'n gepaste manier om die matrieks se hoërskoolloopbaan af te sluit. **> Foto's: Hennie Homann**

MBOMBELA - 2024 se matrieks het onlangs een van Hoërskool Nelspruit se tradisies voortgesit deur slotte aan die Vinculum-struktuur te sluit.

Hierdie simboliese gebruik het oor die jare heen 'n waardevolle manier geword waarop hierdie matrieks hul verbintenis aan NHS en hul skoolloopbaan kan verewig.

Die jaar se duxleerders, Schalk Grobbelaar en Zoe Scheepers, het ook 'n USB-stafie met herinneringe en foto's van hul matriekjaar in die 2024-tydkapsule geplaas. Hierdie kapsule sal vir 'n dekade verseël bly, waarna dit tydens hul 10-jaar reünie weer oopgemaak sal word.

Elke matrikulant het 'n slot aan die 2024 Vinculum-ketting gesluit, wat die afsluiting van hul kinderjare en die simboliese verbintenis aan Hoërskool Nelspruit, hul geliefde alma mater, uitbeeld. Met hierdie tradisie betuig die matrieks van 2024 hul liefde vir NHS en verseker hulle dat hul stories altyd deel van die skool se ryk geskiedenis sal bly.

Die 2024 matrieks se slotte is nou deel van die Vinculum-struktuur.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Live a humble life

Stay humble. Pride is many times like a cancer, we don't see it in our own lives.

The Bible says a lot about pride, but none of it is good. One of my friends once said: "If pride could turn an angel into a demon, think what it could do to you?"

James 4:6 tells us 'God opposes the proud but shows favour to the humble'.

Humility is not thinking less of yourself, it's thinking of yourself less. Jesus set the ultimate example of walking in humility.

Let's walk in His footsteps and live a humble life for His honour and His glory.

Stay humble. What you have and who you are is only by God's grace.

Journey with Jesus.

Wayne Hill by een van sy broeipare.

Opedag vir telers van eksotiese voëls

Die Hoëveld Voëlklub bied 'n opedag aan vir telers van alle eksotiese voëls.

Hierdie opedag word op 9 November by Cowen Ntulistraat 233 in die Jay's Corner-gebou, op die hoek van Meyer- en Cowen Ntulistraat aangebied.

Wayne Hill en Cois Minnaar het so bietjie meer vertel van die klub.

Die klub is in 2004 gestig en is die huidige grondwet opgedateer en aanvaar in 2011. Hulle is geaffilieer by die Papegaai Telersvereniging van Suid-Afrika.

"Enige persoon is welkom om by ons aan te sluit as hulle 'n liefde vir voëls het, maar hulle sal gekeur word," het Wayne gemeld.

Wayne teël self met eksotiese voëls en het 80 hokke op die dorp en nog 60 op die plaas.

Van sy broeipare wissel van Alexandrines tot Amazons, Conneurs en Afrika Gryspapegaaie (African Greys).

Buiten die broeipare, verkoop hy ook van die voëls.

Cois het 'n hele paar Afrika Greyspapegaaie, asook Amazons en kokketiele. Hulle noem dat hulle tydens opedae gereeld veeartse, wat veral in papegaaie spesialiseer, na Middelburg toe nooi. Hiertydens word geslagsbepalings van die voëls ook gedoen.

"Ons klub help ook met hokinspeksies om permitte te kry." Op hierdie punt word gemeld dat alle ringnekke permitte moet hê, omdat dit uitheemse voëls is.

Resident/ Thorn of the Week

Resident of the Week: Over the weekend, R15 000 was handed over to the Bonginhlanhla Stimulation and Home-based Care Centre during the Correctional Services National Golf Tournament. Behind the scenes, Ms Lindiwe Nkosi, the founder of the centre, has dedicated her life to the care of children with special needs without fanfare or any pomp and circumstance. Ms Nkosi, we know you don't always find the time to treat yourself, and therefore, we wish to gift you a Hobo's Cafe voucher for R250 to thank you for your hard work. The voucher can be collected from the Middelburg Observer's editorial office.

Thorn of the Week: After Dagpatrollie managed to recover a car stolen two months ago in Durban, it has come to light that these syndicates are so well connected they can even strike a stolen vehicle from the NATIS system and reregister the car on the same VIN and chassis number. It is a shame that criminals have such access to begin with and that they swindle unsuspecting victims who buy the stolen cars, unaware they will later get confiscated or recovered by the police.

Moth straatkollektes

Die lede van die Moth Gondar Shellhole sal op 2 en 9 November te siene wees tydens hul straatkollektes.

Op 2 November is die lede by Kanonkop Spar en op 9 November by die Middelburg Mall.

Vir enige navrae, skakel Mike Kolesky by 079 016 8121.

• Fondse wat geïn word tydens die straatkollektes, word gebruik vir behoeftige Moths, aangesien hulle nie staatshulp ontvang nie.

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE

AANSOEK OM KWYTSKELDING VAN DIE MINIMUM-EMISSIESTANDAARDE VIR VYF VAN ESKOM SE KRAGSTASIES (KENDAL, MATLA, DUVHA, MAJUBA EN TUTUKA) IN DIE HOëVELDSE PRIORITEITSGEBIED

Kennis word hiermee gegee kragtens artikel 59 van die Nasionale Wet op Omgewingsbestuur van Luggehalte (Wet 39 van 2004) (NEM:AQA), dat Eskom beplan om aansoek te doen om kwytskelding van voldoening aan sekere aspekte van die minimum-emissiestandaarde (MES) vir agt Eskom-kragstasies, insluitend vyf in die Hoëveldse prioriteitsgebied, naamlik Kendal, Matla, Duvha, Majuba en Tutuka.

REGSRAAMWERK

Kragtens NEM:AQA moet alle steenkool- en vloeibare brandstofkragstasies voldoen aan MES vervat in GNR 893, wat uitgereik is op 22 November 2013 (soos bygewerk volgens GNR 1207 op 31 Oktober 2018) en gepromulgeer is kragtens artikel 21 van NEM:AQA. Die MES-kwytskeldings waarvoor aansoek gedoen word, kan gekoppel word aan die emissies wat verband hou met aktiwiteite wat gepromulgeer is kragtens artikel 21 van NEM:AQA GNR 893 (22 November 2013), soos gewysig:

- Subkategorie 1.1: Installasies wat soliede brandstof verbrand.

Artikel 59 van NEM:AQA gee enige persoon of staatsliggaam die reg om aansoek te doen om kwytskelding van 'n voorwaarde wat vervat is in NEM:AQA. Die aansoek kragtens artikel 59 word vereis weens verskeie faktore, soos die beperkende regsraamwerk, die gevorderde ouderdom van Eskom se kragwerke en die tegniese uitdagings om emissies te reduseer. Die aansoeke moet gedoen word met behoorlike oorweging van die luggehalte om die kragstasies.

KRAGSTASIES

Kwytskelding van MES sal versoek word vir die vyf kragstasies in Mpumalanga, Hoëveldse prioriteitsgebied, wat hieronder genoem word:

Kragstasies	
Duvha-kragstasie naby eMalahleni, Mpumalanga	Kendal-kragstasie naby Ogies, Mpumalanga
Majuba-kragstasie naby Amersfoort, Mpumalanga	Matla-kragstasie naby Ga-Nala, (Kriel) Mpumalanga
Tutuka-kragstasie naby Standerton, Mpumalanga	

REGISTRASIE

Eskom het WSP Group Africa (Pty) Ltd (WSP) aangestel as onafhanklike diensverskaffer, om ondersteuning te bied vir die aansoeke om kwytskelding van MES. Partye wat formeel wil registreer as belanghebbendes om kommentaar te kan lewer oor die aansoeke, word versoek om volledige skakelbesonderhede (naam, telefoonnommers en adresse) te stuur aan WSP by die adresse wat hieronder aangedui word. Geregistreerde belanghebbendes sal in die toekoms alle korrespondensie ontvang en individueel in kennis gestel word van verdere geleenthede om deel te neem aan die proses.

