# 1 INTRODUCTION

---

## 1.1 BACKGROUND

The Transnet National Ports Authority (TNPA) functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035.

The Berth 605 project is reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay (PoRB) Master Plan, 2021-2035 and forms part of the Bayvue Precinct. The physical extent of the PoRB makes it the largest port in South Africa however, given the location of the port and the proposed expansion, the environmental sensitivities at the site and surrounding the port must be considered. Therefore, as part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

The Draft Scoping Report (DSR) was compiled as part of the S&EIR process which was subjected to a 30-day comment period from 19 November 2024 to 13 January 2025. This report therefore serves as the Stakeholder Engagement Report (SER) which documents the Public Participation Process (PPP) to date.

### 1.1.1 BERTH 605 PROJECT WITHIN THE PORB MASTERPLAN

Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the PDFP and the PoRB Master Plan 2021 – 2035 (**Figure 1-1**). The following projects form part of the Masterplan for the Bayvue Precinct:

1. New Berth 605 CHF
2. New Berths 709 and 710
3. Extension of Ferro slab to cater for future growth
4. Reconfiguration of Bayvue Railroad
5. Powership
6. New Berths 802 and 803 (Mega Chrome Berths)
7. Relocation of South 32
8. Additional Chrome Storage Area
9. Provision for DLH bulk relocation commodities
10. Provision for Container Handling Facility – Land

The Berth 605 project area is located within the Bayvue Precinct of the PoRB (**Figure 1-1**) as Project 1. The Bayvue Precinct was identified as a strategic location for the handling and consolidation of general cargo (dry bulk, liquid bulk (Phosphoric acid and liquid Pitch) and break bulk, including containers) in the PoRB. The precinct is situated on the northern side of the port, between Alusaf aluminium smelter in the west, Thulazihleka pan in the north and Tuzi-gazi in the east. Effectively the precinct accommodates dry bulk, break bulk and liquid bulk terminals which include significant road, rail, building and services infrastructure.

This application pertains only to the proposed Berth 605 project, and associated infrastructure required for its operation.

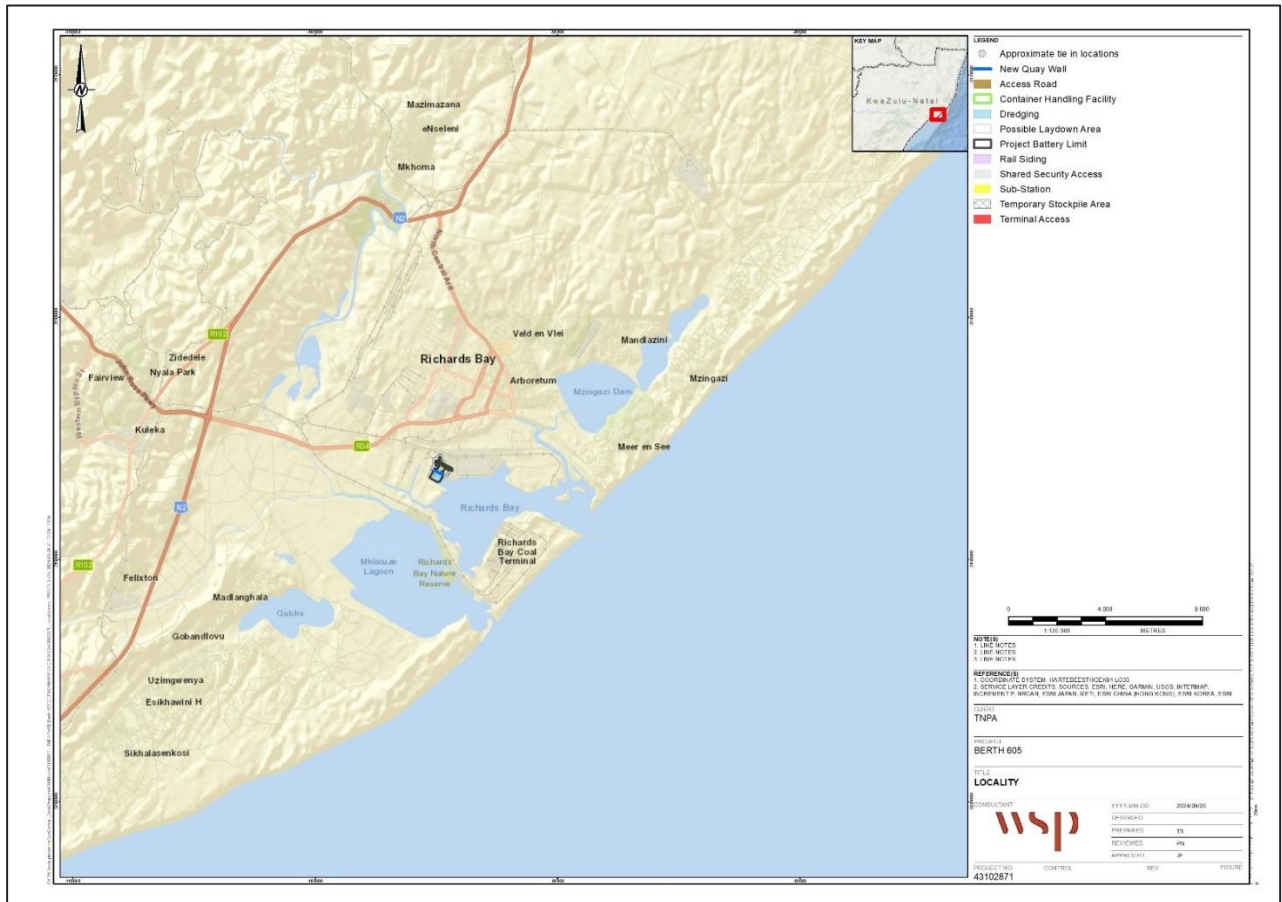

Figure 1-1 - Locality map of the Proposed Berth 605 and associated infrastructure

## 1.2 PUBLIC PARTICIPATION PROCESS

### 1.2.1 PURPOSE

Public participation is understood to be a series of inclusive and culturally appropriate interactions aimed at providing stakeholders with opportunities to express their views, so that these can be considered and incorporated into the decision-making process. Effective public participation requires the prior disclosure of relevant and adequate project information to enable stakeholders to understand the risks, impacts, and opportunities of the proposed project.

Basic reasons why the public is involved in the S&EIR process include the following:

- The environment is held in public trust; therefore, use of environmental resources is everyone's concern.
- Public participation is a proper, fair conduct in public decision-making activities. Focus on vulnerable and disadvantaged person and offer equitable participation due to historical issues.
- It is a way to ensure that projects meet citizens' needs and are suitable to the affected public.
- The project carries more legitimacy, and less hostility, if Interested and Affected Parties (I&APs) are able to influence the decision-making process.
- Finally, the final decision is informed when local knowledge and values are included and when expert knowledge is publicly examined.

### 1.2.2 OBJECTIVES

The objectives of the PPP can be summarised as follows:

- Identify relevant individuals, organisations and communities who may be interested in or affected by the project.
- Clearly outline the scope of the proposed project, including the scale and nature of the existing and proposed activities.
- Identify viable proposed project alternatives that will assist the relevant authorities in making an informed decision.
- Identify shortcomings and gaps in existing information.
- Identify key concerns, raised by I&APs that should be addressed in the subsequent specialist studies.
- Highlight the potential for environmental impacts, whether positive or negative.
- To inform and provide the public with information and an understanding of the proposed project, issues, and solutions.

### 1.2.3 WHAT IS AN INTERESTED AND AFFECTED PARTY?

An I&AP is defined as any person, group of persons or organisations interested in or affected by an activity, and any organ of state that may have jurisdiction over any aspect of the activity.

The difference between an I&AP and a registered I&AP is as follows:

- An I&AP can be directly or indirectly impacted on by a proposed activity.
- A registered I&AP is a person whose name has been placed on the register of registered I&APs. According to the PPP Guidance document, 2017, only registered I&APs will be notified:

- of the availability of reports and other written submissions made to the Competent Authority (CA) by the Applicant, and be entitled to comment on these reports and submissions; and
- of the outcome of the application, the reasons for the decision, and that an appeal may be lodged against a decision.

For the purpose of this report, registered I&APs will be referred to as stakeholders.

#### 1.2.4 RIGHTS, ROLES, AND RESPONSIBILITIES OF THE STAKEHOLDER

In terms of Chapter 6, specifically Section 43(1) of the Environmental Impact Assessment Regulations 2014 as amended (EIA Regulations) promulgated under the National Environmental Management Act (No. 107 of 1998) (NEMA), stakeholders have the right to bring to the attention of the Competent Authority (CA), any issues that they believe may be of significance to the consideration of the application. The rights of stakeholders are qualified by certain obligations, namely:

- Stakeholders must ensure that their comments are submitted within the timeframes that have been approved by the Department of Forestry, Fisheries and the Environment (DFFE), or within any extension of a timeframe agreed by the Applicant, Environmental Assessment Practitioner (EAP) and/or CA.
- Disclose to the EAP any direct business, financial, personal, or other interest that they might have in the approval or refusal of the application.

The roles of stakeholders in a PPP usually include one or more of the following:

- Assisting in the identification and prioritisation of issues that need to be investigated.
- Making suggestions on alternatives and means of preventing, minimising, and managing negative impacts and enhancing benefits of the activities conducted.
- Assisting in or commenting on the development of mutually acceptable criteria for the evaluation of decision options.
- Contributing information on public needs, values, and expectations.
- Contributing local and traditional knowledge.
- Verifying that their issues have been considered.

In order to participate effectively, stakeholders should:

- become involved in the process as early as possible;
- register as a stakeholder;
- advise the EAP of other stakeholders who should be consulted;
- contribute towards the design of the public participation process (including timeframes) to ensure that it is acceptable to all stakeholders;
- follow the process once it has been concluded;
- read the material provided and actively seek to understand the issues involved;
- give timely responses to correspondence;
- be respectful and courteous towards other stakeholders;
- refrain from making subjective, unfounded, or ill-informed statements; and
- recognise that the process is confined to issues that are directly relevant to the application.

#### 1.2.5 APPROACH TO STAKEHOLDER ENGAGEMENT

The stakeholder engagement approach is based on the following principles:

- Undertake meaningful and timely participation with stakeholders.
- Focus on important issues during the process.
- Undertake due consideration of alternatives.
- Take accountability for information used.
- Encourage co-regulation, shared responsibility, and a sense of ownership over the proposed Project lifecycle.
- Apply “due process” particularly with regard to the PPP as provided for in the EIA Regulations.
- Consider the needs, interests, and values of stakeholders.

The public participation guideline in terms of the EIA Regulations tabulates the level of public participation required for various levels of anticipated project impacts.

## 2 PUBLIC PARTICIPATION PROCESS TO DATE

---

### 2.1 PRE-APPLICATION PHASE STAKEHOLDER ENGAGEMENT

Tasks undertaken during the Pre-Application Phase are detailed in the following Sections.

#### 2.1.1 IDENTIFICATION OF KEY STAKEHOLDERS

The Pre-application Phase commenced with the compilation of a stakeholder database to include relevant stakeholders, such as Commenting Authorities, landowners/users, and Ward Councillors, as well as any other I&APs who may be interested or affected by the project. A copy of the stakeholder database is included in **Appendix A**.

Relevant authorities (Organs of State) have been automatically registered as I&APs. In accordance with the EIA Regulations all other persons must request in writing to be placed on the register, submit written comments, or attend meetings in order to be registered as stakeholders and included in future communication regarding the project.

Section 41 of the EIA Regulations states that written notices must be given to identified stakeholders as outlined in **Table 2-1**.

**Table 2-1 - I&AP Table**

NEMA REQUIREMENT	DISCUSSION
<i>(i) the owner or person in control of that land if the applicant is not the owner or person in control of the land</i>	The applicant is the landowner.
<i>(ii) the occupiers of the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken</i>	The applicant is the landowner and occupant.
<i>(iii) owners and occupiers of land adjacent to the site where the activity is or is to be undertaken or to any alternative site where the activity is to be undertaken</i>	The applicant is the landowner and occupant.
<i>(iv) the municipal councillor of the ward in which the site or alternative site is situated and any organisation of ratepayers that represent the community in the area</i>	The Ward Councillors from Wards 2 of the City of uMhlathuze Local Municipality has been included in the stakeholder database.
<i>(v) the municipality which has jurisdiction in the area</i>	The King Cetshwayo District as well as the City of uMhlathuze Local Municipalities have been included on the stakeholder database.
<i>(vi) any organ of state having jurisdiction in respect of any aspect of the activity</i>	The DFFE has been consulted as the CA regarding the application.
<i>(vii) any other party as required by the competent authority.</i>	All tiers of government, namely, national, provincial, local government and parastatals have been included on the stakeholder database. Inclusive of: <ul style="list-style-type: none"> <li>• DWS;</li> <li>• DFFE: Biodiversity Conservation Unit Directorate;</li> <li>• SAHRA</li> <li>• KZN Department of Agriculture and Rural Development</li> <li>• Department of Economic Development, Tourism and Environmental Affairs</li> <li>• Ezemvelo KZN Wildlife</li> </ul>

A list of stakeholders is included in **Appendix A** of this SER. The stakeholders along with the reference to comments received, where applicable, are included in **Table 3-1**. The stakeholder database will be updated throughout the S&EIA process project.

## 2.2 SCOPING PHASE

The DSR was placed on public review for a period of 30 days from **19 November 2024** to **13 January 2025** at the Richards Bay Public Library and the Aquadene Public Library. Additionally, electronic versions of the report were placed on the WSP Group Africa (Pty) Ltd (WSP) website as well as a Data Free website to be accessed by the public at the following links: <https://www.wsp.com/en-ZA/services/public-documents> and <https://wsp-engage.com/>.

Proof of the placement of the DSR in the public domain is included in **Appendix C.1** of this SER.

### 2.2.1 DIRECT NOTIFICATION

Notification of the proposed project was issued to potential I&APs and stakeholders, via direct correspondence (i.e. email and sms) on 18 November 2024. The purpose of the notification was to offer potential I&APs and stakeholders the opportunity to register on the project database and opportunity to comment on the draft Scoping Report. Stakeholders were reminded of the projects on 09 January 2025.

