Dear Commenting Authority,

**NOTICE OF BASIC ASSESSMENT IN SUPPORT OF A WASTE MANAGEMENT LICENCE APPLICATION TO DECOMMISSION AND REHABILITATE THE HISTORIC SLURRY PONDS (AREA 5) AT TUBATSE CHROME (PTY) LTD, FETAKGOMO TUBATSE LOCAL MUNICIPALITY, LIMPOPO PROVINCE**

**Notice issued in terms of the National Environmental Management Act 107 of 1998 (NEMA); the Environmental Impact Assessment Regulations, 2014 (as amended); and the National Environmental Management: Waste Act 59 of 2008 (NEMWA)**

**BACKGROUND AND LOCATION**

Tubatse Chrome (Pty) Ltd (Tubatse), a subsidiary of Samancor Chrome, is a ferrochrome smelting operation situated in the Steelpoort Valley, adjacent to the R555, 2 km south of the town of Steelpoort and 58 km to the north of Roosenekal, in the Limpopo Province. Tubatse produces approximately 375 000 tonnes of ferrochrome annually. The plant, established in 1975, has six submerged arc furnaces, a Chrome Recovery Plant (CRP) and a Pelletising and Sintering Plant (PSP). The CRP slurry ponds (Area 5) was historically used to store thickener underflow from the CRP. These ponds were established in the late 1980's and have been replaced by two concrete silt traps. Tubatse proposes to decommission Area 5 and to remove the waste from the footprint for disposal to the existing licenced hazardous waste disposal facility (referred to as the HH Facility).

Since Area 5 is regarded as a waste disposal facility, the decommissioning of the facility requires a waste management licence (WML) as it triggers Category A, Activity 3(14) of Regulation GN R.921, published under the National Environmental Management Waste Act, 2008 (Act 59 of 2008) (NEMWA) (as amended). Category A waste management activities require a Basic Assessment (BA) process, as outlined in GN R. 326 of the Environmental Impact Assessment (EIA) Regulations (2014, as amended), for submission to the Department of Forest, Fisheries and the Environment (DFFE). A WML for the decommissioning of Area 5 was issued to Tubatse in 2017 (Ref. No. 12/9/11/L60588/5). However, the licence validity lapsed as there were delays in the construction of the HH facility on which the Area 5 material was to be removed to. Tubatse therefore currently seeks to re-apply for a WML to decommission and rehabilitate the CRP historic slurry ponds (Area 5).

**REGISTRATION AND SUBMISSION OF COMMENTS**

WSP Group Africa (Pty) Ltd (WSP) was appointed as the independent Environmental Assessment Practitioner (EAP) to manage the BA process. Parties wishing to formally register as interested and affected parties (I&APs), in order to receive more information and/or raise comment(s) on the proposed project, are requested to forward their full contact details to the Public Participation Office and disclose their interest in the project. Any comments on the proposed project should be submitted to the Public Participation Office via the details provided below. Registered I&APs will be forwarded all future project related correspondence and notified individually of additional opportunities to participate in the process.

**DRAFT BASIC ASSESSMENT REVIEW PERIOD**

The Draft Basic Assessment Report will be made available at the venues below for review and comment for 30 days from **14 August 2023** to **12 September 2023**. Kindly ensure that all comments on the proposed project or requests to be registered as an I&AP are submitted to the contact details provided herewith, by **12 September 2023**. Should you have any queries/comments, please do not hesitate to contact the Public Participation Office.