OORSIGTYDPERK VIR DIE VERSLAG OOR KWYTSKELDING VAN MINIMUM-EMISSIESTANDAARDE

Die verslae oor die minimum-emissiestandaarde word beskikbaar gestel vir insae vir 'n tydperk van 30 dae met ingang 06 November 2024 tot 06 Desember 2024. Die verslae word beskikbaar gestel by:

Still no positive leads in N4 killings – SAPS

Gerhard Rheeder

The grieving family of Busisiwe Khumalo, one of the two women found murdered in a white BMW next to the N4 last Sunday, said they've heard 'nothing' from the police.

Mpumalanga police spokesman Colonel Donald Mdhluli echoed the same to the Middelburg Observer when asked for an update on the investigation, stating 'there's been no positive information yet'.

He added that investigations were continuing almost two weeks after the senseless executions.

Both Khumalo and the other victim, Ayanda 'Ayos' Ngobeni, were laid to rest by their families in Mayflower and Mbombela during the weekend.

According to reports, the women had accepted a lift back home to Mbombela after attending a biker rally in eMalahleni.

The vehicle was, however, found abandoned next to the N4, some 5km from the Alzu Petroport between Middelburg and Belfast.

The police found one of the victims in the front passenger seat of the vehicle, while the second was found slumped over in the backseat. Both were shot multiple times.

The paper reported last week on several rumours that started circulating shortly after the discovery of the vehicle and bodies, with reports that the victims left the rally in the company of a man.

Ayanda 'Ayos' Ngobeni.

Reports also suggested that the unidentified man had been seen earlier with a firearm at the rally.

The police confirmed that the driver of the vehicle had been found and was safe.

The SAPS, however, refused to divulge any further information about the driver, saying that the release of information could hamper investigations and future prosecution.

Pressed harder, Colonel Mdhluli declined to say whether the driver and the owner of the white BMW were the same person.

The paper was told that the vehicle belonged to a woman who does not drive and allegedly gave permission for the vehicle to be used to transport the victims home.

Ngobeni's family said they trust the police to find the shooter and bring the killer to justice.

The family has asked for privacy and netizens, including the media, to refrain from speculating over the murders.

The matter has raised serious questions about safety on the N4 in light of recent spiking incidents, however, the police have not confirmed if it was a spiking incident or maybe a robbery gone wrong.

"Once the investigation is complete, and arrests have been made, information will be released to the public," Colonel Mdhluli said.

Bullet holes in the BMW's window bear testimony to the slayings.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Oud-inwoner sterf aan hart

Oud-Middelburger Albert Eybers (69) is op 17 Oktober skielik aan 'n hartaanval oorlede.

Sy skoonsuster, Hester Ellis, vertel dat Albert al die jare in Middelburg gebly het. Hy het op 'n stadium by Janmy Dienste gewerk en ook 'n rukkie sekuriteit gedoen by die Middelburg Stasie.

Hy het lank by hulle aan huis gebly, waarna hy drie maande gelede na Boksburg verhuis het.

Hester het Albert beskryf as 'n stil, rustige persoon. Hy word oorleef deur sy kinders Bruce, Shaun en Sussie en broers Peet, Danie en Chris.

• Daar word 'n roudiens op 1 November in Boksburg gehou.

Albert Eybers.

Morgan is HTS se geslypte diamant

Sjani Campher

Morgan Corbett, ’n graad 10 leerder van HTS Middelburg het geskitter soos ’n diamant in verskeie voordrag- en redenaarskompetisies waar hy weggestap het met talle nasionale toekennings.

Dit is duidelik dat dié 16-jarige gebore is met ’n oortuigingsvermoë, nadat hy tydens die Allegretto Eisteddfod se nasionale rondte die trofee gewen het as nasionale wenner van die poësie-afdeling en ook aangewys is as ’n nasionale ambassadeur vir 2025.

Die Allegretto Eisteddfod se nasionale rondte het op 5 Oktober in Benoni plaasgevind waar skoliere van regoor die land teen mekaar meegeding het.

Morgan is aangewys as ambassadeur as gevolg van die hoeveelheid inskrywings en deelname in provinsiale items, wat hom uitsonder as van die bestes in die land, “die rol van ambassadeur is om soveel skoliere as moontlik by die Eisteddfods te betrek.”

Hy het ook die poësie-afdeling gewen met die voorlesing van Uys Krige se gedig, “Ken jy die see...”.

Maar Morgan se toekennings eindig nie daar nie! Die jong man kan gesien word in hierdie week se uitgawe van Huisgenoot nadat hy die Huisgenoot Eisteddfod se nasionale redenaarsafdeling gewen het.

Morgan het ook Talent Africa se diamant toekenning en die beste senior orator verwerf nadat hy die nasionale top 10 gehaal het.

Al neem Morgan deel aan redenaars en voordrag vandat hy 12 jaar oud is, glo hy nie die Eisteddfods sal hom na skool weer sien nie.

“Ek doen dit vir die lekkerte, maar hoop om na skool ingenieurswese te studeer,” het die jong man positief gesê.

Mnguni still on sick leave following mystery ailment

Municipal Manager Mandla Mnguni is still on sick leave and has been booked off until at least November 4 following a health scare in Mbombela.

Mnguni was rushed to hospital in Mbombela after he became disoriented during a meeting with water and sanitation department heads, including Deputy Minister David Mahlobo.

He was accompanied to the meeting by Mayor Mhlonishwa Masilela.

It is said that Mnguni became lightheaded and disoriented, resulting in his hospitalisation.

He was discharged a few days later following numerous tests to determine the cause of his sudden illness and was placed on sick leave to recover.

During his long absence, Masilela invoked his executive privilege to appoint the Executive Director for Community Services, Dr Elizabeth Tshabalala, as acting municipal manager without consulting the council.

Nonetheless, her appointment was welcomed by councillors, who agreed that Tshabalala was the most senior director to handle the day-to-day functioning of the municipality.

Happy 80th Birthday Paul Mthimunye

Tiisetso Malunga

Last Saturday was filled with love, joy and homage as the life of philanthropist Paul Mthimunye was celebrated in Mhluzi.

Mthimunye was celebrating his 80th birthday.

The celebration was organised by Jabulile Digashu and advocate Mthokozisi Xulu to celebrate the life of Mthimunye, who has dedicated his life towards helping the youngest improve their lives through education,

He started his career as a school teacher and went on to be a school inspector.

In 2001, Sipho Mthombeni donated R50 000 to invest in the future of someone needy and promising.

The fund was named after Paul Mthimunye, a dedicated and well-loved local teacher whose educational career spans more than 40 years.

Although the fund initially focused on providing support to high school learners, the success of the fund made it possible to start supporting tertiary learners.

The celebration was attended by Executive Mayor Mhlonishwa Masilela and businessmen and women alike in honour of Mthimunye.

MER takes stance to end illegal gambling

Bongekile Khumalo

TEKWANE WEST - The Mpumalanga Economic Regulator (MER), in collaboration with the SAPS, continues its operations to eliminate illegal gambling in the province by confiscating illegal gambling machines, mostly at spaza shops.

One-hundred-and-eighty Chinese Roulette gambling machines were confiscated and destroyed at the Tekwane West Central Waste Disposal Site on Thursday.

This operation followed June's last year when 50 of these machines were collected and destroyed.

The MER's spokesperson, Cedrick Chiloane, said these machines had not undergone testing or certification by the relevant standards authority, rendering them unsuitable and illegal for public use. "By destroying the machines, we aim to send a message to the public to avoid illegal and underage gambling. These machines are not suitable for consumption as they did not pass any standard. They are being offered at spaza shops, especially in the locations and rural areas, and these venues are not licensed. They are also not built with a return to the player, as legal gambling machines should have a percentage paid to the player. Instead, the purpose and intention of these Chinese Roulettes is to take and take without any payouts," he said.

Chiloane said these machines expose minors to gambling at an early age, which can cause harm through addiction. "All gambling establishments should have their valid certificate visible in their premises. We also appeal to the public to avoid and report illegal gambling establishments to their nearest police station."