Proof of notification is included in **Appendix C.2** and **Appendix C.3** of this SER.

### 2.2.2 ADVERTISEMENT

Notification of the proposed project as well as opportunity to comment on the DSR was issued to the general public via an advertisement published in the Zululand Observer and Isolezwe newspapers on 15 November 2024, in English and isiZulu respectively. As mentioned above, the purpose of the advertisement was to notify the general public of the proposed project and provide an opportunity to register on the project database and provide input into the process through the availability of the draft DSR. A copy of the advertisement is included as **Appendix B** of this SER.

### 2.2.3 SITE NOTICES

The EIA Regulations require that site notices be fixed at places conspicuous to the public at the boundary or on the fence of the site where the activity (to which the application relates) is to be undertaken, as well as at any alternative sites. Posters (in English and isiZulu), conforming to the size specifications as per the EIA Regulations were placed on Monday, 18 November 2024, at the following points:

- Aquadene Public Library
- Richards Bay Library
- Umhlathuze Municipality
- Zululand Yacht Club
- Richards Bay Ski-Boat Club
- Richards Bay Seafarers Club
- IDZ Entrance
- Blackwood's Richards Bay
- TNPA Entrance
- Corner of Anglers Road and Krewelkrin Street
- Department Home Affairs King Cetswayo District (Richards Bay)

A copy of the site notice and proof of placement are included in **Appendix C.4** of this SER.

## 3 COMMENTS AND RESPONSES

Following the receipt of comments from I&APs, this Comments and Response Report ("CRR") was prepared. All comments received from stakeholders on the DSR have been captured and responded to within **Table 3-1**. The original comments and responses are included in **Appendix D** of this SER.

**Table 3-1 – Comments and Responses on the DSR**

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
	Patrick Mthombeni	Private	19 November 2024	I started my business in 2008 as Logistics but never get any opportunities to start as logistics (road freight) due to the fact that I do not have startup capital and no contract that I am getting. I have qualification in this field and experience from Rio Tinto (RBM) in inbound and outbound logistics. When the project is kicking off, can I be considered as a local business from Mambuka Tribal Authority in the area of my birth.	Good Day  Thank you for your comment. It will be captured in the project's comments and responses register.	19 November 2024
	Patrick Mthombeni	Private	19 November 2024	As above.	Good Day Mr Mthombeni  Please note that you have commented on the environmental authorisation process. However, please contact TNPA procurement division directly for additional information regarding provision of services for the project.	20 January 2025
	Matthew Preiss	Grindrod Eyamakhosi	14 November 2024	Good afternoon,	Good day Matthew,  Kindly note that you have been added on to the project database.	15 November 2024

				Land Use Management Reference Number: 2022/11/6033		
	Constance Musemburi	DFFE: Case Officer	6 December 2024	<p>1 Application Form and Listed Activities</p> <p>a)</p> <p>The Application Form indicates that “Infilling of wetlands potentially identified in the project area and will be confirmed during the specialist investigation”. It is further noted that there is use of the words “may, potentially, etc”, when describing the project activity that triggers the listed activities applied for.</p> <p>Please ensure that you refrain from using words such as, “it is anticipated, potentially,” etc. Listed Activities are not based on a precautionary approach. The EAP/Applicant must be certain why listed activities are being triggered to enable the competent authority to apply its mind to all the assessed listed activities during decision making. Only applicable listed activities must be applied for, and the project description must be specific on what is being proposed in the final SR.</p>	The application form and Final Scoping Report have been updated to include only the listed activities that will be applicable.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
	Constance Musemburi	DFFE: Case Officer	6 December 2024	b) Please ensure that the relevant listed activities are applied for, are specific and that it can be linked to the development activity or infrastructure as described in the project description. As such an amended application form must be submitted together with the final SR.	The listed activities being applied for are linked to specific project activities, the application form and Final Scoping Report have been amended accordingly.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	c) Please clarify and confirm the applicability of Listing notice 2, Activity 26. Also highlight sub-listings triggered by this activity. The SR must assess the correct sub-listed activity for each listed activity applied for and include thresholds. Will the proposed development increase the development footprint of the port or harbour?	Activity 26 is applicable as it is development (ii) in an estuary in respect of (a) facilities associated with the arrival and departure of vessels and the handling of cargo and (f) in respect of coastal harbours or ports.  The dredging activities will result in that area of the port being widened and deepened which will inevitably result in the development footprint of the port being increased (please refer to Appendix D for the pre-application meeting minutes which confirmed the applicability of this activity and the increase in the development footprint of the port).	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
	Constance Musemburi	DFFE: Case Officer	6 December 2024	d) Please ensure that the relevant listed activities are applied for, are specific and can be linked to the development activity or infrastructure as described in the project description. Please provide a full description of how the listed activity is triggered by the proposed development, including the threshold where necessary. Only activities applicable to the development must be applied for and assessed.	The listed activities being applied for are linked to specific project activities, the application form and Final Scoping Report have been amended to only include the applicable listed activities.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	e) Carefully consider the triggers for Listing notice 3 activities. Please ensure that the provincial department confirms that the systematic biodiversity plans/bioregional plan have been adopted by the competent authority and confirms the development is within these areas. This information must be included in the amended application form and final SR to be submitted.	WSP obtained confirmation from the KZN EDTEA and Ezemvelo KZN Wildlife that the provincial department has not yet adopted any systematic biodiversity or bioregional plans. The application form and scoping report has been updated to reflect the revised listing notice 3 activities.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	f) You are required to confirm whether systematic biodiversity plans or	WSP obtained confirmation from the KZN EDTEA and Ezemvelo KZN Wildlife that the	20 January 2025

					<p>for the motivation of the project at the preferred site.</p> <p>(x) if no alternatives, including alternative locations for the activity were investigated, the motivation for not considering such – Section 2.3 and Section 3 of the Final Scoping Report</p> <p>(xi) a concluding statement indicating the preferred alternatives, including preferred location of the activity – Section 2.4</p>	
	Constance Musemburi	DFFE: Case Officer	6 December 2024	<p>b)</p> <p>b) Please note that Appendix 2(2)(1)(g)(x) of the NEMA EIA Regulations, 2014, as amended, requires that “if no alternatives, including alternative locations for the activity were investigated, the motivation for not considering such” must be included in the SR. You are therefore required to provide motivation should other alternative sites, routes, layouts, and technologies not be considered.</p>	Section 2.3 of the Final Scoping Report contains detailed information on all alternatives considered.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	c)	Section 2.3 of the Final Scoping Report contains detailed information on all alternatives	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				Please ensure that through the description and assessment of alternatives in the final SR, the decision maker must be in a position to follow the argument as to which alternatives will be further evaluated and which alternatives were scoped out of the process. Apart from evaluating the impact of the proposed development against baseline conditions, a clear indication (i.e. reasoned opinion) must be provided by the Environmental Assessment Practitioner (EAP) on the sustainability of the proposed development and the preferred alternative.	considered however Section 2.4 provides a summary of the alternatives and those alternatives to be further evaluated.	
	Constance Musemburi	DFFE: Case Officer	6 December 2024	<p>3 Layout and Sensitivity Maps</p> <p>a)</p> <p>The final layout map must indicate the following (but not limited to the below):</p> <ul style="list-style-type: none"> <li>• The proposed development area.</li> <li>• Final position of all infrastructure e.g., new berth pocket and quay wall, dredging areas, dredge disposal areas, new rail siding, footprint of the Container Handling Facility (CHF) and apron area, access roads, etc.</li> <li>• Permanent laydown area footprint.</li> </ul>	The layout and sensitivity of the project and the project site were illustrated on separate maps in the Draft Scoping Report. Please refer to Appendix C. Separate maps were created because the all the required information could not be presented on a single map due to the visibility of certain layers. In addition, the specialist studies are currently underway and the buffer and no-go areas can only be made available in the Draft EIR.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				<ul style="list-style-type: none"> <li>• All supporting onsite infrastructure e.g., laydown areas, sewer network, storm water network, electrical infrastructure (existing and proposed).</li> <li>• All existing infrastructure on the site.</li> <li>• The location of sensitive environmental features on site e.g., CBAs, ESAs, visually sensitive areas, heritage sites, wetlands, drainage lines etc. that will be affected.</li> <li>• Buffer areas recommended by specialists; and</li> <li>• All “no-go” areas.</li> </ul>		
	Constance Musemburi	DFFE: Case Officer	6 December 2024	b) Please ensure that the above map has a clear legend that communicates with details of the map.	A legend is included on all layout and sensitivity maps that accompany the Final Scoping Report.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	c) The above map must be overlain with a sensitivity map and a cumulative map.	Refer to Appendix C for the layout and sensitivity maps.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	d) Images and Google maps will not be accepted for decision-making purposes.	The layout and sensitivity maps included in the Draft and Final Scoping Reports were created on ARC GIS, however images and Google Earth maps were	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
					also included in the reports as supplementary information.	
	Constance Musemburi	DFFE: Case Officer	6 December 2024	e) It must be emphasised that the final EIAR must include a final layout map which adheres to specialist recommendations as well as the identified no-go areas and buffer zones.	The Final EIAR will include a final layout and sensitivity map including no go and buffer zones.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	f) Include a description of the process to determine the finalised layout i.e. specialist considerations, site sensitivities etc.	Section 8 of the Final Scoping Report is the Plan of Study for the EIA Phase. This section provides detailed information on the EIA process including specialist studies and the impact assessment methodology. Section 8 also details the process to be followed in the EIA phase.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	g) Please include a separate appendix which contains all relevant mapping information. Ensure that clear, legible maps of high resolution are provided.	The Draft and Final Scoping Reports included A3 maps of high resolution in Appendix C.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	4 Specialist Studies to be conducted in the EIA Phase a)	The specialist studies and associated methodology for each study was included in	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				Specialist studies to be conducted must provide a detailed description of their methodology, as well as indicate the locations and descriptions of turbines, and all other associated infrastructures that they have assessed and are recommending for authorisations.	Section 8 of the Draft and Final Scoping Reports.  It must be noted that there are no turbines associated with the proposed project.	
	Constance Musemburi	DFFE: Case Officer	6 December 2024	b)  The specialist studies must also provide a detailed description of all limitations to their studies. All specialist studies must be conducted in the right season and providing that as a limitation, will not be accepted.	An assumptions and limitations section will be included in all specialist reports. Specialist studies that are season sensitive will be conducted in the favourable season.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	c)  Should the appointed specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and were necessary, include further expertise advice.	Specialist recommendations will be reviewed by WSP for overlap or contradictions prior to inclusion into the Draft EIR.	20 January 2025
	Constance Musemburi	DFFE: Case Officer	6 December 2024	d)  It is further brought to your attention that Procedures for the Assessment	The specialist studies will be conducted according to the protocols. In addition, where required, SACNASP	20 January 2025

				Scoping Report. The EIA report must comply with the following:  The procedures for the assessment and minimum criteria for reporting on identified environmental themes in terms of sections 24(5) (A)(H) and 44 of the National Environmental Management Act, 1998.	sections of the NEMA during the S&EIR process.	
14	E Naidoo	City of uMhlathuze	10 January 2025	The city of uMhlathuze has reviewed the Draft Scoping and Environmental Impact Report dated 19 November 2024 in respect of the above application. We submit the following comments:	WSP acknowledges the comments made by the City of Umhlathuze.	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	1 Land Use Management  The site is zone as Harbour and falls within the jurisdiction of the Port Authority permitting such activities.  Building Plans must be submitted to the Municipality for approval before the development of any new structures.	TNPA will submit the relevant building plans to the Umhlathuze Municipality prior to the commencement of construction.	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	2 Air Quality Management  The facility is required to ensure the following is monitored to determine impacts on the environment:	The proposed site is located within the Port of Richards Bay associated with existing port related activities and traffic. Therefore, dust, SO <sub>2</sub> and VOCs will be limited to the	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				<p>Dust fallout monitoring should be conducted in accordance with the National Dust Control Regulations, 2013.</p> <p>Sulphur Dioxide (SO<sub>2</sub>) as it can have detrimental effects on both human health and the environment.</p> <p>Volatile Organic Compounds (VOCs) due to their potential to contribute to air pollution and pose health risks.</p>	<p>construction phase therefore the impacts on the receiving environment will not be long term and will be managed with the site specific EMPr.</p> <p>In addition, there are no sensitive receptors within a 1.5km radius from the site therefore dust, SO<sub>2</sub> and VOCs are unlikely to pose a risk to human health.</p> <p>It is the professional opinion of the Air Quality Specialist that Air Quality Monitoring will not be required.</p>	
	E Naidoo	City of uMhlathuze	10 January 2025	<p>3 Transport Planning</p> <p>The City of Umhlathuze notes that the access and new infrastructure will be within the port area.</p>	WSP acknowledges this comment.	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	<p>The TIA must detail the expected increase in trip generation and assess how the new Berth 604 will affect the external road network leading to and along the John Ross (R34).</p>	<p>A TIA will be undertaken in due course that will address the issues raised by City of uMhlathuze.</p> <p>The TIA will assess a range of modal splits for road vs. rail container traffic. The best-case scenario of 30% vs 70% (road :</p>	