Union marches against police killings

Buhle Matsoele

MBOMBELA - The death of a police captain, Sibusiso Mthombothi, who was killed in a shoot-out at a car wash in KaNyamazane earlier this year, raised concerns over the police's safety.

Last Wednesday, the South African Policing Union (Sapu) led a Mpumalanga march against police killings. According to them, an attack on the police is an attack on the state and the nation. They marched to submit a memorandum to the MEC of community safety, security and liaison, Jackie Macie, listing their concerns about the increased number of police officers who have been killed on and off duty in Mpumalanga.

They demanded that the government should intervene to ensure that law enforcement is protected by giving the perpetrators harsher sentences.

Mthombothi was fatally shot when an altercation turned violent. Two suspects were arrested after a two-month-long search led to the apprehension of the one, and the second handed himself over to the police.

The Sapu's provincial deputy chairperson, Jacob Hlongwane, read out the stats the union had collected regarding police killings. "Starting from the 2018/19 financial year, four Mpumalanga officers were killed. In 2023 to 2024, three officers were killed while on duty and eight were killed while off duty. Sapu has realised that our officers are killed by criminals, so we want to make a call to the government and the society at large that people who are killing our officers should be charged with treason," he said.

Hlongwane insisted some perpetrators commit these crimes because they are holding grudges against the officers. "The MEC sits in legislative meetings, so we have submitted the memorandum to him so that he can be a voice to say that these criminals should be charged with treason."

He said his request to the community is that they work hand in hand with the police force. "The perpetrators are living among us. The community should help law enforcement track down criminals," he urged.

Macie has been given seven working days to respond to the memorandum. In response, he said: "It is a matter we are going to check and discuss with the relevant stakeholders so that we give it the necessary attention it deserves, then we shall revert back to them within the prescribed date."

Mpumalanga SAPS members and stations awarded for dedication

Buhle Matsoele

ERMELO - The Mpumalanga SAPS held a ceremony at the Gert Sibande District Municipality on October 29 to honour some of their members for their dedication, having served with integrity for 10, 20 and 30 years.

The Mpumalanga Vispol's head, Brigadier Skhumbuzo Thela.

These officers who have shown exceptional service and commitment over their years of service were presented medals.

The ceremony continued in the evening with further awards, certificates and medals for SAPS members and stations that have demonstrated outstanding service from April 2023 to March 2024.

"This ceremony served as recognition of those who dedicate themselves to serve the community. Policing is not a job for just anyone, it's a calling. If you are called to do it, then you will go all out to serve and protect your community."

The ceremony also recognised those administrative clerks, cleaners and specialised detective units who played a role in the police force's successes.

The Mpumalanga Vispol's head, Brigadier Skhumbuzo Thela, described the ceremony as an opportunity to honour those employees who have shown unwavering dedication to the community. "This is clear evidence of the loyalty and commitment of these SAPS members who have pledged to ensure the safety of all members of the community."

Thela also acknowledged that these cops inspire other officers, proving that success in law enforcement is mostly dependent on dedication.

APPLICATION FOR EXEMPTION FROM THE MINIMUM EMISSION STANDARDS

APPLICATION FOR EXEMPTION WITH THE MINIMUM EMISSION STANDARDS FOR FIVE ESKOM POWER STATIONS (KENDAL, MATLA, DUVHA, MAJUBA AND TUTUKA) IN THE HIGHVELD PRIORITY AREA

Notice is hereby given in terms of Section 59 of the National Environmental Management Air Quality Act (No. 39 of 2004) (NEM:AQA) that Eskom intends to apply for an exemption from compliance with certain aspects of the Minimum Emission Standards (MES) for eight Eskom Power Stations, including five in the Highveld Priority Area, namely; Kendal, Matla, Duvha, Majuba and Tutuka.

LEGAL FRAMEWORK: In terms of the NEM:AQA, all coal and liquid fuel-fired power stations are required to meet the MES contained in GNR 893 that was issued on 22 November 2013 (as updated by GNR 1207 on 31 October 2018) and promulgated in terms of Section 21 of the NEM:AQA. The MES exemptions being applied for are linked to the emissions associated with activities promulgated in terms of Section 21 of the NEM:AQA GNR 893 (22 November 2013), as amended:

- Subcategory 1.1: Solid Fuel Combustion Installations.

Section 59 of the NEM:AQA grants any person, or organ of state, the right to apply for exemption from a provision of the NEM:AQA. The Section 59 application is required due to several factors, such as the restrictive legal framework, the advanced age of Eskom's power plant fleet, and the technical challenges of reducing emissions. The applications are made with due consideration of the air quality surrounding the stations.

POWER STATIONS: Exemption from the MES are being sought for the five Power Stations in Mpumalanga, Highveld Priority Area, listed below:

Power Stations	
Duvha Power Stations near eMalahleni, Mpumalanga	Kendal Power Stations near Ogies, Mpumalanga
Majuba Power Stations near Amersfoort, Mpumalanga	Matla Power Stations near Ga-Nala, (Kriel) Mpumalanga
Tutuka Power Stations near Standerton, Mpumalanga	

REGISTRATION: Eskom has appointed WSP Group Africa (Pty) Ltd (WSP), as an independent service provider, to support on the Minimum Emission Standards exemption applications. Parties wishing to formally register as stakeholders in order to offer their comment on the applications are requested to forward their full contact details to the EAP at the details provided below. Registered stakeholders will be forwarded all future correspondence and notified individually of additional opportunities to participate in the process.

MINIMUM EMISSION STANDARDS EXEMPTION REPORT REVIEW PERIOD: The Minimum Emission Standards Exemption Reports will be made available for a 30-day review and comment period from **06 November 2024** to **06 December 2024**. The reports will be made available at the following locations:

Werkers herstel slaggate op Secunda as deel van een van AfriForum Buurtwag se projekte.

AfriForum Buurtwag herstel talle slaggate, maak skoon

Jana Oosthuizen

SECUNDA - Die AfriForum Buurtwag span het in Oktober in die gebied agter Marietjie Skool en Highveld Christian College begin skoonmaak.

Hulle het die gras gesny en tuinvullis in dié gebied opgeruim en weggery.

Jan du Plessis, voorsitter van die AfriForum Teks-tak, het gesê die gebied wat hulle opgeruim het, bestaan uit 5 150m² en die gronde by Davieshof is ook opgeruim en netjies gemaak.

Dié buurtwagspan van AfriForum, het vanjaar al 93 000m² skoongemaak. Hulle het ook slaggate in die dorp herstel en lede van die Teks-tak bestuur het hand bygesit om te verseker dat die span die nodige opleiding ontvang om die gate reg te herstel.

Daar is meer as 500m² slaggate herstel en hulle het meer as 980 sakkies teer daarvoor gebruik.

Hulle het op Bergrivier-, Janson-, Mckay-, Renosterberg-, Sammy Marks-, Stow- en Tugelastrate gefokus.

Die gate se basis is oopgegrawe en deeglik herstel voordat 'n nuwe laag teer gegooi is.

Die gate is ook geseël om te verseker dat die padoppervlak nie weer verval wanneer dit reën nie.

"As dit nie vir die buurtwagspan was nie, het Secunda al in totale verval vergaan," het Du Plessis gesê.

"Inwoners se veiligheid word drasties deur dié projekte verbeter."

Edmund Hattingh se foto, Peaceful Under the Mountains in die fotojoernalistieke afdeling, was die beste onder die junior fotograwe.

Fotograwe pronk met hul werke by klubkompetisie

Jana Oosthuizen

SECUNDA - Lede van die Hoëveld Fotografieklub het op 1 November vergader en die voorgeskrewe onderwerp vir November was 'Table Top Photography'.

Die gasspreker en beoordelaar vir die aand was Leon Jacobs.

Danie Smit se foto, Toonbrode, was die beste in die voorgeskrewe onderwerp-afdeling.

Dr Leon Pelser het die beste foto onder die senior fotograwe ingeskryf en dié afdeling gewen met sy foto, Game Over.

Hy het ook 'n sertifikaat van meriete vir dié foto in die tweekleurige foto-afdeling, gekry, asook vir sy foto, Lighthouse and Thunder in die landskapafdeling.

Onder die junior fotograwe was dit Edmund Hattingh wat as die wenner weggestap het met sy foto, Peaceful Under the Mountains in die fotojoernalistieke afdeling.

Hattingh het ook 'n sertifikaat van meriete vir dié foto ontvang.

Johan Viljoen het 'n sertifikaat van meriete vir sy foto, Which One in die natuurvoëls afdeling ontvang.

Die ander fotograwe wat goed gevaar het en sertifikate van meriete vir hul foto's ontvang het is, Johan Viljoen, vir sy foto Which One in die natuurvoëls afdeling en Louis van der Walt vir sy foto's, Inyoka Stream 5 in die landskapafdeling, en Wat Click So, in die pikturale afdeling,

Die Hoëveld Fotografieklub sluit einde November hul jaar af en belangstellendes kan volgende jaar in Januarie dan weer by dié klub inskakel.

Mike van der Walt en sy gesin immigreer in Desember na Doha in Katar.

Mike en gesin emigreer

Mike van der Walt, nasionale atletiekafrigter en biokinetikus, en sy gesin, groet Secunda na jare.

Dié gesin immigreer in Desember na Doha in Katar.

Van der Walt se praktyk was vir 17 jaar by Hoërskool Secunda en hy het baie van dié skool asook ander skole in die omgewing se atlete afgerig.

Hy het op Standerton grootgeword en toe reeds op Secunda kom atletiek oefen.

Hy was 'n 100m naelloop atleet en het tot in 2016 nog aan atletiek deelgeneem.

Van der Walt was ook tot in 2014 Mpumalanga se atletiek afrigter vir naellope en hy was tot verlede jaar by die Mpumalanga Rugby Unie betrokke.

Hy het een keer die Cravenweek in George bygewoon as biokinetikus en verskeie kere die Grant Khomo Rugbyweek in Port Elizabeth.

Van der Walt het 'n sportkondisionerings- en rehabilitasie gimnasium by Hoërskool Secunda oopgemaak en sy betrokkenheid by dié skool het tot baie suksesse gelei.

Een van dié suksesse sluit in dat die skool die interhoër atletiekbyeenkoms vanaf 2015 tot 2024 gewen het.

Hy het Hoërskool Secunda se eerste rugbyspan afgerig wat ook vir lank bo-aan die ranglys gelê het.

Gedurende sy loopbaan as provinsiale atletiekafrigter, het sy atlete al 13 goue, 18 silwer en 23 brons medaljes op nasionale vlak ingepalm.

Van der Walt was in 2017 die Mpumalanga Pumas se o19 A- en B-rugbyspanne se biokinetikus en in 2018 die Mpumalanga se o15-rugbyspan se biokinetikus.

Hy gaan in Katar as 'n ontwikkelings naellope afrigter op nasionale vlak werk.

Hy en sy gesin is opgewonde vir dié nuwe hoofstuk in hul lewens en hoewel hy sy atlete gaan mis, glo hy dit is tyd vir 'n nuwe seisoen. "Katar is 'n land wat baie familie-vriendelik is en baie verwesters is," het van der Walt vertel.

"Daar is mooi parke waar 'n mens kan gaan stap. Die Grand Prix is daar, die Wêreldbeker Sokker word daar gehou en dit is 'n land wat baie het om te bied."

Doctor needs votes to win top award

Zell-Mari de Jager

Dr Damien Bronkhorst has become a familiar face in the community, working tirelessly at Standerton Hospital to save lives and heal the ill.

Bronkhorst was born in Ottery, a suburb of Cape Town, and raised in Bothasig.

This doctor was raised in a single-parent household by his mother, Belinda Bronkhorst, with help from his grandmother, Milly Bronkhorst.

"I did not always know I wanted to study medicine. It only became an option when my mother nearly lost her life in a car accident," said Bronkhorst.

While his mother was clinging on to life in the intensive care unit of the hospital, doctors told Bronkhorst to prepare for the worst. After a prolonged hospital stay, she began her journey towards recovery.

"This was my introduction into healthcare," said Bronkhorst.

He decided to make a difference and help people in similar situations.

Bronkhorst intends to focus on internal medicine.

However, situations were not always ideal because Bronkhorst had to work extremely hard to get where he is today.

He believes the grace of God and the love of those around him gave him opportunities he never dreamt of.

Dr Damien Bronkhorst needs readers' votes to be chosen for a prestigious award.

Bronkhorst was the first person in his family to attend university.

"Early in my studies, my grandmother would tell everyone, from petrol attendants to cashiers, her grandson is a doctor," Bronkhorst recalled fondly.

Bronkhorst originally studied science at the University of Cape Town, graduated and then applied to the University of Witwatersrand for his medical degree.

He completed his internship at Helen Joseph Hospital in Johannesburg and is currently completing his community service year at Standerton Hospital, where he has found immense joy.

"The thing I love most about working in Standerton is my ability to make a big difference in a small community," said Bronkhorst.

He enjoys one-on-one time with patients and getting to know them and their families.

Bronkhorst recalled some patients who would stay with him for the rest of his career, explaining building relationships with chronic patients is extremely important.

"Knowing everything about an illness is one thing, but getting to know the person behind the illness is an important step in the healthcare process," he added.

Though Bronkhorst is an introvert and enjoys working in the background with minimal praise, a great opportunity has come his way - he was nominated for the African Health Excellence Award's Rising Star Healthcare Practitioner (HCP) of the Year award.

One of his colleagues, nurse Tshabalala, spearheaded this idea and his other colleagues seconded it.

This award is designed to motivate and recognise the potential of young individuals in medicine.

"The nomination is truly humbling, and I am glad that I can make such an impact on my patients and colleagues," said Bronkhorst.

To vote for this young doctor and better his chances of winning the African Health Excellence Award for Rising Star HCP of the year, send an SMS with "AHEA 031" to 34855.

An SMS costs R1.50. Voting lines are open now until November 15.

Dr Nondumiso Mkhwanazi, Sister Nonlanhla Nhlapo, Dr Damien Bronkhorst, Sister Lettie Tsotetsi and Sister Buhle Mzinyane at the hospital.

Evander police gets recognition for their excellence

EVANDER – The Evander Police Station scooped many awards during the police excellence awards on October 30 in Ermelo. The station was among the 38 that participated in the awards. The station won the best station and the best detective branch categories.

The Evander police station won at the police excellence awards held in Ermelo.

Robber target municipal offices

eMBALENHLE - The eMbalenhle SAPS opened a business burglary case after criminals stole cashiers' computers at the Govan Mbeki municipal offices in eMbalenhle on October 27.

It is alleged criminals entered the offices in the morning, tied up the security guards inside the guard house, then opened the offices and stole the computers before fleeing.

The eMbalenhle SAPS spokesperson, Busi Mthethwa, said they made no arrests yet.

PENORENT

Nostalgie of alternatiewe heelal

Ettienne van Rensburg

As oranje die nuwe swart is, is retro seker die nuwe nuut. Die afgelope dekade het die aanvraag vir retro produkte die hoogte ingeskiet. Van Atari-videospeletjies tot langspeelplate (LPs) is van die mees gesogte produkte en selfbederf items.

Die groot dryfkrag agter dit is nostalgie, 'n hernude waardering vir die musiekformaat asook die toename in die getal versamelaars.

Die nuwe bloeitydperk vir ondermeer LPs het in 2008 begin en in 2022 is daar in die Verenigde State van Amerika 41 miljoen eenhede verkoop wat vir die eerste keer sedert 1987 die verkope van Kompaklaserskywe (CD's) verbygesteek het. Gewoonlik was die voorvereistes om nostalgies te raak dat jy in jou laat middelveertigs moet wees, maar deesdae is alles mos kits.

Vra maar vir tieners op sosiale media wat na musiek van 2010 as *oldies* verwys. As lid van Gen X-generasie soos daar na ons sterflinge verwys word wat in die 1970's gebore is, is daar 'n ongekende fasinasie met die 80's. Niks vreemd nie sal mens dink.