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
					rail) and worse case of 100% : 0% (road : rail).	
	E Naidoo	City of uMhlathuze	10 January 2025	<p>The new Berth 605 is project to generate additional trips generating external traffic. Transnet needs to improve the truck staging area on site as the current facility has limited capacity and reliance on external truck stops is not always feasible.</p> <p>Trucks are prohibited from waiting along municipal, provincial or national roads to enter the port area. There are concerns about managing container truck movements similar to concerns with coal truck movements. In this regard, access through gate 0 needs clarification. It may be necessary to widen the Harbour Arterial to prevent dangerous traffic conditions due to conflict between various types of cargo deliveries.</p>	<p>A supplementary access road off Urania Road with a security control point to serve the CHF and Berth 605, as well as the greater Port network, has been proposed and approved in principle by TNPA.</p> <p>The widening of Harbour Arterial and West Central Arterial and an additional truck staging area adjacent to West Central Arterial within the Port has been proposed by TNPA and is currently being assessed as part of the Port of Richards Bay Road &amp; Rail prefeasibility study.</p>	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	It is not acceptable to dismiss trip generation as minor given existing congestion because of port operations and inadequate rail services. Solutions are required given the current situation.	The trip generation figures for the Berth 605 project are below the 50 trip threshold however a TIA will be undertaken in due course which will assess a range of modal splits.	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	The rail system has proven unreliable therefore development plans must	Regarding the comment on the rail system, the design for truck	20 January 2025

				account for worst case scenarios where rail operations fail as has been observed in recent years.	access and additional road capacity has been considered to accommodate the movement of containers. Operational philosophy has detailed the rail operation interfaces with the mainline and upgrades needed to ensure efficiency.	
	E Naidoo	City of uMhlathuze	10 January 2025	Consideration must be given to use dredging material for sand replenishment purposes on Alkanstrand (Northern Beaches) if it is found to be clean and of good quality. It is also proposed to put the material on the northern side of the pier to make the area shallower and to improve the sea floor level to reduce wave action.	Regarding the comment on use of dredged material for sand replenishment purposes, the beneficial use of sand as outlined above (beach replenishment and/or wave protection) was deemed to be unlikely, based on the composition of the material as presently indicated from available information. Geotechnical Investigations will provide clarity. Once these results are available, a re-assessment of the possible beneficial use (discharge to beaches) can be made.	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	The report references that 3900 trucks entered the port in 2012. This figure raises questions given that in 2024, approximately 1300 trucks entered daily thus over 39000 monthly. Recent figures and numbers have to be used.	The Final Scoping Report has been updated according to recent surveys. 7-day 24-hour traffic surveys were undertaken during October 2024 and will be	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				<p>The comment under the same section <i>the current road infrastructure of the PoRb cannot provide sufficient and safe access to the facility.</i> this statement confirms that any additional trucks will be a problem and mitigation measures need to be provided.</p> <p>Questions remain regarding truck generation if the rail system fails. It is crucial to assess whether current infrastructure can handle such a scenario.</p>	<p>available in the Draft EIR, initial analysis indicates the following vehicle volumes: 1285 heavy vehicles enter and exits the Port per day, 4406 total vehicles average per day (in and out). The heavy vehicle proportion is approximately 30% of the total vehicle volumes.</p>	
	E Naidoo	City of uMhlathuze	10 January 2025	<p>4 Spatial Planning</p> <p>The proposal is relevant and aligns with the Richards Bay Port Development Framework Plan and other applicable policies and legislative mandates.</p>	<p>WSP acknowledges that the Municipality considers the project to be aligned with relevant legislation and the Port Development Framework Plan.</p>	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	<p>5 Fire and Rescue</p> <p>All the proposed fire extinguishing media are required to be illustrated on the fire layout plans for the Municipal Fire Department approval at the time of building plan submissions.</p>	<p>TNPA will illustrate the fire extinguishing media on the fire layout plans that will be submitted to the Municipality prior to the commencement of construction.</p>	20 January 2025
	E Naidoo	City of uMhlathuze	10 January 2025	<p>6 Environmental Planning</p> <p>The Berth 605 project is included in the short-term plan for the PoRB with</p>	<p>It must be noted that only the disturbance footprint of the CHF has been included in this</p>	20 January 2025

				a target completion date of 2032. Upon reaching the end of the CHF operational lifespan there are 2 potential paths, i.e. either replacing or decommissioning the CHF. Both alternatives are likely to have negative environmental consequences therefore it is advised that the applicant considers future planning implications when seeking environmental approvals.	current application and S&EIR process. The construction, operation and decommissioning of the CHF does not form part of the Berth 605 project and will obtain the necessary approvals in due course.	
15	Natasha Higgitt	SAHRA	13 January 2025	<p><b><u>As the proposed development has components below the high-water mark, a separate application is required to be submitted to SAHRA via SAHRIS.</u></b></p> <p>Please note that all development applications are processed via our online portal, the South African Heritage Resources Information System (SAHRIS) found at the following link: <a href="http://sahra.org.za/sahris/">http://sahra.org.za/sahris/</a>. We do not accept emailed, posted, hardcopy, faxed, website links or DropBox links as official submissions.</p> <p>Please create an application on SAHRIS for <u>each EA application</u> and upload all documents pertaining to the Environmental Authorisation Application Process. As per section</p>	WSP acknowledges the comment from SAHRA. Based on the comment, separate applications will be uploaded for the underwater heritage assessment and terrestrial heritage assessments during the EIA Phase once these reports are available.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA), an assessment of heritage resources must form part of the process and the assessment must comply with section 38(3) of the NHRA. If a case already exists on SAHRIS regarding the development, please upload the documents to that case using the "Make an additional submission to an existing case" in the application selector wizard <a href="https://sahris.org.za/form/application-selector">https://sahris.org.za/form/application-selector</a> . Please ensure that all documents produced as part of the EA process are submitted as part of the application.		
15	Nokwazi Magubane	SDCEA	13 January 2025	Environmental concerns – berthing operations can contribute to water and air pollution, including emissions of greenhouse gases from idling ships	The potential environmental impacts have been identified during the scoping phase and will be further investigated during the EIA phase.	20 January 2025
	Nokwazi Magubane	SDCEA	13 January 2025	Climate change – In the report it was mentioned that assessments done previously for other projects is not expectable since the entire project site is an EFZ and CBA. Since the clearing from the previous project may mean	Climate related impacts have been identified for other projects in proximity to the Berth 605 project area as climate assessments can be considered regional. The	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				few animals could rehabilitate themselves in the proposed site so a report needs to be compiled. An offsetting is not a solution as we are trying to maintain and foster and undisturbed environment.	<p>existing assessments were reviewed to identify potential impacts associated with the Berth 605 project. In addition, a Climate Change Impact Assessment will be conducted for the Berth 605 project.</p> <p>The site is located within the EFZ and a CBA however the site is considered to be transformed and historical imagery presented in the scoping report indicates the level of transformation and disturbance over the years. In additional, there are no bioregional plans that have been adopted by the competent authority in relation to the CBAs. Nonetheless, sensitive environments within the project area will be investigated by the relevant specialists and the findings as well as mitigation measures will be included in the EIR.</p>	
	Nokwazi Magubane	SDCEA	13 January 2025	Gas leaks – what measures will be taken by the developer in an event of a leak to minimize the negative impacts that a leak may have on health and wellbeing of the	Gas leaks are not anticipated for the proposed project however TNPA has an emergency response plan for unplanned events and	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				surrounding communities and the natural habitats. Can the developer set aside funding to respond to the disasters as a result of their operations?	incidents and all incidents will be handled according to this plan.	
	Nokwazi Magubane	SDCEA	13 January 2025	Port is an estuary which is important to marine life for breeding. Subsistence fisher folds and traditional healers who depend on the ocean and estuaries need assurance that their way of life will not be adversely affected, In an event of a spillage does the developer have a facility for marine life affected by the spills?	The impact of the project on the estuary will be further investigated in the EIA phase. TNPA has an emergency response plan in place that will be implemented during any unplanned events or incidents.	20 January 2025
	Nokwazi Magubane	SDCEA	13 January 2025	Will any of the proposed project areas include traditional fishing areas that will be closed off to fishing. What areas will be closed off that are currently accessible to the public.	TNPA will confirm if there are any areas accessible to the public for fishing, this will be presented in the Draft EIR.	20 January 2025
	Nokwazi Magubane	SDCEA	13 January 2025	Employment – will the development improve the lives of community members? Based on previous experience local leadership tend to approve such projects as they assume such projects will create jobs for community members which in most cases left for high tertiary qualifications and limited to security guards. If employed then they will also	The project will create job opportunities in the region however the level of skills required for the jobs may vary. Local businesses will also be considered for the supply of materials during the construction phase.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				be contract workers in the construction phase		
	Nokwazi Magubane	SDCEA	13 January 2025	Traffic management – the report is silent/unclear on the additional trucks on our roads delivering or fetching materials. As with recent times, access to the town of Richards Bay have been heavily congested in some instances totally blocked off by trucks hauling various minerals, materials and chemicals into the port so with this development it will be an addition.	Section 6.1.11 of the Final Scoping Report has been updated to reflect recent traffic counts.  A TIA will also be undertaken in due course that will address the issues raised by City of uMhlathuze.	20 January 2025
	Nokwazi Magubane	SDCEA	13 January 2025	Pipelines – with construction for the pipelines indigenous flora will be removed which has the potential to introduce invasive alien flora. What measures will be put in place to ensure this doesn't happen.	A terrestrial biodiversity assessment will be undertaken which will include impacts and related mitigation measures on terrestrial flora and fauna.  It must be noted that despite the project being located within the EFZ and CBA, a large extent of the site is developed and transformed by previous port related activities.  Mitigation measures including an alien invasive species management plan for the terrestrial biodiversity will be presented in the Draft EIR.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
	Nokwazi Magubane	SDCEA	13 January 2025	Clearing of indigenous vegetation under the NFA all forests are protected and no trees dead or alive may be cut, damaged or removed without license from the DFFE so will the developer be applying for one or has one already?	Preliminary findings from the investigation conducted by the terrestrial biodiversity specialist confirmed that no protected floral species were identified within the project area. However, if these are identified prior to or during construction, the necessary permits will be obtained.	20 January 2025
16	Dominic Wieners	Ezemvelo KZN Wildlife	14 January 2025	It is brought to your attention that the proposed new berth and associated infrastructure development is located in a highly sensitive environment which is considered to be of conservation significance	WSP acknowledges this comment. According to the DFFE Screening Tool the site is very high in sensitivity for the terrestrial biodiversity and aquatic themes due to the CBA and EFZ.	20 January 2025
	Dominic Wieners	Ezemvelo KZN Wildlife	14 January 2025	While there may be a number of concerns with the proposed application, the Plan of Study is supported in principle in as far as it will potentially provide the required information required to make an informed decision.  Furthermore, the specialist studies recommended in the Plan of Study should identify additional fatal flaws not already identified in the baseline studies and initial feasibility studies.	WSP acknowledges the support of the plan of study presented within the Draft Scoping Report.  The specialist studies will identify fatal flaws and previous studies in proximity to the project area will also be considered.  A baseline estuarine and marine ecology assessment will be undertaken to determine	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				<p>However, Ezemvelo urges the Environmental Assessment Practitioner (EAP) to take careful cognisance of other specialist studies, and the concerns flagged there recently for proposals in close proximity to that proposed here. This is in particular related to the:</p> <p>Impacts to the estuarine area, and estuarine fauna (across the size spectrum),</p> <p>Cumulative noise impacts to roosting birds on the nearby sandspit and associated mangrove areas,</p> <p>Potential increased light impacts to the mangrove areas in relation to roosting birds.</p>	<p>the impacts on the estuarine environment.</p> <p>An avifaunal impact assessment will be undertaken and will include any identified impacts and cumulative impacts on roosting birds.</p>	
	Dominic Wieners	Ezemvelo KZN Wildlife	14 January 2025	Further to the above, the specialist studies related to dredge disposal will need to show that the preferred disposal site will not have any undue impacts to offshore biodiversity, in particular to the resident humpback dolphin population, or impact with any cetacean migration routes, or turtles.	The existing and operational offshore disposal site has been identified for the disposal of dredged material from the Berth 605 project.	20 January 2025
	Dominic Wieners	Ezemvelo KZN Wildlife	14 January 2025	In addition, the wetland assessment should consider all wetlands which are ground-water driven and derived as being freshwater wetlands,	This comment is noted, all wetlands will be considered in the wetland assessment.	20 January 2025

#	NAME	ORGANISATION	DATE OF COMMENT	COMMENT/ QUESTION	RESPONSE	DATE OF RESPONSE
				irrespective of their location in the Estuarine Functional Zone. While some wetlands in the area may be as a result of anthropogenic activities during port construction, these areas do contribute to the ecosystem goods and services values, and all freshwater resources ecosystem goods and services should be retained. Should there be residual loss, there will need to be some consideration given to freshwater resource offsets, as part of the specialist study.		
	Dominic Wieners	Ezemvelo KZN Wildlife	14 January 2025	Ezemvelo look forward to engaging further in this project proposal. Please note that this does not constitute final comment, but that final comment will be submitted upon review of the specialist reports as part of the Draft Environmental Impact Report.	This comment is noted. Ezemvelo will be informed when the EIR and specialist studies are made available for comment.	20 January 2025

## 4 WAY FORWARD

---

The DSR was subjected to a PPP as per the requirements of the NEMA EIA Regulations. Following the acceptance of the Final Scoping Report (FSR) within 44 days of submission, a Draft Environmental Impact Report (EIR) will be made available to all stakeholders for a 30-day comment period, following which a Final EIR will be made available to the DFFE within 106 days of acceptance of the FSR. The DFFE has 107 days to then make a decision on the Final EIR Report.

All stakeholders will be notified via email and sms of the comment period on the Draft EIR and the decision on the Final EIR.

# Appendix B

## NEWSPAPER ADVERTISEMENTS

# Battling residents call for discounts on food

Kaylene Louw

CASH-strapped consumers are pleading with retailers to consider offering discounts on essential items instead of luxuries ahead of this year's Black Friday sale.

With many households having to dig deeper or go into debt to stay afloat, shoppers believe slashing the prices on food, electricity and fuel would be most beneficial.

According to the Essential Food Price Monitoring Report conducted by the Competition Commission South Africa, food prices increased by an alarming 50% from September 2020 to September 2024.

As a result, a nutritional basket of food for a family of four is estimated to be over R3 600 per month, 7.7% more than last year.

*The Outlier*, an independent publication specialising in using data to create public service stories and visualisations, has tracked the changing consumer prices in South Africa, which reflect the shift in

prices from January 2022 to September 2024.

Despite several decreases in petrol this year, the November price hike and April implementation of an electricity tariff increase of between 12.72 and 12.74%

have many citizens buckling under the ever-increasing financial pressure.