Diegene wat van sameswerings teorieë hou sal hierdie geniet. By nadere ondersoek blyk dit dat die Mandela-effek, vernoem na die wydverspreide valse herinnering aan Nelson Mandela wat in die 1980's in die tronk gesterf het, 'n deurslaggewende rol speel in die 1988-anomalie-teorie. Madiba het inderdaad in 2013 gesterf. Hierdie verskynsel vind plaas wanneer 'n groot groep mense gesamentlik 'n spesifieke feit of gebeurtenis verkeerd onthou. Logos, historiese feite (onder andere Harry Houdini se dood, die sluipmoord op JFK en Mona Lisa se glimlag) vorm deel van die bespiegelings.

'n Gideonsbende op die internet wat in hierdie anomalie-teorie glo, beweer dat 'n katastrofiese gebeurtenis die wêreld in die 80's uitgewis het en dat die heelal geskarrel het om die tydlyn reg te stel. Die nuwe realiteit wat geskep is, is glo die oorsaak dat soveel mense die Mandela-effek ervaar en dat ons kollektiewe bewussyn teenstrydighede voor en na 1980 probeer versoen.

Dis waarom hulle glo dat die wat die anomalie "oorleef" het, na die 1980's hunker. Dis glo ook waarom nuwe generasies 'n intense konneksie met die 80's se musiek en populêre kultuur ervaar wat hulle nie kan verduidelik nie.

Net soos met plataarde-teorie en ander belaglikhede stel die uwe nie werklik in defnitiewe antwoorde belang nie.

Al wat ek weet is dat die beste flieks en musiek sy oorsprong in die 80's gehad het.

My motto is spook en spartel in die hede en geniet die verlede.

Goeie *memories* is al wat ons het.

Al is dit miskien nie waar nie!

Invitation to register on the GEMS Database of Suppliers

gems
Government Employees Medical Scheme

The Government Employees Medical Scheme (GEMS) was registered in terms of the Medical Schemes Act 131 of 1998 with effect from 1 January 2005 and commenced member enrolment on 1 January 2006. The registered office of the Scheme is based in the Menlyn Maine Precinct, Pretoria.

In accordance with the Scheme's Supply Chain Management Policy, GEMS may call upon suppliers in the database by way of requests for quotations, requests for proposals and/or tenders. Importantly, the registration of a supplier on the Supplier Database does not guarantee that organisation business or business opportunities going forward.

GEMS hereby informs the market, as part of its annual intervention, that suppliers who may be interested in rendering services or providing goods to GEMS, can request an application form for completion and consideration.

Service providers who have completed an application prior to 2022 and who have not received an official response from GEMS, must also complete a new application (currently through email submission or captured on our automated system which is intended to go live during 2025). Service providers who were added to the GEMS Supplier Database prior to 2021 will also receive an email from GEMS to complete a new application form and update their information. Service providers who fail to submit a new application, will be removed from the GEMS Supplier Database in due course.

According to GEMS' SCM Policy, GEMS will not consider more than one supplier with the same or a majority of the same owners/ directors for the same database category. In such case, the suppliers will be informed that only one of those suppliers can be considered for placement on the database for that specific category.

The work the Scheme will perform in 2025 may necessitate the provision of goods and services noted in the application document which will range from consulting services to goods.

GEMS is committed to the principles of B-BBEE and we adhere to all relevant legislation. The participation of B-BBEE controlled, B-BBEE owned companies, companies who are at least 51% Black owned, companies who are at least 30% Black Women owned, EMEs, QSEs as well as Black Designated Groups as per the Codes of Good Practice and SMMEs is encouraged. Suppliers who do not have extensive experience in a specific category may also be considered in such categories and under specific circumstances. Certain categories of services as indicated in the application form may be reserved for suppliers who do not have extensive experience.

Currently, application forms can be downloaded from the GEMS website and can also be obtained electronically by sending an email to database@gems.gov.za. Once the automated system is ready through which providers can load their own details, GEMS will publish its new automated application mechanism on the GEMS website.

Interested suppliers are required to complete an application form, email and submit the forms electronically as well as the required documentation to database@gems.gov.za or through the database registration system. No hard copy versions of any documentation that is delivered will be considered and no application sent to another email address within GEMS, other than the noted address, will be considered.

Training/ guiding sessions available to support application completion.

Non-compulsory sessions are made available to providers on how to complete the application as support to any applicants. Suppliers who are interested in attending one of the sessions must email database@gems.gov.za indicating which session they wish to attend and must provide the company name and the email address to which the invitation can be sent.

Dates: 28 November 2024 and 02 December 2024 : Time: 11H00-13H00

All enquiries should be directed by mail to database@gems.gov.za.

VERBRUIKERS GEBRUIK VAN HUL 2-POTGELD OM MEUBELS TE KOOP

Lewis verkoop fluks

Sleutel lê in groter vertroue en krediet

Hanlie Nordejee

Suid-Afrikaners gebruik van hul tweepotuitbetalings om meubels te koop, meen Lewis.

Dié meubelwinkelgroep, wat benewens Lewis self onder meer Beares en Bedzone besit, het gister Statistieke Suid-Afrika (SSA) se syfers bevestig: September was 'n puik maand vir meubelverkope.

Waarom dit juis meubelverkope is wat in dié maand toegeneem het, volgens SSA met 10,8% tot R4,1 miljard in huidige randwaarde, terwyl ander verkope kwalik die naald geroer het, kan dalk ook by Lewis gevind word: die kombinasie van groter verbruikersvertroue en meer mense wat krediet kry.

Johan Enslin, uitvoerende hoof van Lewis, sê in September was kontantverkope by Lewis 4% hoër as 'n jaar vantevore. Kontantverkope was ook in Oktober hoër, en Enslin verwag dat mense om en by Swart Vrydag nóg van hul tweepotgeld hier gaan bestee sodra winskopies bekend is.

Hy sê die styging in verkope is ook 'n pluimpie vir Lewis self, wat heelwat nuwe meubelreekse bekend gestel het. Sy gesonde debiteureboek maak die deure oop om dié produkte aan meer mense te bemark.

Meubelskuld neem toe

Lewis verkoop meer as tweederdes van sy produkte (69,4%) met afbetaalooreenkomste, dié kredietverkope het met 16,9% opgeskiet. Kontantverkope (ingesluit waar mense hul eie kredietkaart gebruik, maar die meubels eenmalig by die winkel koop) het in die volle ses maande met 6,7% afgeneem.

In die halfjaar tot einde September het Lewis se verkope met 'n stewige 8,5% tot R2,4 miljard toegeneem, maar

'n Lewis-bedstel. Die winkelgroep besit ook Beares, UFO en Bedzone. Foto: LEWIS

sy totale inkomste het met 13,6% tot R4,4 miljard opgeskiet. Die verskil van R2 miljard is wat Lewis uit die rente, kredietversekering en ander dienste op meubelskuld verdien en dié inkomste het met 20,4% gegroei. Al styg kredietverkope, keur Lewis nie voor die voet aansoeke goed nie. Meer as 'n derde (37,4%) van aansoeke om krediet is die afgelope ses maande afgekeur. Al hoe meer mense betaal hul meubelskuld getrou af. Die persentasie van klante wat "bevredigend" betaal, het weer tot 'n rekord gestyg, naamlik 81,6%. Verlede September was dit 79,9% en in Maart was dit 81,3% vir die hele boekjaar. Bevredigende betaling word gedefinieer as rekeninge waarvan 70% van die gekontrakteerde bedrag op enige gegewe tydstip betaal is.

Goeie syfers

Enslin sê die balans van die halfjaarsyfers bemoedig hom en sy bestuurspan – van die styging in inkomste tot die beter debiteureboek, koste wat bestuur is en die groter winsgrense. Die groep is sal op sy louere te rus nie. "Dis die begin van die positiewe uitwerking van goed wat jare gelede ingestel is." Die groep mik na 'n opbrengs op ekwiteit van 15% en trek nou by 12%.

In ag genome die hoër verbruikersvertroue, aangevuur deur laer inflasie, rentekoerse en brandstofpryse, wat meer geld in mense se sak plaas, is Lewis optimisties oor verkope vir Swart Vrydag volgende week en ook vir die feestyd.