Additionally, an article published by *Business Tech* shared the views of

Professor Ines Meyer from the University of Cape Town, who estimated that the minimum survivable salary is R15 000, significantly higher than the R4 633.44 minimum wage.

Struggling to make ends meet, citizens, including Zululanders, have taken their Black Friday pleas to social media, hopeful that retailers will consider their suggestions before announcing this year's deals.

Zululanders shared their thoughts when asked: "With Black Friday around the corner, many consumers are calling for the prices of groceries and other essentials to be slashed to help off-set the high cost of living. What are your thoughts?"

## Consumers call for Black Friday food and grocery price slash

There will be more people who won't be able to fill up their cars than there will be benefitting from this deal. Imagine how many people would fill up their cars. Imagine the long queues at the fuel stations, waiting for hours just to find out they are out of fuel. That would be terrible but an amazing idea. We are going away inland in December, so I would take a few 20L drums to fill up with diesel

- Juan-Pierre Dicks

Six shopping bags three days ago cost R2 300 and I hardly bought any luxury items!

- Gert Engelbrecht

Food Item	January 2022 price	September 2024 price
Full cream milk (2 litre)	R29.89	R35.98
White bread loaf	R15.47	R18.88
Eggs (18 pack)	R50.46	R69.36
Rice (1 kg)	R24.28	R33.49
Potatoes (per kg)	R14.18	R21.56
Tomatoes (per kg)	R24.76	R28.19
White sugar (2.5 kg)	R46.38	R64.94
Maize Meal (per 2.5kg)	R26.65	R38.93
Onions (per kg)	R15.25	R23.12
Peanut butter (per 400g)	R34.64	R46.62
Tea (Ceylon/Black)	R32.62	R59.29
Tea (Rooibos)	R41.23	R53.01
Whole chicken (per kg)	R58.98	R64.99
Beef mince (per kg)	R96.41	R101.46
Instant coffee (250g)	R39.91	R68.41
Spaghetti (500g)	R17.27	R19.59
Macaroni (500g)	R15.59	R18.30
Bananas (per kg)	R17.98	R17.62
Chocolate slab (80g)	R16.18	R23.52
Sanitary pads (per pack)	R22.72	R28.45

Food prices from 2022 to 2024

Praying for a miracle

- Bev Pellow

All we ask for is R20 for 10kg rice, maize meal, and meat just say R5/kg

- Roomz ZN

## Local youth have their say in council

Gaddafi Zulu

THE newly-elected leadership of the South African Youth Council (Sayco) in uMkhanyakude District seeks to develop young people in the region.

On Saturday, Sayco hosted its regional assembly in Hluhluwe where the new leadership, chaired by Menzi Qwabe, was elected.

Sayco provincial executive committee member Philani Nhlenyama was deployed to oversee the process and ensure challenges facing the youth - unemployment, poverty, inequality and skills shortages - are tackled.

Nhlenyama said it was resolved that a strategic approach would be employed to address issues, which in uMkhanyakude includes a failure to assist young people in the agricultural sector.

"There is a lot of arable land in uMkhanyakude and many young people

are involved in agricultural projects but there is no assistance to make it economically viable. We need to take the struggle to drive agrarian society reform, to say let us go back to our indigenous ways," said Nhlenyama.

He said it was noted that entities such as iSimangaliso Wetland Park and uMhlozinga Development Agency should also play significant roles in youth development, and that the council's newly-elected regional leadership should meet with the CEOs.

Additionally, there is a need for Council to build strong relations with the public sector, exposing youth to the services available at the various government departments.

"The private sector needs to be integrated with youth development in uMkhanyakude because they make profits through the residents of this district," said Nhlenyama.

## Last call for BOZ nominations

Nominations for the ZO's annual Best of Zululand Readers' Choice Awards close on Friday, 15 November.

This is your last chance to tell us which local companies you feel deserve recognition for stellar service.

If you are particularly impressed with the level of service rendered by certain local companies, this is the ideal platform to pay homage to them.

The Best of Zululand (BOZ) is a reader-driven survey that seeks and showcases Zululand's best companies

and organisations.

Readers can nominate their favourite local companies in a wide variety of categories, and in 2025 voting lines will open to the public to choose the best of the best.

Don't miss this chance to include your preferred companies in BOZ! Complete the nomination form (printed in today's ZO) or visit [www.citizen.co.za/zululand-observer/best-of-zululand-2024-2025-nominees/](http://www.citizen.co.za/zululand-observer/best-of-zululand-2024-2025-nominees/) before the end of the day on Friday, 15 November.

### TRANSNET NATIONAL PORTS AUTHORITY (TNPA): NOTIFICATION OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION SUBJECT TO A SCOPING AND ENVIRONMENTAL IMPACT REPORTING PROCESS AND A WATER USE LICENSE APPLICATION

Notice issued in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the Environmental Impact Assessment Regulations, 2014 (as amended) (EIA Regulations) published under Government Notice 326 and the National Water Act (Act No. 36 of 1998)

**DESCRIPTION AND LOCATION:** TNPA proposes the development of the Berth 605 and associated infrastructure located at the Port of Richards Bay (PoRB), uMhlatuze Local and the King Cetshwayo District Municipalities within the KwaZulu-Natal (KZN) Province. The project components include a new berth pocket and quay wall, dredging of the existing basin, an area designated for a container handling facility, a new access road, a new rail siding and provision of utilities including electricity, stormwater, water and sewerage. TNPA has appointed WSP Group Africa (Pty) Ltd (WSP) as the independent Environmental Assessment Practitioner (EAP) to undertake the application for Environmental Authorisation (EA) process.

**LEGISLATIVE CONTEXT:** Activities in Listing Notices 1, 2 and 3 published under the NEMA EIA Regulations in Government Notice Regulations 327, 325 and 324 are applicable, therefore the project requires an application for Environmental Authorisation (EA) subject to a Scoping and Environmental Impact Reporting (S&EIR) Process. The S&EIR process will follow the requirements listed in Section 21-23 and Appendix 2 and 3 of the EIA Regulations. The following activities are potentially applicable to the project.

Listing Notice	Activities	Applicability
1	12, 15, 19, 19a, 27, 30	These Listing Notice 1 activities are applicable due to the following: Located within 32m from potential watercourses (To be Confirmed). Development within the coastal public property. Constitutes dredging and infilling of more than 10 cubic metres from or into watercourses. Constitutes dredging and infilling of more than 10 cubic metres within estuaries. The clearance of between 1-19 hectares of indigenous vegetation. The potential removal of protected species.
2	12, 26	These Listing Notice 2 activities are applicable due to the following: Development of the new railway siding. Development of the Berth 605 within the estuary.
3	4, 12, 14	These Listing Notice 3 activities are applicable due to the following: Development of a road within a Critical Biodiversity Area (CBA) and the Estuarine Functional Zone (EFZ). Clearance of 300 square metres or more of indigenous vegetation within a CBA and EFZ. Development of structures and infrastructure within 32m from potential watercourses within a CBA and an EFZ

The project may also require a Water Use License Application (WULA) or General Authorisation (GA) in terms of Section 21 of the NWA:

Section 21 (c): Impeding or diverting the flow of water in a watercourse.

Section 21 (i): Altering the bed, banks, courses or characteristics of a watercourse.

Section 21 (j): Removing, discharging or disposing of water found underground if it is necessary for the efficient continuation of an activity or for the safety of the people.

**INVITATION TO REGISTER AS AN I&AP TO COMMENT:** Interested and Affected Parties (I&APs) are invited to register as stakeholders on the project. Registration and comment sheets as well as electronic copies of the background information document for the project are available for download at the link below.

**PUBLIC REVIEW PERIOD:** The Draft Scoping Report will be available for comment from 19 November 2024 to 13 January 2025 and can be accessed from the link and the public venues below during this period:

Venue	Address	Contact Details	Operating Hours
Richards Bay Public Library	Richards Bay Central, Richards Bay, 3900	Tel: 035 907 5840	Mon to Fri 9 am to 5 pm   Sat 8:30 am to 11:45 am
Aquadene Public Library	4 Via Ammannia, Aquadene, Richards Bay, 3900	Tel: 035 907 5579	Mon to Fri 9 am to 5 pm   Sat 8:00 am to 12:00 pm
WSP Website	<a href="https://www.wsp.com/en-za/services/public-documents">https://www.wsp.com/en-za/services/public-documents</a>	WSP Data-free Website	<a href="https://wsp-engage.com/">https://wsp-engage.com/</a>

WSP will be processing certain personal information about you as an I&AP for purposes of enabling your registration as an I&AP and for purposes of storing your details on our database if you consent for us to do so. WSP uses these details to contact you about other projects in the future. WSP will always process your personal information in accordance with the Protection of Personal Information Act 4 of 2013. You are entitled to exercise your rights as a data subject and let us know if you wish to be deregistered as an I&AP or if you no longer want your contact details to be included on our database.

### ISAZISO MAYELANA NEZINSIZA KUSEBENZA EZINOBUNGOZI OBUKHULU (MAJOR HAZARD INSTALLATION) EZIKWA-SAFAL STEEL (PTY) LTD

#### 1. Isingeniso

Lesi isaziso sabo bonke ababambe iqhaza esimayelana nezinsiza kusebenza ezinobungozi obukhulu i-Major Hazard Installation (MHI) enkampanini yakwa-Safal Steel. Loku kwenziwa ngokulandela umthetho wangonyaka wezi- 2022 ngaphansi kwesigaba sama-43 soMthetho Wezemphelo Nokuphepha Emsebenzini wangonyaka we-1993 (Umthetho wama- 85 wangonyaka we-1993) omayelana nezinsiza kusebenza ezinobungozi obukhulu futhi ngokuhambisana nezidingo zokuphepha komlilo njengoba kubekiwe nguMasipala waseThekwini.

#### 2. Imininingwane yendawo lapho kukhona izinsinza lezo

- Igama lenkapani lapho kukhona i-MHI. Safal Steel (Pty) Ltd, Old Main Road (R103), Cato Ridge, KwaZulu-Natal GPS- Coordinates: 29° 43' 46.82" S and 30° 36' 14.87" E
- Umuntu okumele kuxhunyanwe naye ne nombolo yakhe yocingo: Mtutuzeli Mnyaka: 082 370 0152 (Inhloko yoMnyango wezoku Sebenza oqokwe ngokwe sigaba se-16.2).
- I-Safal Steel iyakhigiza iphinde yakhe imikhigizo yensimbi, ikakhulukazi ngokukhethekile i- aluminium-zinc coated steel. Ngokukhethekile ngokukhigiza, i-Safal Steel isebenzisa izinto ezihlukahlukene ezidala umlilo, lezi zibandakanya i-Hydrogen, i-Nitrogen negesi i-Lower Pressure Gas (LPG) ukubasela amabhodwe noma imishini yokukhigiza. Udizili usetshenziselwa ukusiza izipheli mandla (generators) kanye nama- forklifts, i-Light Fuel Oil (LFO) isetshenziswa kubhayela.

#### 3. Imininingwane mayelana nobungozi

Kusetshenziswa kanje ngaphakathi enkampanini:

- Ukuphekwa kwe nsimbi ngelangabi eliphezulu kakhulu.
- Ukugcinwa kwegesi i-LPG eningi.
- Ukugcinwa kwe- hydrogen eningi.
- Ukugcinwa kuka dizili omningi ngaphakathi emathangini akhelwe ngaphandle.
- Ukugcinwa kwama futha (fuel oil) amaningi emathangini akhelwe ngaphandle.
- Ukugcinwa kwama khemikhali akhuculula upende emigqonyeni.

#### Nazi izinto ezikhona futhi ezibucayi kakhulu ngaphakathi enkampanini:

- Ukuketshezi olubilayo (BLEVE) olwandisa umusi ethangini eliqukethe igesi yohlobo lwe-LPG.
- Ukuketshezi olubilayo olwandisa umusi (BLEVE) kwi gesi yohlobo lwe-LPG ngenkathi iloli eliyithuthayo lingaphakathi.
- Ukuketshezi olubilayo olwandisa umusi (BLEVE) ethangini eliqukethe i-hydrogen.
- Ukuketshezi olubilayo olwandisa umusi emigqonyeni equkethe amakhemikhali akhuculula upende.
- Indawo egcina udizili uma ulethwa iloli.
- Indawo egcina amafutha (fuel oil) uma elethwa iloli.
- Indawo egcina amakhemikhali akhuculula upende.

#### 3.1 Ithebula elingezansi likhombisa uhlobo kanye nenani lwezinto eziyingozi ezigcinwe ngaphakathi emagcekeni ase-Safal Steel:

T1	Igama	Inombolo ye-United Nations Classification: Inombolo ye-Chemical Abstract Service:	Inombolo ye-South African National Standards 10228	Inani
1	Ithangi eliqukethe igesi (LPG -storage tank)	1075 68476-85-7	2.1	Amathangi amabili angamalitha ayizi- 90 000 ithangi ngalinye.
2	Ithangi lokugcina udizili (Diesel storage tank)	1202 68334-30-5	3	Amalitha ayizi-14 0000.
3	Ithangi eliqukethe i- Hydrogen (Hydrogen storage tank)	1049 1333-74-0	2.1	Amathani ayisi-7.
4	Ithangi eliqukethe amafutha (Fuel oil storage tank)	1202 68334-30-5	3	Amalitha ayizi-23 000.
5	Amakhemikhali akhuculula upende (Paint solvents (methyl ethyl ketone)	1193 78-93-3	3	Amalitha ayizi-75 000.
6	Ithangi eliqukethe uketshezi lwe- nitrogen (Liquid nitrogen storage tank)	1066 7727-37-9	2.2	Amathangi amane, lilinye lingama litha ayizi- 21 500.

#### 4. Inhloso yesaziso

- Ngokwazisa umphakathi, inkampani ihlose ukuqinisekisa ukuthi imiphakathi eyakhelene nendawo, kanye nabantu ngabanye bayaziswa ngobungozi obungase bube khona, nokuzokwenza ukuthi bakwazi ukuthatha izinyathelo zokuzivikela uma kwenzeka kuba nesidingo. Le saiziso siyindlela yokuxhumana evulelekile, eqinisekisa ukuthi inkampani ibeka phambili ezokuphepha emphakathini futhi ithatha izinyathelo zokuqapha nokukulawula noma yiziphi izingozi ezingase zibe khona.