Die groep, wat die meeste van sy meubels invoer, het sy voorraad vroegtydig aangevul omdat hy stééds kla oor knelpunte by hawens en die wisselvallige koste van verskeping.

Mr Price-groep hou die mark dop vir nóg verkrygings

Hanlie Nordejee

Volgende week maak die Mr Price-groep sy 3 000ste winkel oop – en dit nadat hy in die afgelope ses maande 92 nuwe winkels oor sy 15 handelsname heen oopgemaak het.

Mark Blair, uitvoerende hoof, beskryf dit as 'n "belangrike mylpaal wat dekades van gefokuste kapitaalinvestering, groei en 'n onwrikbare verbintenis om modewaarde vir Suid-Afrikaners te bring, verteenwoordig".

Nuwe winkels is baie goeie nuus vir Mr Price. Die groep se verkope in die ses maande tot einde September het met 5,1% tot R16,9 miljard toegeneem. Verkope in vergelykbare winkels – dus dié wat reeds in September verlede jaar oop was – het met net 0,4% toegeneem. Dit beteken nuwe winkels is waar die groep se slaankrag op die oomblik lê.

Mr Price, wat ook Miladys en Sheet Street besit, het die afgelope vyf jaar byna R10 miljard bestee om ander winkelgroepe te koop en sy bestaande netwerk winkels organies te groei. Onder sy verkrygings was Studio 88, Power Fashion en Yup-

piechef. Die groep het ook meer nuwe formate geopen, soos Mr Price Kids.

Die groep sê in sy resultate hy is heeltemal skuldvry en hou die mark dop vir nuwe geleenthede vir verkrygings.

Verkope in die groep se klerewinkels het met 4,9% tot R13,3 miljard gestyg, van huisware met 4,3% en van telekommunikasie met 13,1%. Laasgenoemde verteenwoordig egter net 3,6% van die groep se totale verkope; 78,7% kom van klereverkope.

Die groep se markaandeel het met 60 basispunte gegroei. Net die klerewinkel MRP het die afgelope 12 maande R1 miljard in markaandeel van mededingers afgerokkel.

Mr Price sê verbruikers bly onder druk ná jare lange hoë inflasie, rentekoerse en skuldvlakke.

Dinge begin egter nou beslis verbeter noudat beurtkrag opgeskort is, politieke stabiliteit ná die verkiesing behaal is, en die inflasie- en rentekoers begin daal.

Die groep sien ook tekens dat onttrekkings uit die tweepotstelsel mense se besteebare inkomste verhoog.

In die eerste sewe weke van die tweede helfte van sy boekjaar (van Oktober af) het verkope met 12,4% opgeskiet. Blair beskryf dit as "belowende en hopelik vroeë tekens dat Suid-Afrika 'n opwaartse ekonomiese siklus binnegaan".

UNION: SAY NO TO TLOF TLOF FAVOURS!

Popcru president Thulani Ngwenya urges their members to report sexual harassment. Photo by Happy Mnguni

By HAPPY MNGUNI

SEXUAL favours will not be tolerated.

This was a stern warning from Police and Prisons Civil Rights Union (Popcru) president Thulani Ngwenya.

Ngwenya has urged their members to report any senior managers who abuse their powers for sexual favours to any of their members in SAPS, Correctional Services, traffic police, border management and all public servants who work in offices under the direct supervision of a senior manager.

Ngwenya stressed that no one should use their body to gain a promotion.

He urged any member experiencing such abuse to report it confidentially.

Ngwenya said Popcru is actively campaigning to name and shame the abusers.

"Firstly, let me put it clearly. Anyone who abuses his or her powers for sexual favours for any of our members.

"We denounced that as a serious crime that we need to handle. It's tantamount to gender-based violence (GBV) and abuse of power," said Ngwenya.

He said that they've been urging their members to report such abuses.

"We have a case in one of the corrections services. There's a report of such allegations against a senior manager.

"We have reported it to the national commission. We've got statements that they are an abuse of power that if you don't want to do sexual favours, you're going to be abused," said Ngwenya.

He said if such abuse happens in the police, that is tantamount to misconduct because no one must use their body to gain promotion.

"So, we're calling upon all our members to report that to us, not to their managers. We'll take it properly and protect their identity and name and shame those people who abuse their power.

"It's unethical for a manager to demand sexual favours for any promotion," said Ngwenya.

He recounted an incident at their training college where a student left due to such abuse.

"It's very difficult to jump into those things when people don't come and are confined.

"It's difficult to address these issues if people don't speak up. As Popcru president, I'm available to those affected. They can confide in me at our Auckland Park office. Both men and women are victims. Men are also chased out for refusing sexual favours from female senior managers," said Ngwenya.

He said they are committed to naming and shaming abusers and strongly oppose creating a toxic work environment.

"That's sexual abuse and GBV of its highest point, so we don't support it. Even if that member is found to be a member of Popcru, we want consequence management that must happen.

"We can't allow a working environment to become a brothel. So, we're saying any member in these three departments, including border management, can come to us and report such abuses. We will name and shame those individuals because they are committing rape," said Ngwenya.

He said those who commit such abuse need to be on the register of rapists.

"We don't have a problem with people having an affair but don't use your power and authority to demand and deprive other people of mobility just because we want horizontal activity."

Mfundisi: Treat men with dignity!

By MISHECK MAKORA

THE City of Cape Town is worried about its men.

MMC for Community Services and Health, Patricia van der Ross, said there's been a 15% decline in the number of men attending health facilities.

She urged men aged 40 and older to have regular screenings for hypertension and diabetes. However, trends show that younger men, aged 18 to 40, are also diagnosed due, in part, to lifestyle habits.

The city said during the 2023/2024 financial year, 1 101 765 men attended city clinics, compared to 1 294 229 the previous year.

The city's health department held a men's health event at the Gugulethu Clinic on Tuesday, 19 November, where men were encouraged to go for health checks regularly.

Among other things, men were advised to get their prostate checked for cancer, testicular diseases, tuberculosis, cardiovascular diseases and non-communicable diseases such as hypertension, diabetes mellitus, and HIV.

Lugongolo Foundation founder, Pastor Mawande Lugongolo, said he supports men who need medical services, and that government needs to address a few issues to address the problem.

He argues that many men work in no-work no-pay setups and can't afford to miss work and go to the clinic.

"Men don't easily get days off in informal jobs and they finish late after 5pm, yet clinics close at 4pm. Apart from closing at 4pm, some clinics have what they call 'cut off' times.

Though they close at 4pm, if you get there at 3pm you may not get helped after 'cut off' time," said Lugongolo.

To encourage more men to attend healthcare facilities, Lugongolo said there must be a "bucket list" of services for men at clinics.

He argued that at this point, men only go to clinics for HIV tests and STI treatment.

Lugongolo said there is a need to investigate how the staff treat men, who sometimes feel mistreated at clinics.

"We're not saying men must get a red-carpet treatment when they go to the clinic but must be treated like any normal patient.

"Some men go to the clinic and the treatment they get from the staff is sometimes unwelcoming," he said.

COPS need help to find a wanted suspect.

The police in Silapha 2 and the National Intervention Team in Gqeberha, Eastern Cape, are calling for help to trace Manelisi "Maneli" Matoto in connection with a double murder incident that took place on 30 June in the Bethelsdorp policing precinct.

Police spokeswoman, Captain Sandra Janse van Rensburg, said: "It's alleged that at approximately 3.50am on 30 June, the deceased, Wayde Bowker (25), was at Sweden Street, Timothy Vallei, when he was approached by two suspects.

"The suspects were armed with firearms and demanded cash and cellphones from Wayde.

During the robbery, the deceased argued with the suspects, shots rang out and Wayde died on the scene."

Van Rensburg said the suspects then allegedly hijacked a white Opel Astra that was parked in the street.

"Three male suspects and a woman drove off in the vehicle.

A victim was sleeping in the Opel Astra and was unaware of the robbery and hijacking that took place," Van Rensburg said.

"The Opel Astra was found burnt later that morning in Siyavuka Street, Booysens Park. Next to the vehicle, they found Heinrich Williams (40) with a gunshot wound to the head.

He was rushed to hospital, where he later died due to his injuries."

Van Rensburg said the police in Bethelsdorp registered two cases of murder and as the investigation unfolded, they positively linked Matoto to the murders and a warrant for his arrest was issued.

"It's also alleged that the suspect is linked to other murders in the Nelson Mandela Bay district," she said.

Cops are looking for Manelisi 'Maneli' Matoto.

Van Rensburg urged anyone who may have information on the whereabouts of the suspect to contact the investigating officer Detective Warrant Officer, Zacharia Phethla on 067 596 2425, Detective Sergeant Sox Sokanyile on 082 442 2270 or CrimeStop on 08600 10111.

Modelling academy shines at SA Championships

Michelle Buys

MBOMBELA - The South African Championships of Performing Arts, recently held in Rustenburg, showcased some of the nation's finest talent.

Among the standout participants was the Timeless Modelling & Deportment Academy, co-owned by Jacques Lombard and Ronell Joubert who also serves as the lead trainer. Together they put Mpumalanga firmly on the map with exceptional performances from their students.

Deciding to enter six of their top models, Lombard and Joubert saw their academy excel. The young talents included Dante Nortje (9), Anke Strydom (11), Lilly Kruger (14), Kruschenka du Toit (15), Leanel Joubert (16), Kristin Viljoen (17) and Chriske Schwirzer (17). Under Joubert's dedicated coaching, the academy celebrated an impressive total of 22 medals, two overall winners in age categories, and a prestigious grand champion award for Dante Nortje in the modelling category.

Four students, Dante, Anke, Lilly and Chriske, were also honoured with the opportunity to represent South Africa at the 2025 World Championships in Los Angeles, an incredible milestone for these young achievers.

Anke, in particular, stood out not only in modelling but also in acting, earning three gold medals in the comic solo, contemporary solo, and classic solo categories. She also received the overall trophy award for the highest acting score in the five to 12 age group.

Dante achieved exceptional results in the eight to 10 age category, taking home gold medals in pageant wear, formal wear, casual wear and photographic modelling. He also earned silver medals in swimwear and spokes modelling. Dante was awarded the overall trophy award for boys in his age group, and he claimed the grand champion award for male modelling, cementing his status as a top contender.

Anke also earned top honours in the 11 to 12 age category. She won a gold medal in photographic modelling and a silver medal in pageant modelling, adding to her success in acting and solidifying her place among the academy's most talented young stars.

Lilly represented the 13 to 15 age group and earned a gold medal in photographic modelling. Her achievements were further recognised with a bronze medal in pageant wear modelling and the overall trophy award for girls in her age group.

In the 16 to 17 age category, Leanel excelled with silver medals in runway casual, formal petite and swimwear petite modelling. Kristin also made her mark in this age range, achieving silver medals in runway casual, formal wear and photographic modelling, along with a bronze medal in swimwear modelling.

Chriske demonstrated remarkable skill in the 16 to 17 age group as well, winning gold medals in photographic, formal wear and runway casual modelling. She rounded off her achievements with bronze medals in pageant and spokes modelling, showcasing her versatility and dedication.

The success of Timeless Modelling & Deportment Academy highlights the dedication of both the academy's owners and its students. With such remarkable achievements, the academy continues to raise the bar in the modelling and performing arts scene, making a name not only in the Lowveld, but now also on the international stage.

Invitation to small businesses in the Healthcare Industry to participate in the GEMS Procurement Advice Centre (PAC) initiative

gems
Government Employees Medical Scheme

The Government Employees Medical Scheme (GEMS) was registered under the Medical Schemes Act 131 of 1998 with effect from 1 January 2005 and commenced member enrolment on 1 January 2006. The registered office of the Scheme is based in the Menlyn Maine Precinct, Pretoria.

GEMS is dedicated to enhancing its transformation initiatives and supporting small businesses looking to enter the competitive procurement landscape or wishing to increase their competitiveness in the procurement environment. GEMS is equally committed to promoting procurement compliance among companies interested in responding to GEMS and other tenders.

GEMS has therefore implemented a Procurement Advice Centre (PAC) to promote providers' procurement competitiveness.

GEMS would like to extend an invitation to small businesses* in the **Healthcare Industry** to participate in the Procurement Advice Centre's Tender Training and Supplier Database Registration Coaching Program, initiated by GEMS.

The program support interventions span across a maximum duration of six (6) months, during which you will participate in various online training sessions and complete tender exercises.

Interested small businesses in the healthcare industry are required to provide GEMS with their contact information, company profile, and a valid B-BBEE certificate, which must be submitted to only the email address of ProcAdviceCentre@gems.gov.za for consideration. GEMS reserves the right not to place an applicant on the Program in its sole discretion.

All enquiries could also be directed by mail to ProcAdviceCentre@gems.gov.za.

YOU ARE ENCOURAGED TO PLEASE REGISTER YOUR INTEREST AS A BUSINESS AT YOUR EARLIEST CONVENIENCE.

**Small businesses are defined as EMEs/ QSEs with at least 51% Black ownership or at least 30% Black Women ownership.*

Invitation to register on the GEMS Database of Suppliers

gems
Government Employees Medical Scheme

The Government Employees Medical Scheme (GEMS) was registered in terms of the Medical Schemes Act 131 of 1998 with effect from 1 January 2005 and commenced member enrolment on 1 January 2006. The registered office of the Scheme is based in the Menlyn Maine Precinct, Pretoria.

In accordance with the Scheme's Supply Chain Management Policy, GEMS may call upon suppliers in the database by way of requests for quotations, requests for proposals and/or tenders. Importantly, the registration of a supplier on the Supplier Database does not guarantee that organisation business or business opportunities going forward.

GEMS hereby informs the market, as part of its annual intervention, that suppliers who may be interested in rendering services or providing goods to GEMS, can request an application form for completion and consideration.

Service providers who have completed an application prior to 2022 and who have not received an official response from GEMS, must also complete a new application (currently through email submission or captured on our automated system which is intended to go live during 2025). Service providers who were added to the GEMS Supplier Database prior to 2021 will also receive an email from GEMS to complete a new application form and update their information. Service providers who fail to submit a new application, will be removed from the GEMS Supplier Database in due course.

According to GEMS' SCM Policy, GEMS will not consider more than one supplier with the same or a majority of the same owners/ directors for the same database category. In such case, the suppliers will be informed that only one of those suppliers can be considered for placement on the database for that specific category.

The work the Scheme will perform in 2025 may necessitate the provision of goods and services noted in the application document which will range from consulting services to goods.

GEMS is committed to the principles of B-BBEE and we adhere to all relevant legislation. The participation of B-BBEE controlled, B-BBEE owned companies, companies who are at least 51% Black owned, companies who are at least 30% Black Women owned, EMEs, QSEs as well as Black Designated Groups as per the Codes of Good Practice and SMMEs is encouraged. Suppliers who do not have extensive experience in a specific category may also be considered in such categories and under specific circumstances. Certain categories of services as indicated in the application form may be reserved for suppliers who do not have extensive experience.

Currently, application forms can be downloaded from the GEMS website and can also be obtained electronically by sending an email to database@gems.gov.za. Once the automated system is ready through which providers can load their own details, GEMS will publish its new automated application mechanism on the GEMS website.

Interested suppliers are required to complete an application form, email and submit the forms electronically as well as the required documentation to database@gems.gov.za or through the database registration system. No hard copy versions of any documentation that is delivered will be considered and no application sent to another email address within GEMS, other than the noted address, will be considered.

Training/ guiding sessions available to support application completion.

Non-compulsory sessions are made available to providers on how to complete the application as support to any applicants. Suppliers who are interested in attending one of the sessions must email database@gems.gov.za indicating which session they wish to attend and must provide the company name and the email address to which the invitation can be sent.

Dates: 28 November 2024 and 02 December 2024 : Time: 11H00-13H00

All enquiries should be directed by mail to database@gems.gov.za.