#### 5. Izinyathelo zokuphepha: E-Safal Steel siqinisekisa ukuthi sihambisana ngokugcwele nemigomo elawula ukuphepha emililweni (Fire Safety) ngokulandela umthetho omayenala nezinsiza kusebenza ezinobungozi obukhulu (i-Major Hazard Installations) wangonyaka wezi-2022.

- Izihlonzamililo (fire detectors) ezixhumene ne-alamu ekhalayo nathwebula isithombe zifakwe kuzo zonke izindawo lapho kugcinwe khona amagesi kanye noketshezi oludala umlilo.
- Akhona amanzi okucisha umlilo lapho kukhona amathangi aqukethe igesi yohlobo lwe-LPG.
- Kukhona okokucisha umlilo lapho kubekwe khona imigqomo enamakhemikhali akhuculula upende.
- Amanzi okucima umlilo akhona ngaphakathi enkampanini (angama-100 000 zamalitha edamini kanye namalitha ayizi-10 000 ethangini eligcina amanzi) ukwengeza kulawo ahlinzekwa umasipala.
- Amapayipi adonsa amanzi phansi okucisha umlilo (ama- fire hydrants) akhona emathangini amanzi, kanjalo nalapho kulayishela khona amaloli.
- Ikhemikhali eyimpuphu (i-dry chemical powder) noma izicishamililo ze-carbon dioxide (ezingama- 9 kg) ziyatholakala kuyo yonke indawo ngaphakathi enkampanini.
- Amapayipi okucisha umlilo akhona ndawo zonke lapho kukhona igesi yohlobo lwe- LPG ngaphakathi enkampanini.
- I-Safal Steel inethimba eliqeqeshiwe lokubhekana nezimo eziphuthumayo futhi lenza izivivinyo zokuphepha zokubhekana nezimo eziphuthumayo njalo ukulungiselela noma yisiphi isimo esiphuthumayo esingase sivele.

#### 6. Iqhaza elingabanjwa umphakathi

- Umpahakathi ungakulwa kwemibhalo emayelana nobungozi obukhulu obukhona (i-Major Hazardous Risk assessment) e-Safal kanye nohlelo olukhona lokubhekana nezimo eziphuthumayo (i-Emergency Response). Izinsuku zokubuka lemibhalo zimi kanje:
  - Usuku:** 25-27 KuLwezi (Novemba) 2024
  - Isikhathi:** 14h00pm -16h00pm
  - Indawo:** Old Main Road (R103), Cato Ridge, KwaZulu-Natal
- I-Safal Steel izoqhubeka nokuxhumana nabo bonke ababambe iqhaza mayelana nokufakwa kwezinsiza kusebenza ezinobungozi obukhulu kuzo zonke izinkundla zokuxhumana.

## JOZINI LOCAL MUNICIPALITY

### NOTICE OF INTENTION TO AWARD

Notice is hereby given to all bidders in terms of Regulation 49 of the Local Government Municipal Finance Management Act Supply Chain Management Regulation that Jozini Local Municipality intends to award as follows:

PROJECT NAME: PANEL OF PLANNING PROFESSIONALS (BUILT ENVIRONMENT) FOR THE PERIOD OF 36 MONTHS AS AND WHEN REQUIRED. JMC001/2024/25	
1. Letsopa Consulting Engineers	15. Buchule Engineers (Pty) Ltd
2. SRSQS Quantity Surveyors (Pty) Ltd	16. Pholela Business Advisory ((Pty) Ltd
3. Tshani Consulting Cc	17. Katumelo Holding (Pty) Ltd
4. LDM Quantity DBN (Pty) Ltd	18. Delta Built Environment Consulting (Pty) Ltd
5. Elmon Consulting (Pty) Ltd	19. Complete Lungelo Lami t/a Ilungelo Lami
6. MVE Consulting Engineers	20. MNT Geomatics Professional and Surveyors
7. Bhosibho Development Projects CC	21. Asande Projects Consulting & Engineering
8. Fezeka Business Services	22. ACCRA Group
9. Ubuhlebesu Projects	23. ML Industries (Pty) Ltd t/a Inguquko Development Planning
10. Nkanivo Development Consulting	24. Iqhaya Design Workshop and Projects.
11. TPS Development Projects	25. Undasa Project Partners (Pty) Ltd
12. Etliweni Pioneering Evolution	26. Mnguni Designs
13. Dlamindlovu Consulting Engineering & Project Managers	27. Isibuko Development Planners
14. Mabalengwe Engineers (Pty) Ltd	

**NB: This award is subject to no appeal being lodge within 14 days from date of this advertisement.**

The unsuccessful Bidders may appeal the decision by giving written notice of appeal and reasons to the Municipal Manager within **14 days** of appeal.

Contact e-mails: BMpontshane@jozini.gov.za and cc tmasinga@jozini.gov.za

## iTRANSNET EYENGAMELA AMACHEBA KA-ZWELONKE (I-TRANSNET NATIONAL PORTS AUTHORITY [TNPA]): ISAZISO NGESICELO SOKUGUNYAZWA NGOKWEZEMVELO UKUHFLELA NOKUBHEKA UMTHELELA WEZEMVELO KANYE NESICELO SELAYISENSE YOKUSEBENZISA AMANZI.

Isaziso esikhishwe ngokoMthetho Wokuphathwa Kwemvelo Kazwelonke (National Environment Management Act - NEMA) (No. 107 we-1998) kanye Nemithethonqubo Yokuhlola Umthelela Wezemvelo (Environmental Impact Assessment Regulations-EIA), 2014 (njengoba ichithshyelwe) (Imithetho ye-EIA) eshicilelwe ngaphansi kweSaziso Sikahulumeni 326 kanye noMthetho Wamanzi Kazwelonke (National Water Act) (uMthetho No. 36 we-1998)

**INCAZELO NENDAWO:** I-TNPA ihlangoza ukuthuthukiswa kwe-Berth 605 kanye nengqalasizinda ehlobene nayo etholakala echwebeni lase-Richards Bay (PoRB), uMhlathuze Local kanye noMasipala besiFunda i-King Cetshwayo esiFundazweni saKwaZulu-Natali (KZN). Izinxenye zephrojekthi zihlanganisa indawo entsha lapho imkhumbi iboshelwa khona kanye nodonga olubambayo olwakhiwe ngasogwini oluvumela imikhumbi ukuthi imise futhi yamukele noma ikhiphe izimpahla kanye nokumbiwa kabusha komcengezi okhona, indawo ehlelelwe amakhonteyina, umgwaqo omusha okungenwa kuwo, uhlangothi olusha lukajantshi kanye nokuhlinzekwa kwezinsiza ezihlanganisa ugesi, amapayimpi akhipha amanzi, amanzi kanye nokuthuthwa kwendle. I-TNPA iqoke i-WSP Group Africa (Pty) Ltd (WSP) njengoMsebenzi Ohlola Imvelo ozimele (Environmental Assessment Practitioner-EAP) ukuba enze isicelo senqubo yokugunyazwa ngokwezemvelo (Environmental Authorisation-EA).

**NGOKWEZOMTHETHO:** Imisebenzi Esezazisweni Zohlu luka1, lwesi 2 nolwesi-3 ezishicilelwe ngaphansi Kwemithethonqubo ye-NEMA EIA kwimithethonqubo Yezaziso Zikahulumeni-(Government Notice Regulations) 327, 325 kanye no-324 izosebenza, ngakho-ke iphrojekthi idinga isicelo Sokugunyazwa Kwezemvelo (EA) ngaphansi kwenqubo yokuqoqa nokuhlaziya ulwazi ukuze kutholwe ububanzi kanye Nokubika Ngomthelela Wezemvelo (S&EIR). Inqubo ye-S&EIR izolandela izidingo ezisohlwini lweSigaba sama-21-23 kanye neSithasiselo sesi-2 nesesi-3 seMithetho ye-EIA. Imisebenzi elandelayo kungenzeka yeziwe kuphrojekthi.

Ukweza Uhlu Lwezaziso	Imisebenzi	Ukusebenza
1	12, 15, 19a, 27, 30	Le misebenzi yeSaziso Sohlu loku-1 iyasebenza ngenxa yalokhu okulandelayo: Itholakala phakathi kwamamitha anga-32 ukusuka emanzini okungenzeka akhona (Kusazozinisekiswa). Ukuthuthukiswa kwendawo yomphakathi esogwini. Kuhlangukiswa ukumba kanye nokugcwalisa ngamamitha angamakhubhiki angaphezu kwa-10 (>10 cubic metres) ukusuka emanzini. Kuhlangukiswa ukumba kanye nokugcwalisa ngamamitha angamakhubhiki angaphezu kwa-10 (>10 cubic metres) ngaphakathi kwezizalo zemifula Ukususwa amahlekha ayi-1-19 ezimila zendabuko. Ukususwa okungenzeka kwezinhlolo zezilwane nezimila ezivikelwe.
2	12, 26	Le misebenzi yeSaziso Sohlu loku-2 iyasebenza ngenxa yalokhu okulandelayo: Ukwakhiwa kukajantshi omusha Ukuthuthukiswa kwe-Berth 605 ngaphakathi komfula.
3	4, 12, 14	Le misebenzi yeSaziso Sohlu loku-3 iyasebenza ngenxa yalokhu okulandelayo: Ukuthuthukiswa komgwaqo ongaphakathi kwendawo yazo yezinhlobonhlobo zezinto eziphilayo nokusebenzisana kwazo-(Critical Biodiversity Area-CBA) kanye nechibi lamanzi lapho umfula uhlangana nolwandle khona (Estuarine Functional Zone-EFZ). Ukususwa kwamamitha-skwele angama-300 noma ngaphezulu ezimila zendabuko ngaphakathi kwe-CBA ne-EFZ. Ukuthuthukiswa kwezakhiwo nengqalasizinda phakathi kwamamitha anga-32 ukusuka emanzini okungenzekak akhona ngaphakathi kwe-CBA kanye ne-EFZ.

Iphrojekthi ingase futhi idinge Isicelo Selayisensi Yokusebenzisa Amanzi (Water Use License Application-WULA) noma Ukugunyazwa Okujwayelekile (General Authorisation-GA) ngokweSigaba 21 se-NWA. Isigaba 21 (c): Ukuvimbela noma ukuphambukisa ukugeleza kwamanzi emseleni wamanzi. Isigaba 21 (j): Ukushintsha kosebe noma uqeqema, ukugeleza noma izici zomfula. Isigaba 21 (i): Ukukhipha, ukuchithwa noma ukuchithwa kwamanzi atholakala ngaphansi komhlaba uma kunesidingo sokuqhubeka kahle komsebenzi noma ukuphepha kwabantu.

**ISIMEMO SOKUBHALISA NJENGEJAP UKUZE UBEKE UMBONO:** Abantu Abanesithakaselo Nabathintekayo (I&APs) bayamnywa ukuba babhalise njengababambe iqhaza kulo msebenzi. Amaphepha okubhalisa nawokuphawula, namakhophi atholakala ngezobuchwepheshe emibhalo yolwazi oluyisisekelo ngephrojekthi ayatholakala ukuba alandwe kulesi sixhumanisi esingezansi.

**ISIKHATHI SOMPHAKATHI SOKUBUYEKEZA:** Umbiko Osalungiswa Wokuhlela uzotholakala ukuze kuphawulwe ngawo kusukela mhla ziyi-19 kuLwezi wezi-2024 kuya zingama-13 kuMasingana 2025 futhi ungafinyelelwa kusixhumanisi nasezindaweni zomphakathi ezingezansi ngalesi sikhathi:

Indawo	Ikheli	Iminingwane yokuxhumana	Operating Hours
Umtapo Wolwazi womphakathi-Richards Bay Public Library	Phakathi nedolobha-Richards Bay Central, Richards Bay, 3900	Ucingo: 035 907 5840	Kusukela KuMsombuluko kuya kuLwesihlanungo 9 ekuseni kuya ku 5 ntabama   ngoMgqibelo kugamenxe elisi-8 kuya ku 11:45
Umtapo lwazi was Aquadene- Aquadene Public Library	4 Via Ammannia, Aquadene, Richards Bay, 3900	Ucingo: 035 907 5579	Kusukela KuMsombuluko kuya kuLwesihlanu ngo 9 ekuseni kuya ku 5 ntabama   ngoMgqibelo kugamenxe elisi-8 kuya ku 12:00
Isizindalwazi se-WSP	<a href="https://www.wsp.com/en-za/services/public-documents">https://www.wsp.com/en-za/services/public-documents</a>	Isizindalwazi esingadingi idatha se-WSP	<a href="https://wsp-engage.com/">https://wsp-engage.com/</a>

I-WSP izocubungula ulwazi oluthile lomuntu siqu olumayelana naye njenge-I&AP ngezinyongo zokwenza ukubhalisa kwakho njenge-I&AP kanyenezinyongo zokugcina imininingwane yakho kusizindalwazi sethu uma uvuma ukuba senze kanjalo. I-WSP isebenzisa le mininingwane ukuze ixhumane naye mayelana namanye amaphrojekthi esikhathini esizayo. I-WSP izohlala icubungula ulwazi lwakho lomuntu siqu ngokuhambisana noMthetho Wokuvikela Ulwazi Lomuntu Siqu 4 wezi-2013 (Protection of Personal Information Act 4 of 2013). Unelungelo lokusebenzisa amalungelo akho njengomnikazi wolwazi futhi usazise uma ufisa ukusulwa ekubhaliseni njenge-I&AP noma uma ungasafuni imininingwane yakho yokuxhumana ifakwe kusizindalwazi sethu.