Car dealerships, licensing department meet to debate new change of ownership rules

Gerhard Rheeder

The bumpy transition of licensing functions from the municipality to the province has rippled out and has now placed local car dealerships on a collision course with the Department of Community Safety, Security and Liaison, with local dealerships saying that red-tape surrounding the change of vehicle ownership is threatening to stimmy business and the local economy.

Local licensing functions at the traffic department were transferred to the province on July 1, with more than 50 employees migrating to the department from the municipal payroll.

While services took about a week to restore following the takeover, residents could not prepare themselves for the ensuing fallout from rule changes, which now require vehicle owners, who trade or sell their vehicles to local dealerships, to do the change of ownership in person at the municipality, instead of dealerships handling the transfers themselves.

New regulations also include a police-certified copy of IDs, alongside proof of residence in order for locals to renew their vehicle licence discs, a requirement which is unnecessary with online renewals.

According to one local vehicle sales executive, the takeover has only complicated services, which had been a schlep for motorists and dealerships even before the changes.

The local licensing department has also adjusted its business hours to 15:00 daily, while locals also now have to hand their IDs to security guards who selectively allow clients in, resulting in hours-long waiting times, even for simple driver's licence collections.

Community members often take leave from work, only to be told to come back another day, a Middelburg Observer journalist heard from residents inside the licensing department's foyer, where they were piled in like canned sardines last week. One man said it was his third time going to the offices to fetch his driver's licence.

The stalemate resulted in a meeting between various car dealerships and the province on October 30, which was facilitated and hosted by Nico Uys of Middelburg Toyota.

Attendees of the October 30 meeting at Middelburg Toyota, where local car dealers met with the provincial and local licensing departments.

Two provincial officials and the two heads of the local licensing department attended the meeting, where a total of 18 local vehicle dealerships were present alongside private licensing service providers, who render services for vehicle owners by proxy.

The directive was communicated to dealerships in writing.

Uys says the meeting, of over three hours, concluded 'on a positive note', with departmental officials promising to address a growing backlog in the change of ownership applications, which has been stacking up since the announcement.

According to Uys, the dealerships have indicated that they are willing to adhere to regulations but added that departmental officials left the meeting knowing that 'time is money', and that the stalemate could impact businesses adversely if change of ownership applications aren't dealt with expediently.

"At the end of the day, both the dealerships and the department offer a public service, albeit that we trade cars and the department trades in licences," Uys said. He expressed the hope that their concerns will be addressed 'sooner, rather than later'.

DA Clr Bruiners demands accountability

DA PR Councillor Morgan Bruiners is going to call on the municipal manager to attend to the sewerage crisis in Nasaret.

Over the last few months, there have been numerous blocked drains in the area, "Some blocked drains have persisted for weeks, whereas in some other areas, drains have been blocked for months.

All the while, Steve Tshwete lacks a honey sucker to unblock these drains," he said.

The DA said it reported the matter, but their complaints fell on deaf ears. Some drains are located on residential property, causing serious health hazards.

"It is concerning to note that from time to time, the municipality outsources a contractor to unblock sewer drains.

This highlights the municipality's failure to provide basic services to residents. Our communities deserve reliable and efficient municipal services, and it is unacceptable for residents to suffer due to negligence and poor management."

The DA also said it would write to the municipal manager, urging him to place municipal officials in affected areas to deal with the problematic sewerage system in Nasaret.

• The Middelburg Observer sent a media enquiry to the municipality, but a comment was not reached before print.

Morgan Bruiners, DA PR Councillor.

District takes a stand at Men's Parliament

Tiisetso Malunga

The Nkangala Men's Parliament at the Nkangala District Municipality saw scores of men gathering to come up with strategies to combat gender-based violence.

The event, which was chaired by council speaker Kabelo Boshomane, was held last Thursday with the central theme, 'Breaking the Silence: United Against GBVF', (gender-based violence and femicide).

Discussions focused on the role men can play in curbing femicide and child abuse.

Guest speakers were religious leaders, traditional leaders, members from the Nkangala District Men's Sector, and an official from the Department of Social Development.

Boshomane spoke about the alarming femicide statistics, nearly 7 000 women are killed in South Africa every three months,

"This doesn't even include children. Staying silent will not help us.

We aim to leave here with solutions and programmes to address these issues," he said.

District Mayor Thomas Ngwenya, who delivered the keynote address, said the Men's Parliament could become a momentous historic initiative if carried out correctly.

He attributed some of the current social issues, including gender-based violence, to the legacy of South Africa's 300 years of colonisation, which contributed to the oppression of women by gender, class, and race.

The mayor said colonisation and apartheid broke many homes, as many fathers and men had to leave their homes in search of economic opportunities.

Ngwenya encouraged men to return to churches, where positive role models are fostered and urged against alcohol abuse, saying that many violent crimes occur under the influence.

The mayor also outlined practical steps to help curb gender-based violence in Nkangala, including:

• Establishing a men's forum in all municipalities within the district.

• Creating politically and socially patriotic societies.

• Forming street committees and neighbourhood watch forums.

Throughout the day, attendees participated in commissions that worked to develop programmes that could be implemented in their communities.

Apostle Nthonada addressed the high suicide rate among men and young boys who lack positive role models, emphasising the need for support structures.

Council speaker Kabelo Boshomane and District Mayor Thomas Ngwenya.

High-level dialogue hosted in Mpumalanga

Bridget Mpande

MBOMBELA - The MEC for agriculture, Nompumelelo Hlophe, said the information gathered in the Provincial Climate-smart Agriculture Dialogue held at The Capital Mbombela last Tuesday and Wednesday will be used as a basis to develop action plans, policies and programmes.

The national Department of Agriculture, Land Reform and Rural Development, in collaboration with the provincial Department of Agriculture, Rural Development, Land and Environmental Affairs (Dardlea), successfully hosted this two-day event that was attended by some farmers, agriculture experts in various fields, researchers and other key stakeholders.

The aim was to share experiences in agricultural resilience and adaptation to natural disasters, and to further discuss the Climate-smart Agriculture Strategic Framework.

Mpumalanga is the third province to host this high-level dialogue, after Limpopo and the Free State.

Hlophe indicated it was noted in the overall discussions that issues of funding, collaboration, awareness, capacity and training, as well as research, came out strongly as important enablers. "Therefore, Dardlea commits to prioritise disaster risk reduction measures, such as implementing mitigation and adaptation strategies focusing on important elements such as the issuing of weather warnings, awareness creation and response capabilities."

Hlophe acknowledged all the participants' contributions, especially the farmer unions.

The unions said the farmers wanted more practical solutions to build resilience be adaptive to the impacts of climate change.

Association accuses education of delaying grant payments

Riot Hlatshwayo

BUSHBUCKRIDGE - The local early childhood development (ECD) association claims that the provincial Department of Education (DoE) had not released their financial grant on time.

According to the association, this forces the educators to approach local spaza shops for assistance, asking for food on credit to provide meals to the schoolchildren and promising to pay them back on a later date.

On Thursday, a group of women affiliated with the association, some of whom are founders of preschools and teachers, said the DoE was supposed to have released the grants at the beginning of October, but they still have not received the funds.

The association's deputy chairperson, Sinky Lucia Mahlakwani, said the preschools faced serious financial challenges as a result of the DoE's payment delays. "We receive the funds every three months. We are already at the beginning of November and were supposed to have received the money at the start of October. This was supposed to be the grants covering the last quarter of the year, but we have not received it as yet," she said.

"We are left with no option but to rely on spaza shops to sell the food for the little ones to us on credit. That is unfair, because there is news of children who have become sick after eating snacks from some local spaza shops in their areas."

Mahlakwani also said she wishes the DoE would pay salaries to the ECD centres' founders. "We need to be compensated as founders of the preschools. This thing of receiving stipends must also be replaced with salaries into our bank accounts. We are educated teachers, and dealing with small children comes with big challenges, to say the least," she said.

The provincial DoE's spokesperson, Jasper Zwane, said all centres received their payment in line with the signed service level agreement. "In this regard, I request that if possible, you furnish me with the names of the centres that are complaining," said Zwane.

As for the matter of stipends and salaries, he said: "In the event the association has anything to request from the department, the doors are open and the association is welcome to come forward."