**UKUTHOLA OLUNYE ULWAZI, SICELA UTHINTE:** Public Participation Office; WSP Group Africa (Pty) Ltd; PO Box 6001, Halfway House, 1685; Tel: 011 254 4800; Fax: 086 582 1561, Imeyili: [gld.pp@wsp.com](mailto:gld.pp@wsp.com)

## uMSINGA MUNICIPALITY INVITATION TO TENDER

Bids are hereby invited in terms of Section 18(a) of the Msinga Municipality's Supply Chain Management Policy together with Section 83 of the Municipal Systems Act, No. 32 of 2000, as amended and read together with Sections 110, 111 and 112 of the Municipal Finance Management Act No. 56 of 2003 for:

### ADVERT FOR ACCREDITED SERVICE PROVIDER TO PROVIDE BRICKLAYING AND SEWING TRAINING

Description of Tender	Duration	Tender Number	Documents Availability Date	Date, Time and place for compulsory briefing	Document Price	Closing Date and Time
BRICKLAYING TRAINING .	6 Months	MS/2024/ 2025/061/ 951/T	No tender documents only TOR from Municipal website: <a href="http://www.umsinga.gov.za">www.umsinga.gov.za</a>	21 November 2024 at 10h00am at Municipal Offices.	None	29 November 2024 at 12h00pm.
SEWING TRAINING.	6 Months	MS/2024/ 2025/062/ 951/T	NO Tender Documents only TOR from Municipal website: <a href="http://www.umsinga.gov.za">www.umsinga.gov.za</a>	21 November 2024 at 10h00am at Municipal Offices.	None	29 November 2024 at 12h00pm.

**Tender documents will be obtainable from:** The office of SCM Unit, Mr S. Nkala, on tel: (033) 493 8033 during office hours.

**All enquiries shall be directed to:** Ms. B. Ndlovu, PMU Manager, on tel: (033) 493 8041 during office hours, 07h30 to 15h30 Monday to Friday.

**Tenders must be enclosed in a sealed envelope, addressed to:** The Municipal Manager, uMsinga Municipality and clearly marked: **TENDER NUMBER AND DESCRIPTION OF TENDER** and the **BIDDERS NAME AND DETAILS**. Tenders must be deposited in the tender box at the office of **uMsinga Municipality on the Main Road (R33) opposite MPCC, Tugela Ferry on or before 12h00** on the closing date and no late or faxed tenders will be considered.

**1. EVALUATION CRITERIA** a) Administrative Compliance. b) Functionality. c) PPPFA 2022 80/20, ownership specific goals set as follows:

- Race (Black People – CSD Copy) 05 Points
- Gender (Black women – CSD Copy) 10 Points
- Enterprises located in Umzinyathi District area 05 Points

#### A) ADMINISTRATIVE COMPLIANCE.

**1. Invalid or non-submission of the following documents will lead to immediate disqualification.**

- Obtaining 80 points on functionality • Attached Valid SARS PIN • Attached Fully CSD Report • Completed form of offer • Proof of attended the briefing meeting • Fully completed MBD Forms • Completed, signed and initial each page of tender offer • Attach proof of company registration • Proof of relevant Professional Body registration Accredited by SETA/SAQA • Municipal rates statement or affidavit for business operating in rural areas • Valid letter of good standing.

*uMsinga Municipality does not bind itself to accept the lowest of any tender and reserves the right to accept the whole or any part of the tender.*

**MR S.L. SOKHELA: MUNICIPAL MANAGER**

## EMAIL NOTIFICATION

**From:** ZA - GLD - PPOffice  
**Sent:** Monday, 18 November 2024 16:08  
**Subject:** 43102871 - DEVELOPMENT OF BERTH 605 AND ASSOCIATED INFRASTRUCTURE IN SUPPORT OF THE CONTAINER HANDLING FACILITY AT THE PORT OF RICHARDS BAY – NOTIFICATION OF THE PROJECT AND THE SCOPING AND ENVIRONMENTAL IMPACT REPORTING PROCESS  
**Attachments:** Berth 605 Comment Sheet.pdf; Berth 605 Notification of EA Process and Draft Scoping Report.pdf

Dear Stakeholder,

WSP Group Africa (Pty) Ltd (WSP) has been appointed by Transnet National Ports Authority (TNPA) for the provision of feasibility studies for the development of Berth 605 and associated infrastructure in support of a Container Handling Facility and associated infrastructure located within the Port of Richards Bay (PoRB), KwaZulu-Natal Province. As part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

### PROJECT DESCRIPTION

The TNPA functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035. The Berth 605 project is reflected in the PDFP and the PoRB Master Plan, 2021-2035 and forms part of the Bayvue Precinct development.

The application for Environmental Authorisation (EA) has been submitted to the Department of Forestry, Fisheries and the Environment and the Draft Scoping Report has been released for a 30 day comment period.

For further information please refer to the attached letter.

Kind regards,

### Public Participation Office

18 November 2024

Dear Stakeholder,

**DEVELOPMENT OF BERTH 605 AND ASSOCIATED INFRASTRUCTURE IN SUPPORT OF THE CONTAINER HANDLING FACILITY AT THE PORT OF RICHARDS BAY – NOTIFICATION OF THE PROJECT AND THE SCOPING AND ENVIRONMENTAL IMPACT REPORTING PROCESS**

WSP Group Africa (Pty) Ltd (WSP) has been appointed by Transnet National Ports Authority (TNPA) for the provision of feasibility studies for the development of Berth 605 and associated infrastructure in support of a Container Handling Facility and associated infrastructure located within the Port of Richards Bay (PoRB), KwaZulu-Natal Province. As part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

This letter serves to:

- Provide a summary of the proposed project;
- Provide details of the S&EIR process;
- Provide stakeholders with the opportunity to register as an Interested and Affected Party (I&AP); and
- Provide the details of the comment period of the Draft Scoping Report (DSR).

**PROJECT DESCRIPTION**

The TNPA functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035.

The Berth 605 project is reflected in the PDFP and the PoRB Master Plan, 2021-2035 and forms part of the Bayvue Precinct.

The following structures, infrastructure and activities are deemed necessary to achieve the overall objective of the project:

- New berth pocket and quay wall
- End of berth basin slopes
- Dredging and dredge disposal
- New rail siding
- New access road
- Footprint of the Container Handling Facility (CHF) and apron area
- Provision of electrical supply to feed the facility operations and equipment
- Water supply

- Sewerage
- Stormwater management
- Provision for temporary laydown and stockpile areas

Further project details are provided in the DSR.

## **THE S&EIR PROCESS**

The regulations outlining the procedures required for authorisation are published in GNR 326 [2014 Environmental Impact Assessment Regulations (EIA)] (as amended) (EIA Regulations). Listing Notice 1 identifies activities that require a Basic Assessment (BA) process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity. Listing Notice 2 identifies activities that require an S&EIR process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity. Listing Notice 3 identifies activities within specific areas that require a BA process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity.

WSP undertook a legal review of the listed activities according to the proposed project description to conclude that the activities listed in this section are considered applicable to the development: A S&EIR process must be followed. The Department of Forestry, Fisheries and the Environment (DFFE) is the Competent Authority who will issue the decision on whether or not an Environmental Authorisation (EA) will be granted.

The S&EIR process consists of various phases with associated timelines as defined in the EIA Regulations. The process can generally be divided into four main phases, namely;

- (i) an unregulated pre-application phase;
- (ii) an Application and Scoping Phase (current phase);
- (iii) an Impact Assessment Phase; and
- (iv) Authorisation and Appeal Phase.

## **WATER USE LICENSE APPLICATION (WULA)**

The project may also require a WULA or General Authorisation (GA) in terms of Section 21 of the National Water Act (36 of 1998):

Section 21 (c): Impeding or diverting the flow of water in a watercourse.

Section 21 (i): Altering the bed, banks, courses or characteristics of a watercourse.

Section 21 (j): Removing, discharging or disposing of water found underground if it is necessary of the efficient continuation of an activity or for the safety of the people.

Specialist studies are currently being conducted to confirm the presence of wetlands within the regulated area.

## **INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY (I&AP)**

Stakeholders are invited to register as I&APs for the S&EIR process. Registration and comment sheets as well as electronic copies of project related documentation for the project are available for download at the link below. Stakeholders can also register by sending a written request to the contact person listed overleaf.

## PUBLIC REVIEW OF THE DRAFT SCOPING REPORT (DSR)

The DSR will be available for comment for a 30-day period from **19 November 2024 to 13 January 2025** (this excludes the period from 14 December 2024 to 5 January 2025) and can be accessed from the link and the public venues below during this period:

Dear Stakeholder,

**DEVELOPMENT OF BERTH 605 AND ASSOCIATED INFRASTRUCTURE IN SUPPORT OF THE CONTAINER HANDLING FACILITY AT THE PORT OF RICHARDS BAY – NOTIFICATION OF THE PROJECT AND THE SCOPING AND ENVIRONMENTAL IMPACT REPORTING PROCESS**

WSP Group Africa (Pty) Ltd (WSP) has been appointed by Transnet National Ports Authority (TNPA) for the provision of feasibility studies for the development of Berth 605 and associated infrastructure in support of a Container Handling Facility and associated infrastructure located within the Port of Richards Bay (PoRB), KwaZulu-Natal Province. As part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

This letter serves to:

- Provide a summary of the proposed project;
- Provide details of the S&EIR process;
- Provide stakeholders with the opportunity to register as an Interested and Affected Party (I&AP); and
- Provide the details of the comment period of the Draft Scoping Report (DSR).

**PROJECT DESCRIPTION**

The TNPA functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035.

The Berth 605 project is reflected in the PDFP and the PoRB Master Plan, 2021-2035 and forms part of the Bayvue Precinct.

The following structures, infrastructure and activities are deemed necessary to achieve the overall objective of the project:

- New berth pocket and quay wall
- End of berth basin slopes
- Dredging and dredge disposal
- New rail siding
- New access road
- Footprint of the Container Handling Facility (CHF) and apron area
- Provision of electrical supply to feed the facility operations and equipment
- Water supply

- Sewerage
- Stormwater management
- Provision for temporary laydown and stockpile areas

Further project details are provided in the DSR.

## **THE S&EIR PROCESS**

The regulations outlining the procedures required for authorisation are published in GNR 326 [2014 Environmental Impact Assessment Regulations (EIA)] (as amended) (EIA Regulations). Listing Notice 1 identifies activities that require a Basic Assessment (BA) process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity. Listing Notice 2 identifies activities that require an S&EIR process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity. Listing Notice 3 identifies activities within specific areas that require a BA process to be undertaken, in terms of the EIA Regulations, prior to commencement of that activity.

WSP undertook a legal review of the listed activities according to the proposed project description to conclude that the activities listed in this section are considered applicable to the development: A S&EIR process must be followed. The Department of Forestry, Fisheries and the Environment (DFFE) is the Competent Authority who will issue the decision on whether or not an Environmental Authorisation (EA) will be granted.

The S&EIR process consists of various phases with associated timelines as defined in the EIA Regulations. The process can generally be divided into four main phases, namely;

- (i) an unregulated pre-application phase;
- (ii) an Application and Scoping Phase (current phase);
- (iii) an Impact Assessment Phase; and
- (iv) Authorisation and Appeal Phase.

## **WATER USE LICENSE APPLICATION (WULA)**

The project may also require a WULA or General Authorisation (GA) in terms of Section 21 of the National Water Act (36 of 1998):

Section 21 (c): Impeding or diverting the flow of water in a watercourse.

Section 21 (i): Altering the bed, banks, courses or characteristics of a watercourse.

Section 21 (j): Removing, discharging or disposing of water found underground if it is necessary of the efficient continuation of an activity or for the safety of the people.

Specialist studies are currently being conducted to confirm the presence of wetlands within the regulated area.

## **INVITATION TO REGISTER AS AN INTERESTED AND AFFECTED PARTY (I&AP)**

Stakeholders are invited to register as I&APs for the S&EIR process. Registration and comment sheets as well as electronic copies of project related documentation for the project are available for download at the link below. Stakeholders can also register by sending a written request to the contact person listed overleaf.

## PUBLIC REVIEW OF THE DRAFT SCOPING REPORT (DSR)

The DSR will be available for comment for a 30-day period from **19 November 2024 to 13 January 2025** (this excludes the period from 14 December 2024 to 5 January 2025) and can be accessed from the link and the public venues below during this period:

Venue	Address	Contact Details	
<b>Richards Bay Public Library</b>	Richards Bay Central, Richards Bay, 3900	Tel: 035 907 5840	Mon to Fri 9 am to 5 pm   Sat 8:30 am to 11:45 pm (closed on public holidays and from 27 December 2024 to 5 January 2025).
<b>Aquadene Public Library</b>	4 Via Ammannia, Aquadene, Richards Bay, 3900	Tel: 035 907 5579	Mon to Fri 9 am to 5 pm   Sat 8:00 am to 12:00 pm (closed on public holidays and from 27 December 2024 to 5 January 2025).

## COMMENT(S)

You are welcome to use additional pages should you so wish to do so.

I have the following comments to make regarding the project:

I started my business in 2008 as Logistics but never get any opportunities to start as logistics (road freight) due to the fact that I do not have start up capital and no contract that I am getting. I have qualification in this field and an experience from Rio Tinto (RBM) in inbound & outbound logistics. When the project is kicking off can I be considered as a local business from Mambuka Tribal Authority in the area of my birth.

Please ask the following of my colleagues / friends to register as Interested and Affected Parties:

NAME	CONTACT DETAILS
Patrick Sibusiso	
Mzikayise Mthombeni	

### PLEASE RETURN THE REGISTRATION AND COMMENT SHEET TO:

**Subject:** 43102871 - DEVELOPMENT OF BERTH 605 AND ASSOCIATED INFRASTRUCTURE IN SUPPORT OF THE CONTAINER HANDLING FACILITY AT THE PORT OF RICHARDS BAY – NOTIFICATION OF THE PROJECT AND THE SCOPING AND ENVIRONMENTAL IMPACT REPORTING PROCESS

Some people who received this message don't often get email from [gld.pp@wsp.com](mailto:gld.pp@wsp.com). [Learn why this is important](#)

Dear Stakeholder,

WSP Group Africa (Pty) Ltd (WSP) has been appointed by Transnet National Ports Authority (TNPA) for the provision of feasibility studies for the development of Berth 605 and associated infrastructure in support of a Container Handling Facility and associated infrastructure located within the Port of Richards Bay (PoRB), KwaZulu-Natal Province. As part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

#### **PROJECT DESCRIPTION**

The TNPA functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035. The Berth 605 project is reflected in the PDFP and the PoRB Master Plan, 2021-2035 and forms part of the Bayvue Precinct development.

The application for Environmental Authorisation (EA) has been submitted to the Department of Forestry, Fisheries and the Environment and the Draft Scoping Report has been released for a 30 day comment period.

For further information please refer to the attached letter.

Kind regards,

Dear Stakeholder,

WSP Group Africa (Pty) Ltd (WSP) has been appointed by Transnet National Ports Authority (TNPA) for the provision of feasibility studies for the development of Berth 605 and associated infrastructure in support of a Container Handling Facility and associated infrastructure located within the Port of Richards Bay (PoRB), KwaZulu-Natal Province. As part of the overall appointment, WSP has been commissioned to undertake the Scoping and Environmental Impact Reporting (S&EIR) process as the independent Environmental Assessment Practitioner (EAP).

## PROJECT DESCRIPTION

The TNPA functions in terms of the National Ports Act (No.12 of 2005) in which TNPA is responsible for the provision of port services and facilities within all ports of South Africa. In its role as the master planner, the TNPA also plans to improve, develop and maintain port infrastructure. Various development opportunities were identified by TNPA across three precincts namely South Dunes, Newark and Bayvue and are reflected in the Port Development Framework Plan (PDFP) and the Port of Richards Bay Master Plan 2021 – 2035. The Berth 605 project is reflected in the PDFP and the PoRB Master Plan, 2021-2035 and forms part of the Bayvue Precinct development.

The application for Environmental Authorisation (EA) has been submitted to the Department of Forestry, Fisheries and the Environment and the Draft Scoping Report has been released for a 30 day comment period.

For further information please refer to the attached letter.

### PER MAIL / E-MAIL.

Dear Ms Nathaniel

### COMMENTS ON THE DRAFT SCOPING REPORTS FOR THE PROPOSED DEVELOPMENT OF NEW BERTH 605 AND ASSOCIATED INFRASTRUCTURE TO SUPPORT THE CONTAINER HANDLING FACILITY, PORT OF RICHARDS BAY, KWAZULU-NATAL PROVINCE.

The Application for Environmental Authorisation and Draft Scoping Report (SR) dated November and received by the Department on 18 November 2024 and acknowledged on 19 November 2024, refer.

This letter serves to inform you that the following information must be included to the final SR:

#### 1. Application form and Listed Activities

- a) The Application Form indicates that *"Infilling of wetlands potentially identified in the project area and will be confirmed during the specialist investigation"*. It is further noted that there is use of the words *"may, potentially, etc"*, when describing the project activity that triggers the listed activities applied for. Please ensure that you refrain from using words such as, *"it is anticipated, potentially,"* etc. Listed Activities are not based on a precautionary approach. The EAP/Applicant must be certain why listed activities are being triggered to enable the competent authority to apply its mind to all the assessed listed activities during decision making. Only applicable listed activities must be applied for and the project description must be specific on what is being proposed in the final SR.
- b) Please ensure that the relevant listed activities are applied for, are specific and that it can be linked to the development activity or infrastructure as described in the project description. As such an amended application form must be submitted together with the final SR.

*wh*

**Batho pele-** putting people first

The processing of personal information by the Department of Forestry, Fisheries and the Environment is done lawfully and not excessive to the purpose of processing in compliance with the POPI Act, any codes of conduct issued by the Information Regulator in terms of the POPI Act and / or relevant legislation providing appropriate security safeguards for the processing of personal information of others.

- c) Please clarify and confirm the applicability of Listing notice 2, Activity 26. Also highlight sub-listings triggered by this activity. The SR must assess the correct sub-listed activity for each listed activity applied for and include thresholds. Will the proposed development increase the development footprint of the port or harbour?
- d) Please ensure that the relevant listed activities are applied for, are specific and can be linked to the development activity or infrastructure as described in the project description. Please provide a full description of how the listed activity is triggered by the proposed development, including the threshold where necessary. Only activities applicable to the development must be applied for and assessed.
- e) Carefully consider the triggers for Listing notice 3 activities. Please ensure that the provincial department confirms that the systematic biodiversity plans/bioregional plan have been adopted by the competent authority and confirms the development is within these areas. This information must be included in the amended application form and final SR to be submitted.
- f) You are required to confirm whether systematic biodiversity plans or bioregional plans are adopted by the competent authority. There are certain activities in Listing Notice 3 that requires that Bioregional Plans to be adopted.
- g) If the activities applied for in the application form differ from those mentioned in the final SR, an amended application form must be submitted for final review and decision making. Please note that the Department's templates can be downloaded from the following link <https://www.dffe.gov.za/forms>.

## 2. Alternatives

- a) A description of the process followed to reach the preferred alternative within the site as per Appendix 2(1)(g) of the NEMA EIA Regulations 2014, as amended, must be incorporated into the final SR.
- b) Please note that Appendix 2(2)(1)(g)(x) of the NEMA EIA Regulations, 2014, as amended, requires that "if no alternatives, including alternative locations for the activity were investigated, the motivation for not considering such" must be included in the SR. You are therefore required to provide motivation should other alternative sites, routes, layouts, and technologies not be considered.
- c) Please ensure that through the description and assessment of alternatives in the final SR, the decision maker must be in a position to follow the argument as to which alternatives will be further evaluated and which alternatives were scoped out of the process. Apart from evaluating the impact of the proposed development against baseline conditions, a clear indication (**i.e. reasoned opinion**) must be provided by the Environmental Assessment Practitioner (EAP) on the sustainability of the proposed development and the preferred alternative.

## 3. Layout & Sensitivity Maps

- a) The final layout map must indicate the following (but not limited to the below):
  - The proposed development area.
  - Final position of all infrastructure e.g., new berth pocket and quay wall, dredging areas, dredge disposal areas, new rail siding, footprint of the Container Handling Facility (CHF) and apron area, access roads, etc.
  - Permanent laydown area footprint.
  - All supporting onsite infrastructure e.g., laydown areas, sewer network, storm water network, electrical infrastructure (existing and proposed).
  - All existing infrastructure on the site.
  - The location of sensitive environmental features on site e.g., CBAs, ESAs, visually sensitive areas, heritage sites, wetlands, drainage lines etc. that will be affected.
  - Buffer areas recommended by specialists; and
  - All "no-go" areas.

*wh*

- b) Please ensure that the above map has a clear legend that communicates with details of the map.
- c) The above map must be overlain with a sensitivity map and a cumulative map.
- d) Images and Google maps will not be accepted for decision-making purposes.
- e) It must be emphasised that the final EIAR must include **a final layout map** which adheres to specialist recommendations as well as the identified no-go areas and buffer zones.
- f) Include a description of the process to determine the finalised layout i.e. specialist considerations, site sensitivities etc.
- g) Please include a separate appendix which contains all relevant mapping information. Ensure that clear, legible maps of high resolution are provided.

**4. Specialist Assessments to be conducted in the EIA Phase**

- a) Specialist studies to be conducted must provide a detailed description of their methodology, as well as indicate the locations and descriptions of turbines, and all other associated infrastructures that they have assessed and are recommending for authorisations.
- b) The specialist studies must also provide a detailed description of all limitations to their studies. All specialist studies must be conducted in the right season and providing that as a limitation, will not be accepted.
- c) Should the appointed specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and where necessary, include further expert advice.
- d) It is further brought to your attention that Procedures for the Assessment and Minimum Criteria for Reporting on identified Environmental Themes in terms of Sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998, when applying for Environmental Authorisation, which were promulgated in Government Notice No. 320 of 20 March 2020 (i.e. "the Protocols"), and in Government Notice No. 1150 of 30 October 2020 (i.e. protocols for terrestrial plant and animal species), have come into effect. **Please note that specialist assessments must be conducted in accordance with these protocols. Please note further that the protocols require the specialists' to be registered with SACNASP in their respective field.**
- e) Please include a table in the report, summarising the specialist studies required by the Department's Screening Tool, a column indicating whether these studies were conducted or not, and a column with motivation for any studies not conducted. Please note that if any of the specialists' studies and requirements/protocols recommended in the Department's Screening Tool are not commissioned, motivation for such must be provided in the report per the requirements of the Protocols.
- f) The screening tool output:
  - The screening tool and the gazetted protocols (GN R320 of 20 March 2020 and GN R 1150 of 30 October 2020) require a site sensitivity verification to be completed to either confirm or dispute the findings and sensitivity ratings of the screening tool.
  - Site sensitivity verifications for all the identified specialist studies (according to the screening tool) must be provided.
  - It is the responsibility of the EAP to confirm the list of specialist assessments provided by the screening tool and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation. The site sensitivity verification for each of the recommended studies, as per the protocols, must be compiled and attached. If the findings of the site verification differed from the screening tool and was found to be of a different sensitivity level, then a compliance statement would be acceptable.

*wh*

- g) Should the appointed specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and where necessary, include further expert advice.
- h) It is the responsibility of the EAP to confirm the list of identified specialist studies and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation. The draft SR on page 141 of 152 states that *"The site is considered very high sensitivity due to the very high land capability rating. However, based on the location of the site within the port, the very high sensitivity is refuted. As such a specialist study will not be undertaken"*. In this regard, the site sensitivity verification report and a compliance statement for the Agricultural Theme is required in order to confirm the abovementioned statement. The site sensitivity verification for each of the recommended studies, as per the protocols, must be compiled and submitted together with the final SR.

*"An applicant intending to undertake an activity identified in the scope of this protocol, on a site identified on the screening tool as being of "very high sensitivity" for terrestrial biodiversity, must submit a Terrestrial Biodiversity Specialist Assessment."* If the findings of the site verification differed from the screening tool and was found to be of a different sensitivity level, then a compliance statement would be accepted.

## 5. **Public Participation Process**

- a) Please ensure that comments from all relevant stakeholders are submitted to the Department with the final SR. This includes but not limited to the Department of Forestry, Fisheries, and the Environment (DFFE): Biodiversity Planning and Conservation [REDACTED]; Provincial Departments, South African Heritage Resources Agency (SAHRA), DFFE: Oceans and Coast, DFFE: Water Sources and Wetlands Conservation Directorate [REDACTED] for attention Mr Stanley Tshitwamulomoni); Department of Water and Sanitation, as well as the affected district and local municipalities.
- b) Proof of correspondence with the various stakeholders must be included in the final SR. Should you be unable to obtain comments, proof must be submitted to the Department of the attempts that were made to obtain comments.
- c) The Public Participation Process must be conducted in terms of Regulations 39, 40, 41, 42, 43 & 44 of the NEMA EIA Regulations 2014, as amended.
- d) The comments and response trail report (C&R) must be submitted with the final SR and subsequent documentation. The C&R report must incorporate all comments for this development. The C&R report must be a separate document from the main report and the format must be in the table format as indicated in Annexure 1 of this comments letter. Where necessary, comment received for specific projects must be clearly depicted.
- e) Please ensure that all issues raised, and comments received during the circulation of the SR from registered I&APs and organs of state which have jurisdiction (including this Department's comments) in respect of the proposed activity are adequately addressed. Comments made by I&APs must be comprehensively captured (copy verbatim if required) and responded to clearly and fully. Please note that a response such as "Noted" is not regarded as an adequate response to I&AP's comments.

## 6. **Cumulative Assessment to be conducted in the EIA Phase**

Should there be any other similar projects within a 30km radius of the proposed development site, the cumulative impact assessment for all identified and assessed impacts must be refined to indicate the following:

*wh*

- Identified cumulative impacts must be clearly defined, and where possible the size of the identified impact must be quantified and indicated, i.e., hectares of cumulatively transformed land.
- Detailed process flow and proof must be provided, to indicate how the specialist's recommendations, mitigation measures and conclusions from the various similar developments in the area were taken into consideration in the assessment of cumulative impacts and when the conclusion and mitigation measures were drafted for this project.
- The cumulative impacts significance rating must also inform the need and desirability of the proposed development.
- A cumulative impact environmental statement on whether the proposed development must proceed.

**7. Environmental Management Programme (EMPr)**

- a. The EMPr must include the following:
  - You are required to comply with the content of the EMPr in terms of Appendix 4 of the Environmental Impact Assessment Regulations, 2014, as amended.
- b. The EMPr must consider the following, and where possible, include:
  - An alien invasive management plan to be implemented during construction and operation of the facility. The plan must include mitigation measures to reduce the invasion of alien species and ensure that the continuous monitoring and removal of alien species is undertaken.
  - A plant rescue and protection plan which allows for the maximum transplant of conservation important species from areas to be transformed. This plan must be compiled by a vegetation specialist familiar with the site and be implemented prior to commencement of the construction phase.
  - A re-vegetation and habitat rehabilitation plan to be implemented during the construction and operation of the facility. Restoration must be undertaken as soon as possible after completion of construction activities to reduce the amount of habitat converted at any one time and to speed up the recovery to natural habitats.
  - An open space management plan to be implemented during the construction and operation of the facility.
  - A transportation plan for the transport of components, main assembly cranes and other large pieces of equipment.
  - A storm water management plan to be implemented during the construction and operation of the facility. The plan must ensure compliance with applicable regulations and prevent off-site migration of contaminated storm water or increased soil erosion. The plan must include the construction of appropriate design measures that allow surface and subsurface movement of water along drainage lines so as not to impede natural surface and subsurface flows. Drainage measures must promote the dissipation of storm water run-off.
  - An erosion management plan for monitoring and rehabilitating erosion events associated with the facility. Appropriate erosion mitigation must form part of this plan to prevent and reduce the risk of any potential erosion.
  - An effective monitoring system to detect any leakage or spillage of all hazardous substances during their transportation, handling, use and storage. This must include precautionary measures to limit the possibility of oil and other toxic liquids from entering the soil or storm water systems.
  - Measures to protect hydrological features such as streams, rivers, pans, wetlands, dams and their catchments, and other environmental sensitive areas from construction impacts including the direct or indirect spillage of pollutants.
- c. The EAP must provide detailed motivation if any of the above requirements is not required by the proposed development and not included in the EMPr.

*wh*

**General**

The EAP is requested to contact the Department to make the necessary arrangements to conduct a site inspection prior to the submission of the final EIARs.

You are reminded to comply with Regulation 21(1) of the NEMA EIA Regulations 2014, as amended, which states that:

*"If S&EIR must be applied to an application, the applicant must, within 44 days of receipt of the application by the competent authority, submit to the competent authority a SR which has been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority"*

You are further reminded that the final SR to be submitted to this Department must comply with all the requirements in terms of the scope of assessment and content of SRs in accordance with Appendix 2 and Regulation 21(1) of the NEMA EIA Regulations 2014, as amended.

Further note that in terms of Regulation 45 of the NEMA EIA Regulations 2014, as amended, this application will lapse if the applicant fails to meet any of the timeframes prescribed in terms of these Regulations, unless an extension has been granted in terms of Regulation 3(7).

You are hereby reminded of Section 24F of the National Environmental Management Act, Act No. 107 of 1998, as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Yours sincerely

TO	ALL STAKEHOLDERS
FROM	DR SABELO MALAZA CHIEF DIRECTOR: INTEGRATED ENVIRONMENTAL AUTHORISATIONS
SUBJECT	TIMEFRAMES PRESCRIBED FOR ENVIRONMENTAL IMPACT ASSESSMENT, SECTION 24G AND INTEGRATED ENVIRONMENTAL AUTHORISATIONS DURING THE PERIOD INCLUDING 15 DECEMBER 2024 TO 05 JANUARY 2025
DATE OF LETTER	27 AUGUST 2024

## TO WHOM IT MAY CONCERN:

The Chief Directorate: Integrated Environmental Authorisations (CD:IEA) of the Department of Forestry, Fisheries and the Environment (DFFE) wishes to inform all stakeholders of the provision in the Environmental Impact Assessment (EIA) Regulations 2014, as amended, of the mandatory exclusion from 15 December to 05 January. Regulation 3(2) of the EIA Regulations, 2014 as amended, states that *"For any action contemplated in terms of these Regulations for which a timeframe is prescribed, the period of 15 December to 5 January must be excluded in the reckoning of days."*

Kindly be informed that the CD:IEA in the DFFE **will not be receiving** applications for Environmental Authorisations (EA) in terms of Chapter 4 of the EIA Regulations, 2014, as amended; applications for amendments to EA's and Environmental Management Programme in terms of Chapter 5 of the EIA Regulations, 2014, as amended; or any other application/approval required in terms of the Regulations during the period of **15 December 2024 until 05 January 2025**. The above also applies in terms of NEMA Section 24G applications.

Decisions/comments on applications and their associated notifications will also not be issued between 15 December 2024 and 05 January 2025.

Any timeframes associated with the public participation process must exclude the period 15 December 2024 to 05 January 2025. The timeframe of 30 days for all Interested and Affected Parties to comment on applications must also exclude this period. In accordance with Regulation 3(3) of the EIA Regulations, 2014 as amended, only in exceptional circumstances and if agreed to by the Department, may the applicant conduct any public participation during this period.

The following applies to the online system for receiving of EIA applications (OneDrive), as well as the EIA Applications mailbox:

- The mailbox and online system (OneDrive) will be closed from 16h00 on 14 December 2024 till 08h00 on 06 January 2025.
- Stakeholders will not be able to upload documents to the online system (OneDrive), during this period. The system will be closed, and no passwords will be issued.
- The mailbox will not process any emails during this period, and any emails sent during this period will only be considered on 06 January 2025.

- You are therefore requested to only submit emails after the closure period, to ensure that your requests are attended to accordingly. This will prevent emails/requests being unaccounted for during this period.

The CD: IEA of the DFFE will reopen for submission of applications and/or reports and will only consider emails on the EIA Applications mailbox from the 06 January 2025. All emails received after 16:00pm on the 14 of December 2024 and between the 15 December 2024 to 05 January 2025 will not be considered and will be deleted from the EIAApplications mailbox.

Yours faithfully

**Dr Sabelo Malaza**  
**Chief Director: Integrated Environmental Authorisations**  
**Department of Forestry, Fisheries and the Environment**  
Date: 14/10/2024

Dear Sir/Madam

**COMMENTS ON THE DRAFT SCOPING AND ENVIRONMENTAL IMPACT REPORT IN RELATION TO THE APPLICATION FOR THE DEVELOPMENT OF NEW BERTH 605 AND ASSOCIATED INFRASTRUCTURE TO SUPPORT THE CONTAINER HANDLING FACILITY, PORT OF RICHARDS BAY, KWAZULU-NATAL.**

The City of uMhlathuze has reviewed the draft Scoping and Environmental Impact Report, dated 19 November 2024, in respect of the above application. We accordingly submit the following comments:

**1. LAND USE MANAGEMENT**

- The site is zoned as Harbour and falls within the jurisdiction of the Port Authority, permitting such activities.
- Building Plans must be submitted to the Municipality for approval before the development of any new structures.

**2. AIR QUALITY MANAGEMENT**

The facility is required to ensure the following is monitored to determine impacts on the environment:

- Dust Fallout monitoring should be conducted in accordance with the National Dust Control Regulations, 2013.
- Sulphur Dioxide (SO<sub>2</sub>) as it can have detrimental effects on both human health and the environment.
- Volatile Organic Compounds (VOCs) due to their potential to contribute to air pollution and pose health risks.

**3. TRANSPORT PLANNING**

- The City of uMhlathuze notes that the access and new infrastructure will be within the Port area.
- The Traffic Impact Assessment (TIA) must detail the expected increase in trip generation and assess how the New Berth 605 will affect the external road network leading to and along the John Ross (R34).
- The New Berth 605 is projected to generate additional trips, generating external traffic. Transnet needs to improve the truck staging area on-site, as the current facility has limited capacity; and reliance on external truck stops is not always feasible.
- Trucks are prohibited from waiting along municipal, provincial, or national roads to enter the Port area.

*All correspondence must be addressed to the City Manager*

- There are concerns about managing container truck movements, similar to the concerns with coal truck movements. In this regard, access through Gate 0 needs clarification. It may be necessary to widen the Harbour Arterial to prevent dangerous traffic conditions due to conflict between various types of cargo deliveries.
- It is not acceptable to dismiss trip generation as minor given existing congestion because of port operations and inadequate rail services. Solutions are required given the current situation.
- The rail system has proven unreliable; therefore, development plans must account for worst-case scenarios where rail operations fail, as has been observed in recent years.
- Consideration must be given to use dredging material for sand replenishment purposes on Alkantstrand (Northern Beaches) if it is found to be clean and of a good quality. It is also proposed to put the material on the northern side of the pier to make the area shallower and to improve the sea floor level to reduce wave action.
- The report references (under 6.1.11) that 3,900 trucks entered the port in 2012. This figure raises questions given that in 2024, approximately 1,300 trucks entered daily, thus over 39,000 monthly. Recent figures and numbers have to be used.
- The comment under the same section: *"The current road infrastructure of the PoRB cannot provide sufficient and safe access to the facility."* This statement confirms that any additional trucks will be a problem and mitigating measures therefore need to be provided.
- Questions remain regarding truck generation if the rail system fails. It is crucial to assess whether current infrastructure can handle such an scenario.

#### 4. SPATIAL PLANNING

The proposal is relevant and aligns with the Richards Bay Port Development Framework Plan and other applicable policies and legislative mandates.

#### 5. FIRE AND RESCUE

All the proposed fire extinguishing media are required to be illustrated on fire layout plans for the Municipal Fire Department approval at the time of building plans submissions.

#### 6. ENVIRONMENTAL PLANNING

The Berth 605 project is included in the short-term plan for the Port of Richards Bay, with a target completion date of 2032. Upon reaching the end of the Container Handling Facility's (CHF) operational lifespan, there are two potential paths; i.e. either replacing or decommissioning the CHF. Both alternatives are likely to have negative environmental consequences. Therefore, it is advised that the applicant considers future planning implications when seeking Environmental Approvals.

You are welcome to direct further queries regarding the above to Ms. Estelle Naidoo from the office of the Deputy Municipal Manager: City Development on Tel: [REDACTED] or email: [REDACTED]

Yours faithfully

14 January 2025

**ATTENTION: WAYNE HECTOR**

Dear Mr Hector

**PROPOSED BERTH 605 AND ASSOCIATED INFRASTRUCTURE TO SUPPORT THE CONTAINER HANDLING FACILITY IN THE PORT OF RICHARDS BAY, UMHLATUZE  
District Municipality: King Cetshwayo**

The Draft Scoping Report (DSR), dated November 2024, for the abovementioned application has been reviewed by Ezemvelo KZN Wildlife (Ezemvelo) IEM staff.

It is brought to your attention that the proposed new berth and associated infrastructure development is located in a highly sensitive environment which is considered to be of conservation significance.

While there may be a number of concerns with the proposed application, the Plan of Study is supported in principle in as far as it will potentially provide the required information required to make an informed decision. Furthermore, the specialist studies recommended in the Plan of Study should identify additional fatal flaws not already identified in the baseline studies and initial feasibility studies. However, Ezemvelo urges the Environmental Assessment Practitioner (EAP) to take careful cognisance of other specialist studies and the concerns flagged there recently for proposals in close proximity to that proposed here. This is in particular related to the:

- Impacts to the estuarine area, and estuarine fauna (across the size spectrum),
- Cumulative noise impacts to roosting birds on the nearby sandspit and associated mangrove areas,
- Potential increased light impacts to the mangrove areas in relation to roosting birds

Further to the above, the specialist studies related to dredge disposal will need to show that the preferred disposal site will not have any undue impacts to offshore biodiversity, in particular to the resident humpback dolphin population, or impact with any cetacean migration routes, or turtles.

P O Box 13053, Cascades, 3202 • 1 Peter Brown Drive, Montrose, 3202 • Tel : +27 33 845 1346 Email: iem.app@kznwildlife.com  
www.kznwildlife.com

Ezemvelo KZN Wildlife Official Comment	No Ref provided	Proposed Berth 605 and associated infrastructure at the Port of Richards Bay, Umhlatuze	Page 1 of 2
---	-----------------	--	-------------

In addition, the wetland assessment should consider all wetlands which are ground-water driven and derived as being freshwater wetlands, irrespective of their location in the Estuarine Functional Zone. While some wetlands in the area may be as a result of anthropogenic activities during port construction, these areas do contribute to the ecosystem goods and services values, and all freshwater resources ecosystem goods and services should be retained. Should there be residual loss, there will need to be some consideration given to freshwater resource offsets, as part of the specialist study.

Ezemvelo look forward to engaging further in this project proposal. Please note that this does not constitute final comment, but that final comment will be submitted upon review of the specialist reports as part of the Draft Environmental Impact Report.

Should you wish to discuss any of the points raised above or should any further biodiversity issues arise please do not hesitate to contact our offices.

Yours sincerely

pp

## COMMENT(S)

You are welcome to use additional pages should you so wish to do so.

I have the following comments to make regarding the project:

Environmental concerns - Berthing operations can contribute to water & air pollution, including emissions of green house gases from idling ships

Climate change - With the weather being irregular because of climate change, ~~How~~ strong winds/rough sea, which will affect the berthing operations and cause a delay in docking & undocking. Which will increase incidents/leakages, what is the emergency evacuation plan, for the neighbouring communities, in light of a danger/risk associated with Berthing/ Dry/Liquid chemicals. Within the Port.

Sensitivity area - In the report it was mentioned that assessments done previously for other projects is not expectable, since the entire project site is on a Estuarine Functional Zone, + Critical Biodiversity Area. Since the clearing from the previous project, may mean the few animals could rehabilitated themselves in this proposed site. So a report needs to beeh. And offsetting is not a solutions, as we are trying to maintain and foster an undisturbed environment.

THANK YOU

WSP will be processing certain personal information about you as an interested and affected party (I & AP) for purposes of enabling your registration as an I & AP and for purposes of storing your details on our database, if you consent for us to do so. WSP uses these details to contact you about other projects in the future. WSP will always process your personal information in accordance with the Protection of Personal Information Act 4 of 2013. You are entitled to exercise your rights as a data subject and let us know if you wish to be deregistered as an I & AP or if you no longer want your contact details to be included on our database.

## COMMENT(S)

You are welcome to use additional pages should you so wish to do so.

I have the following comments to make regarding the project:

Gas leaks → What measures will be taken by the developer, in an event of leak, to minimize the negative impacts that a leak may have on health and well being of the surrounding communities and the natural habitats. Can the developer set aside funding to respond to the disasters as result of their operations?

Port → Is an estuary which is important to marine life for breeding. Subsistence fisherfolks & traditional healers who dependant on the ocean and estuaries need assurances that their way of life will not be adversely affected. In an event of a spillage, does the developer have a facility for marine life affected by the spills?

→ Will any of the proposed project area include traditional fishing areas and will be closed off to fishing? What areas will be closed off, that are currently as accessible to the public.

→ Employment → Will the development improve the lives of community members, based previous experiences, local leadership tend to approve such projects as they are advised that such projects will create jobs for community members, which in most cases left for high tertiary

## COMMENT(S)

You are welcome to use additional pages should you so wish to do so.

I have the following comments to make regarding the project:

And limited to security guards. If employed then they will also be contract workers for In the construction Phase.

Traffic Management → The report is silent / unclear on the additional trucks on our roads delivering ~~go~~ or fetching the materials. As with recent times access to the town of Richards Bay has been heavily congested, in some instances, totally blocked off by trucks hauling various minerals, materials and chemicals into the port, so with this development it will be an addition.

Pipelines → With construction for the Pipelines, indigenous flora will be removed which has the potential to introduce invasive alien flora, what measures will be put in place to ensure that this doesn't happen?

Clearing of indigenous vegetation, under the NFA all forests are protected and no trees (dead or alive) may be cut, damaged or removed without a licence from DFFE. So will the developer be applying for one or has one already.
